

PROJECT NAME: Removal of Redi-wheels bus shelter at Parking Lot 4

PROJECT DESCRIPTION: Samtrans will be removing the existing Redi-wheels bus shelter and bench in Lot 4. In its place, granite seat pads will be installed, similar to the ones front of B3. New Redi-wheels signage will be installed on one of the lamp posts near the existing shelter.

SCHEDULE: 09/22/09 – 09/29/09

CAMPUS IMPACT: This project will complete the new site design for the Arrival Area that was started in the Gateways project. This area will continue to be the drop off and pick up point for users of the paratransit service.

Although every effort will be taken to minimize disruption, some noise, vehicular and pedestrian traffic impacts may be experienced in the vicinity of this bus shelter and Parking Lot 4.

Thank you for your patience while we make this site improvement.

As always, please exercise caution should you happen to be in this part of campus while this work is being performed.
