

## Accessing Triola's Data Sets Directly from Your TI 83/84

In order to access the data sets that are printed in the back of your book you will need to follow the instructions at the bottom of this page\* (reprinted from the CD ROM that accompanies the text). OR your instructor can download the program directly into your TI 83 Plus or TI 84 calculator. The following shows how to access a data set once the TRIOLXE Application is in your TI 83 plus or TI 84.

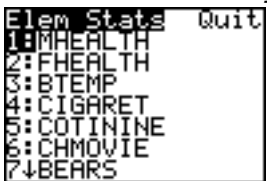

[APPS] & scroll down

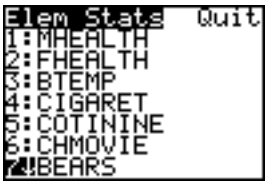

this screen will change

to this one - choose your set

scroll down to bears and press [Enter]

choose Bear Age by pressing [Enter]

notice the little box indicating BAGE

scroll right to Load and press [Enter]

Bear Age has been loaded

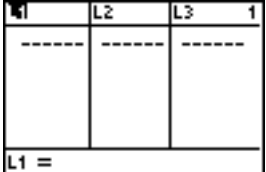

now Quit TRIOLAXE

[STAT] Edit

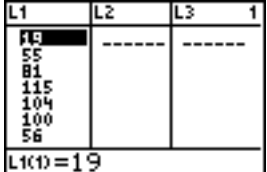

put cursor on L1

2nd LIST and choose BAGE

press ENTER, Bear Ages in L1

\*TI-83 Plus TI 84 - 1 application: TRIOLAXe.8xk

All of the data sets for the TI-83 Plus TI 84 are included in the TriolaXe.8xk application file. This application file must be loaded on a TI-83 Plus or TI 84 calculator. In order to do this, you will need TI-GRAPH LINK cable and the free TI-GRAPH LINK software (version 1.1 or later) or TI Connect (r) software. Go to the Texas Instruments Web site at

<http://education.ti.com/us/product/accessory/link/features/features.html> for download and order information.

To download the TI-83 Plus TI 84 application to the calculator, double click on the TI-Graph Link icon, select LINK, SEND FLASH SOFTWARE, APPLICATIONS AND CERTIFICATES. Enter the location of the file TriolaXe.8xk, click on that file name, click on ADD, then OK.
