ASSIGNMENTS:

This course will require at least 16 hours of preparation time per week. Time management is essential. You cannot afford to fall behind in assignments; catching up is extremely difficult. I do place deadlines on online materials to help keep you on track. **All deadlines are at 11 pm of the date listed.**

Chapter Lectures are on Connect and are called **narrated slides in "student library"**. I will add additional ones or handouts on chapters where I think it might be useful. Although only selected exercises and problems have been assigned, you should work as many additional exercises and problems as you can. Solutions for extra problems are on the instructor's website. The password is **ACTG131**.

Although I am not grading your homework, it is very important that you do the assignments. Connect will allow you to see the results of your work with detailed solutions. Read each chapter and review the questions before proceeding to the homework. If you feel uncertain about how to do an assignment, you can look at the illustrations in the chapter and follow the format, check solutions to problems not assigned, ask for help in the accounting lab.

You must participate in chapter forums on webaccess. This is required student to student and faculty interaction by the accreditation folks.

GRADING POLICY:

No makeup's will be given on exams. I will include Quizzes and LearnSmart modules on Connect to help you test yourself. You must also participate in chapter forums on webaccess. These will be 10% of the course grade. Recommended assignment dates are listed on the classroom assignment sheet and deadlines will be attached to each assignment on connect. If you cannot work the exam during that time period, you must make arrangements to take the exam BEFORE that date. **HOMEWORK AND PRACTICE PROBLEMS ARE NOT PART OF YOUR GRADE.** They are assigned to help you succeed in the course.
