FTES=Full Time Equivalent Students
WSCH=Weekly Student Contact Hours
FTEF=Full Time Equivalent Faculty
FTEF-FT=Full Time Equivalent Faculty (Full Time)
FTEF-PT=Full Time Equivalent Faculty (Part Time)
LOAD=WSCH/FTEF

Data derived from the SV_Term_Section_FTE view in WARE.

Issues with Using Department:

Department names change. At Cañada, Web Design/Multimedia/Graphic Arts classes were ART, but now are MART.

Department names are different across the three campuses. MART at Cañada, MULT at CSM and CAOT at Skyline.

Some departments on different campuses may be similar in nature, but are not exact matches. CIS, CIT, COMP, and CAOT are similar with some differences.

Issues with TOP Codes:

Top Codes are not consistently applied across the three campuses. For example, Top Code 220100=Social Sciences, General--but includes classes from ECON, EDUC, GEOG, SGOV, SOCI and SOSC departments, even though these departments have their own top codes, like ECON is 220500.

Top Codes are not consistently applied at the same college. CSM has FREN classes listed under both 110200=French and 110100=Foreign Languages, General.

There are multiple instances of most of these issues, but only one is listed for example purposes.

LOAD Irregularities:

PE classes (including DANC, FITN, INDV, TEAM & VARS) are typically high in LOADS. Sometimes, when there is a relatively small amount of assigned faculty time relative to the number of students involved, the LOAD will be higher. This occurs in LCTR and many developmental skills (DSKL) and to a lesser extent in the self-paced business/computer classes. The self-paced classes are very similar to PE classes where one person is assigned to monitor the weightroom or computer lab and large numbers of students pass through it each day. Anything with < 1 FTE (faculty) will have a noticeably higher load.

Certain courses with high LOAD may be due to a higher cap. Others may be due to the existence of contractual riders in which case a professor may take on more students.
