ASSIGNMENTS:

This course will require at least 5 hours of preparation time per class. Time management is essential. You cannot afford to fall behind in assignments; catching up is extremely difficult. **If you find that you cannot master the material in this amount of time, go immediately to the accounting lab to learn how to study more efficiently using the tutor to answer questions when you get stuck.**

Although only selected exercises and problems have been assigned, you should work as many additional exercises and problems as you can. The password for solutions for work not assigned is on my website. The password is **ACTG121**.

Homework counts for 10% of the course grade. Read each chapter and review the questions before proceeding to the exercises and problems. If you feel uncertain about how to do an assignment, you can look at the illustrations in the chapter and follow the format, check solutions to problems not assigned, ask for help in the accounting lab.

You are expected to have completed the assignment before class. Homework will be checked for credit daily. You will receive credit for the amount of work done, not whether it is correct or not. If you cannot come to class, send your work with another student or you may email to instructor. Late homework is not accepted for credit. Therefore, if you arrive late to class after homework has been recorded, you need to see me after class for partial credit.

CONNECT REGISTRATION INSTRUCTIONS:

Go to the following web address and click on the "register now" button:

http://connect.mcgraw-hill.com/class/l_whitten_spring_2012_mw_10-12

Connect has great online material available for you. There are:

narrated lectures which allow you to learn material you missed or didn't understand in the class lecture.

practice problems and other learning materials

most importantly, you will take your quizzes on connect. The instructor will send you a weekly email advising you of the quiz schedule online.

You will be allowed to use Connect for the first couple of weeks of the semester without the access code. McGraw-Hill recognizes that you may need time to acquire a book so they give you time to accomplish this. This allows you to use the e-book and connect during that time period so that you don't get behind.

Go to the accounting lab and sign up for a scheduled weekly lab session. David Hall is the lab tutor. The **separate lab syllabus** is on the last page of this document. Your lab points will count for 5% of your grade in ACTG 121. Failure to complete these assignments will harm your grade.

Success in this accounting course is dependent upon regular attendance, participation, and the completion of assigned homework. You may use the accounting lab for working on assignments or getting tutorial help whenever the lab is open in addition to your regularly assigned lab hour.

The accounting lab contains computers for your use. An accounting tutor is available in the lab for tutorial help in both problems and computer assignments. The Accounting lab is located in Room 8-209 and the phone number is 738-4247. Lab hours are:
