Introduction to Computer and Information Science

CIS 110, Section AA, Spring 2015

The following chart shows the schedule for the first segment of the course.

Date	Topic	Reading	Project due date
Fri., 1/23	Introduction		
Mon., 1/26	Introduction to computer information systems	Computer Concepts: Orientation	
Wed., 1/28	Introduction to computer information systems (continued)		
Fri., 1/30	Computer and digital basics	Computer Concepts: Chapter 1	Project 1 due
Mon., 2/2	Computer and digital basics (continued)		
Wed., 2/4	Overview of computer hardware	Computer Concepts: Chapter 2	
Fri., 2/6	Overview of computer hardware (continued)		
Mon., 2/9	Overview of computer software	Computer Concepts: Chapter 3	Project 2 due
Wed., 2/11	Overview of computer software (continued)		
Fri., 2/13	Holiday		
Mon., 2/16	Holiday		
Wed., 2/18	Introduction to data manipulation		
Fri., 2/20	Introduction to data manipulation (continued)		
Mon., 2/23	Operating systems and file management	Computer Concepts: Chapter 4	
Wed., 2/25	Operating systems and file management (continued)		
Fri., 2/27	Operating systems and file management (continued)		
Mon., 3/2	Overview of data communications, networks, and the Internet	Computer Concepts: Chapter 5	Project 3 due
Wed., 3.4	Overview of data communications, networks, and the Internet (continued)		
Fri., 3/6	Overview of data communications, networks, and the Internet (continued)	Computer Concepts: Chapter 6	
Mon., 3/9	Overview of data communications, networks, and the Internet (continued)		
Wed., 3/11	Review for Exam 1		
Fri., 3/13	**Exam 1**
