

Course Compass Navigation Guide

This guide provides an overview of the menu buttons that are used for this course. This is what the course menu looks like and below is a description of each of the buttons.

Announcements

This is the link to the main entry point for CourseCompass. Check here often for new announcements.

Course Documents

Here you will find all course materials: syllabus, calendar, project, lecture notes, assignment checklists, homework guidelines, and more.

Online Homework

This is a link to the online homework assignments. You may rework the problems unlimited times until the due date.

Online Quizzes

This is a link to online quizzes. You may rework the quizzes unlimited times until the due date.

Study Plan

This helps gauge mastery of course material and provides practice questions.

Multimedia Textbook

Here you find the textbook, student's solution manual, answers to all odd problems, tables, formulas, glossary, technical help, and more.

Multimedia Library

This is a great reference resource. Here you find power point lectures, video presentations, and other multimedia content.

Discussion Board

Link to the course discussion board. Post questions and find answers to your questions.

Virtual Classroom

This is where I will hold my online office hours and we can interact on the virtual white board.

Gradebook

Here you can view your current grades.

Installation Wizard

Use this link to install the plug-ins and players needed for using CourseCompass.

StatCrunch

You will be using this link for the project.
