1 Olympian Lot 12 Accessible Parking a Serving Pool &

Minimum Number

- 18
- **As-Built Description:**
At parking lot with 76-100 spaces, the number of accessible spaces is less than required by code; 4 spaces required.

- **Proposed Solution:**

Provide required accessible parking spaces with signs including a minimum of one van space.

- **Notes:**

95 total parking spaces, 12 accessible spaces provided.

TOTAL COST FOR: NW dir. of ROUTE 113 Starting at: CENTRAL HALL 16												\$60,600.00

- Direction of Travel:** Corresponds to the side of the street surveyed:
- N, S, E and W.
- Dist. from Start:** The location of the identified barrier, measured in feet from the starting building or route.
- Route:** Name of arterial/primary route for which barriers are being surveyed.
- Barrier Type:** Type of barrier recorded.
- Start of Route:** Name of the starting building from which barrier locations are being measured.
- Measurement:** Existing condition/dimension.
- Sidewalk Width:** Width of the sidewalk measured in feet.
- Qty:** Number of solutions required.
- End of Route:** Name of the ending building from which barrier locations are being measured.
- Unit:** Unit of measurement used to compute estimate. LF=linear feet; SF=square feet; JOB=lump sum; REF=reference
- Cost:** Estimated cost of specific solution per one unit (the final cost of barrier removal may exceed this estimate based on the year of mitigation, design approach, and chosen method of mitigation).
- Total:** Total estimated cost for removing identified barrier (multiplied Qty by Cost).
- Priority:** Priority number assigned to specific barrier based on prioritization criteria which include: expected frequency of use and severity of the barrier. Measured on a scale of 0 to 200, with 200 being the highest priority and 0 being the least.

1. **Locator Number:** Corresponds to a unique database record tied to the specific curb ramp which can be crossreferenced across this database and its corresponding GIS database.
2. **Ramp Type:** Identify the type of curb ramp (parallel, perpendicular, curb ramp required, etc.).
3. **Specific Item** Category of accessible feature in which the barrier belongs.
4. **Survey Street:** Survey street name.
5. **Field Condition:** Description of as-built barrier based on applicable accessibility codes.
6. **Measurement:** Existing condition/dimension featured on the ramp measured as the most severe barrier on the particular ramp.
7. **Proposed Solution:** Description of steps necessary to remove barrier and, if applicable, an interim solution or notes.
8. **Cross Street:** Cross/intersecting street name.
9. **Codes / Info:**
 - PROWAG: Guidelines to enforce Federal accessibility standards in the public rights-of-way.
 - ADAAG/ADA 2010: The Federal Standard for accessibility adopted by the Department of Justice.
 - CBC 2007/ CBC 2016 The California Building Codes.
10. **Unit Cost:** Estimated cost specific solution per one unit. (The final cost of barrier removal may exceed this estimate based on the year of mitigation, design approach and chosen method of mitigation)
11. **Ramp Features:** Features of curb ramp measured to determine accessibility.
12. **Measurements:** Existing condition/dimension determined for each ramp.
 - (in) measurement in inches
 - (%) measurement in percentage grade
 - **BOLD** text indicate non-compliant dimensions.
 - Normal text indicate compliant dimensions
13. **Priority:** Priority number assigned to specific barrier based on prioritization criteria which include: expected frequency of use and severity of the barrier. Measured on a scale of 0 to 200, with 200 being the highest priority and 0 being the least.

MEASUREMENT BREAKDOWN

FeATURe:	ADA/CBC GUIDe LINE
Street Grade	<i>Used for reference in regards to possible exceptions</i>
Width of Ramp	The clear width of curb ramp runs (excluding any flare sides), blended transitions, and turning spaces shall be 48 inches minimum.
Slope of the Ramp	Ramp runs shall have a running slope not steeper than 1:12 (8.3%).
X Slope of the Ramp	The cross slope of curb ramps and blended transitions shall be 1:48 (2.0%) maximum.
Top Landing Length	Landings shall be provided at the tops of curb ramps and blended transitions. The landing clear length shall be 48 inches minimum.
Top Landing Slope	The slope of the landing in all directions shall be 1:48 (2.0%) maximum.
Top Landing X Slope	The slope of the landing in all directions shall be 1:48 (2.0%) maximum.
Bottom Landing Length	(Parallel Curb Ramp) A turning space 48 inches minimum by 48 inches minimum shall be provided at the bottom of the curb ramp.
Bottom Landing Slope	(Parallel Curb Ramp) The slope of the turning space in all directions shall be 1:48 (2.0%) maximum.
Bottom Landing X Slope	(Parallel Curb Ramp) The slope of the turning space in all directions shall be 1:48 (2.0%) maximum.
Left Flare	Where provided, curb ramp flare shall not be steeper than 1:10 (10.0%).
Right Flare	Where provided, curb ramp flare shall not be steeper than 1:10 (10.0%).
Gutter Lip	The adjacent surfaces at transitions at curb ramps to walks, gutters, and streets shall be at the same level.
Gutter Slope	Counter slopes of adjoining gutters and road surfaces immediately adjacent to and within 24 inches of the curb ramp shall not be steeper than 1:20 (5.0%).
Gutter X Slope	The cross slope of curb ramps and blended transitions shall be 1:48 (2.0%) maximum.
Truncated Domes	Curb ramps and blended transitions shall have detectable warnings.
Dome Setback	Detectable warnings shall be located so the edge nearest the curb is 6 inches minimum and 8 inches maximum from the line at the face of the curb marking the transition between the curb and the gutter, street or highway or flus at the transition for a paralell curb ramp and island cut-through.
Within Crosswalk	The bottom of curb ramps shall have a clear space 48 inches minimum outside active traffi lanes of the roadway

COST SUMMARY

Total Cost for Street: Aquatics Ln			\$12,000.00
Street Names:	ID:	Type:

Perpendicular225 Detectable Warnings

- As-Built Description:**
Detectable warning surface not provided where a curb ramp, landing, blended transition, pedestrian pad, or island cut through connects to a street.
- Proposed Solution:**
Install a truncated dome surface that extends the full width and depth (36" min.) of the curb ramp, landing, blended transition, pedestrian pad, or island cut through

• As-Built Description:		The cross slope of the floor or ground surface at the pedestrian signal device exceed 1:48 (2%).		Unit Cost \$7950.00			Button Ht. (in) 36.0 Button Reach (in) 10.0 Button Diameter (in) 2.0 Button Pressure (lbs) 2.0 Closed Fist Operation (y/n) Yes Visual Contrast (y/n) Yes				
• As-is Measurement:		2.6%					Contrasting Color Bands (y/n) No Vibrotactile Feedback (y/n) No Audible Walk Indicator (y/n) No Button Locator Tone (y/n) No Tactile Arrow (y/n) No				
• Proposed Solution:		Modify or repave the ground surface as necessary to provide slope (s) not exceeding the required 1:48 (2%) maximum in any direction.					Within 5 ft from crosswalk (y/n) Yes 1.5 - 6.0 ft from curb (y/n) Yes 10 ft minimum separation N/A				
• Additional Items:		Remount push button to 42" min. and 48" max. height to center of button. Provide 2" wide color coding with 1" wide dark borders located directly above control button. Provide an tactile arrow aligned parallel to the crosswalk direction on the sign. Provide voice or tone audible indication of the WALK interval at the pedestrian signal device. Provide a vibrotactile signal device that is integrated with the pedestrian pushbutton. Provide a button locator tone.									

- Locator Number:** Corresponds to a unique database record tied to the specific pedestrian signal which can be crossreferenced across this database and its corresponding FileMaker Pro database.
- As-Built Description:** Description of as-built barrier based on applicable accessibility codes.
- Survey Street:** Survey street name.
- As-is Measurement:** Existing condition/dimension featured on the signal system measured as the most severe barrier on the particular signal.
- Proposed Solution:** Description of steps necessary to remove barrier and, if applicable, an interim solution or notes.
- Codes / Info:**
 - PROWAG: Guidelines to enforce Federal accessibility standards in the public rights-of-way.
 - ADAAG/ADA 2010: The Federal Standard for accessibility adopted by the Department of Justice.
 - MUTCD: The FHWA standards for traffic signs, road surface markings, and signals.
 - CBC 2016: California Building Code
- Unit Cost:** Estimated cost specific solution per one unit. (The final cost of barrier removal may exceed this estimate based on the year of mitigation, design approach and chosen method of mitigation)
- Cross Street :** Cross/intersecting street name.
- Ped. Signal Features:** Features of the pedestrian signal system measured to determine accessibility.
- Measurements:** Existing condition/dimension determined for each pedestrian signal system.
 - (in) measurement in inches
 - (%) measurement in percentage grade
 - **BOLD** text indicate non-compliant dimensions.
 - Normal text indicate compliant dimensions
- Priority:** Priority number assigned to specific barrier based on prioritization criteria which include: expected frequency of use and severity of the barrier. Measured on a scale of 0 to 200, with 200 being the highest priority and 0 being the least.

**Appendix P: Prioritization Criteria
Facilities**

Table of Contents

- i. Definitions**
- ii. Priority Score**
Table 1: Priority Score Breakdown
- iii. Severity Score**

Definitions

Access Compliance Survey – Process taken to fulfill the requirements of a Transition Plan, by surveying and identifying physical barriers which impede accessibility to a program or service provided to the public.

Curb Ramp – A ramp graded down from the top surface of a sidewalk to the surface of an adjoining street to provide connectivity within the Public Rights-of-Way.

Facility – A place housing a program or service for the public.

Feature – An element provided in the Public Rights-of-Way, including public sidewalks and streets, crosswalks, curb ramps, street furnishings, pedestrian signals, parking, etc. The four main features surveyed are 1) sidewalks, 2) curb ramps, 3) pedestrian signals, and 4) bus stops

Pedestrian Signal – Devices used at signalized intersections to notify pedestrians when it is safe to cross the street.

PROW – *Refer to definition of “Public Rights-of-Way (PROW)”*

Public Rights-of-Way (PROW) – Public infrastructure such as streets, roads, or walkways under the responsibility or authority of a public entity, such as a City or County.

Self-Evaluation – A review of a public entity’s policies, procedures, and practices in meeting the programmatic requirements of Title II of the Americans with Disabilities Act. The findings of the review and the modifications made as a result must be compiled and shall be made available for public inspection.

Title I – Regulations from the Americans with Disabilities Act specific to employment.

Title II – Regulations from the Americans with Disabilities Act specific to State and local government entities, including City and County governments.

Title III – Regulations from the Americans with Disabilities Act specific to areas of public accommodations and commercial facilities.

Transition Plan - A living document that inventories the physical barriers identified which impede accessibility to a public entity’s programs and services. The document will identify solutions to mitigate the barriers and set forth the steps necessary to achieve compliance via a timeline or schedule and designate an official responsible to maintain and update the document. The document is a requirement of the Americans with Disabilities Act and shall be made current and available for public inspection.

Priority Score

A Priority Score is a rating that rates the relative importance of addressing a barrier according to its impact upon the disabled population. The score considers the expected frequency of use and frequency of contact that the barrier will have with the public based on its location within a facility and where the public have access to.

The Priority Score is rated on a score ranging from 1 to 4, 1 being the highest priority, which are barriers that are expected to be in contact with the public consistently, and 4 being the lowest priority, which are barriers with minimal contact by the public. The scoring for the Priority Score is based on the following:

Table 1: Priority Score Breakdown

Priority 1	Areas of basic public access
	Accessible routes from site entry points to an accessible building entrance of the program location (EX. walks, ramps, accessible parking spaces, curb ramps, crosswalks at vehicular ways, passenger loading zones, etc.)
	Accessible route from accessible building entrances to “first contact points” (EX. information counters, public lobbies, elevators)
Priority 2	Access to critical spaces of program function
	(EX. Classrooms, assembly areas, meeting rooms, public offices, etc.)
Priority 3	Access to public common areas that support program functions
	(EX. Restrooms, drinking fountains, public telephones, etc.)
Priority 4	Staff only areas not expected to be accessed by the public

Severity Score

A Severity Score is a rating of the degree of deviation that the existing barrier has in comparison to applicable standards and the reparability of mitigating the barrier.

The Severity Score is rated on a score ranging from 1 to 4, 1 being the highest severity, and 4 being the lowest severity. Severity Scores are assigned on a case-by-case basis depending on the type of barrier and the most cost-effective solution to mitigate the barrier.

iv. Priority Score

Definitions

Access Compliance Assessment – Process taken to fulfill the requirements of a Transition Plan, by surveying and identifying physical barriers which impede accessibility to a program or service provided to the public.

Activity Score – Rating that summarizes a feature’s expected frequency of use and its impact on individuals with disabilities.

Barrier Score – Rating that summarizes the severity of a feature relative to its deviation from current State and Federal Standards.

Curb Ramp – A ramp graded down from the top surface of a sidewalk to the surface of an adjoining street to provide connectivity within the Public Rights-of-Way.

Facility – A place housing a program or service for the public.

Feature – An element provided in the Public Rights-of-Way, including public sidewalks and streets, crosswalks, curb ramps, street furnishings, pedestrian signals, parking, etc. The three main features assessed are 1) sidewalks, including gaps, 2) curb ramps, 3) pedestrian signals, and 4) bus stops.

Pedestrian Signal – Devices used at signalized intersections to notify pedestrians when it is safe to cross the street.

Priority Score – Rating that is the summation of both Activity Score and Barrier Score. This rating is used as criteria for determining barrier mitigation schedules that are a requirement of a Transition Plan.

PROW – *Refer to definition of “Public Rights-of-Way (PROW)”*

Public Rights-of-Way (PROW) – Public infrastructure such as streets, roads, or walkways under the responsibility or authority of a public entity, such as a City or County.

Self-Evaluation – A review of a public entity’s policies, procedures, and practices in meeting the programmatic requirements of Title II of the Americans with Disabilities Act. The findings of the review and the modifications made as a result must be compiled and shall be made available for public inspection.

Title I – Regulations from the Americans with Disabilities Act specific to employment.

Title II – Regulations from the Americans with Disabilities Act specific to state and local government entities, including City and County governments.

Title III – Regulations from the Americans with Disabilities Act specific to areas of public accommodations and commercial facilities.

Transition Plan - A living document that inventories the physical barriers identified which impede accessibility to a public entity’s programs and services. The document will identify solutions to mitigate the barriers and set forth the steps necessary to achieve compliance via a timeline or schedule and designate an official responsible to maintain and update the document. The document is a requirement of the Americans with Disabilities Act and shall be made current and available for public inspection.

Activity Score

An Activity Score is a rating that summarizes a feature's (sidewalk, curb ramp, and pedestrian signal) expected frequency of use and its impact on individuals with disabilities in the Public Rights-of-Way (PRoW). A rating is assigned to a feature based on that feature's location in proximity to several categories.

In total, the Activity Score is scored on a scale of 0 to 100, with 0 being the lowest activity, and 100 being the highest activity. An Activity Score of 0 indicates that the feature is not expected to see any use by pedestrians based on its location. An Activity Score of 100 indicates that the feature is expected to see significant use by pedestrians due to its location.

Due to all the PRoW features being located on a college campus, all features have a high activity and therefore received a score of 100.

Barrier Score

A Barrier Score is a rating assigned to a feature (sidewalk (including gaps), curb ramp, pedestrian signal, or bus stops) in the Public Rights-of-Way based on the severity of the feature's existing conditions in comparison to current State and Federal Standards.

In total, the Barrier Score is scored on a scale of 0 to 100, with 0 being a feature that is compliant with current State and Federal Standards, and 100 indicating that the feature is completely noncompliant. All gaps along sidewalks and curb ramps that are required to be installed where there are none currently will be given a score of 100 to classify that they are the highest priority.

Categories used to rate a Barrier Score for each feature in the Public Rights-of-Way are specific to the feature being assessed (sidewalk (including gaps), curb ramp, pedestrian signal, or bus stops).

The following categories are used to rate a Barrier Score for Sidewalks:

Table 1: Barrier Score Category Breakdown for Sidewalks

Category	Barrier Type	Weight	Quantity**	Value	Score
Heaving/Change in Level	Minor Change in Level (0.26"-0.74")	10	1-2 Incidents	30%	3
			3-5 Incidents	60%	6
			6+ Incidents	100%	10
	Major Change in Level (0.75" or greater)	20	1-2 Incidents	30%	6
			3-5 Incidents	60%	12
			6+ Incidents	100%	20
Cross Slope	Cross Slope Low (2%-5%)	10	10' or less	50%	5
			>10'	100%	10
	Cross Slope Medium (5%-8%)	15	10' or less	50%	7.5
			>10'	100%	15
	Cross Slope High (>8%)	20	10' or less	50%	10
			>10'	100%	20
Run Slope*	Running Slope Low (5%-8%)	2.5	10' or less	50%	1.25
			>10'	100%	2.5
	Running Slope Medium (8%-11%)	5	10' or less	50%	2.5
			>10'	100%	5
	Running Slope High (>11%)	7.5	10' or less	50%	3.75
			>10'	100%	7.5
Obstructions	Obstructions	10	1-2 Incident	50%	5
			3+ Incidents	100%	10
	Total Weight	100			

*Running Slope that matches street grade or less is considered compliant and therefore should receive a score of 0. Any running slope longer than 10 feet is assumed to match the street grade.

** Incidents are the barrier count along a run. For slope data it is the length of the category for the run. A run is usually from one intersection to the next, however a run could end mid-block depending on several factors.

Figure 1: Curb Ramp Measurements Diagram (Perpendicular)

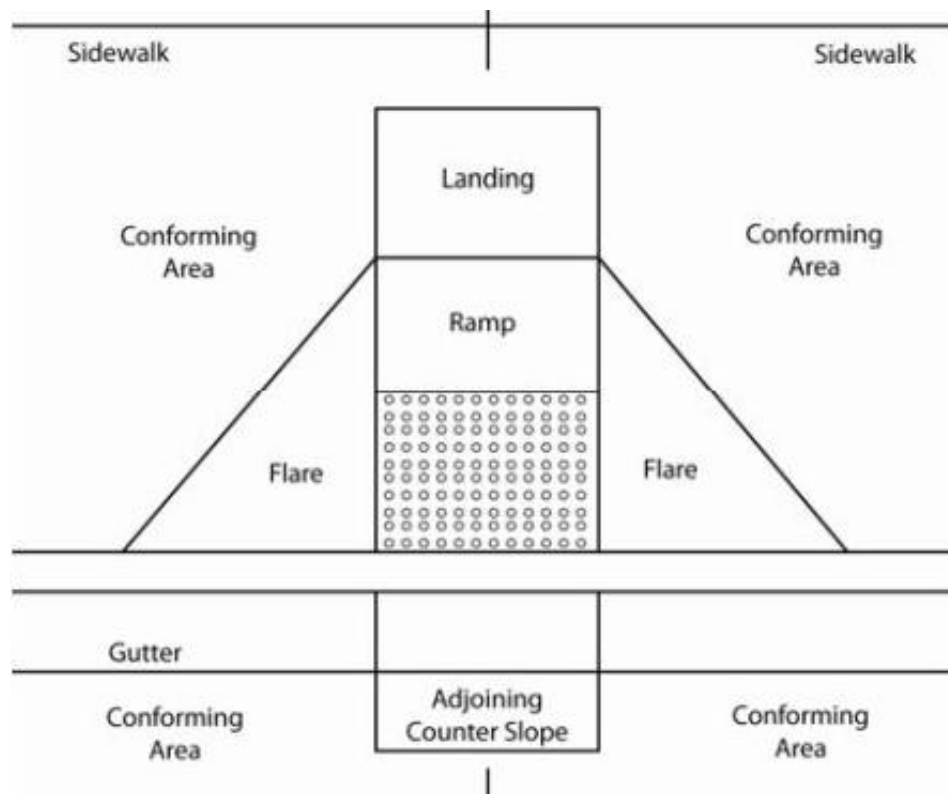

Figure 2: Curb Ramp Components Diagram (Perpendicular)

The following categories are used to rate a Barrier Score for Curb Ramps (Perpendicular):

Table 2: Barrier Score Category Breakdown for Curb Ramps (Perpendicular)

Barrier Type	Weight	Category	Value	Score
Width of Ramp	6	≤ 35.9"	100%	6
		36.0" - 41.9"	50%	3
		42.0" - 47.5"	25%	1.5

**Appendix R: Public Vetting Meeting
and Solicitation of Public Input**

Appendix R: Public Vetting Meeting and Solicitation of Public Input

Below is the presentation given on October 1, 2020. The presentation was given twice, both at 9:00am and 3:00pm, via a Zoom meeting where members of the public could join over the internet or by phone. The meeting was advertised on San Mateo Community College District's website as well as all three college campus websites. In addition, the comment form for submitting public input has been included after the presentation.

The public comment period was open between September 8, 2020 to October 31, 2020. The submitted comments with responses are included below.

Agenda

- **Welcome**
- **Chancellor Mike Claire**
- **Project History**
- **ADA History**
- **Transition Plan Process**
- **Self-Evaluation Process**
- **Implementation Plan**
- **Timeline**
- **How to get Involved**
- **Questions and Answers**

ADA Plan

Sally Swanson Architects, Inc. (SSA)

October 1, 2020

Why We Have the ADA

- **Social change:**
 - Medical advances
 - Increased lifespan
- **Returning veterans**
- **Senior citizens**
- **Planning and construction**

District Responsibilities Under ADA

General Prohibitions Against Discrimination (28 CFR 35.130):

(a) No qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any public entity.

ADA Legal Mandates:

- Self-Evaluation (28 CFR 35.105)
- Transition Plan (28 CFR 35.150 (d))
- ADA Notice of Compliance (28 CFR 35.106)
- ADA Grievance System (28 CFR 35.107)
- Appointment of a Responsible Employee (28 CFR 35.107)

Self-Evaluation & Transition Plan

Key Components

- A survey of the built environment
- A survey of programs, services & activities
- Plan for barrier mitigation
- A schedule for barrier mitigation
- The appointment of a District official to administer the plan

Transition Plan Process

- Document architectural barriers where programs take place
- Make alterations to provide program access
- Description of structural modifications
- Timeline for completing work

Facility Survey Methodology

Interior

Staff Only

Program
Access to
Spaces

Transition Plan Update

Current Status

- Conducted a barrier survey on District Office, Cañada College, College of San Mateo & Skyline College
- Draft Transition Plan completed

Moving Forward

- Funding & budget committed to ADA improvements
- Internal project review for ADA compliance
- Identify current and future projects
- On-going tracking and monitoring

Transition Plan Findings

■ Skyline College

- Reach ranges and protrusions
- Door vision lights and door pressure
- Restrooms

■ College of San Mateo

- Restrooms
- Reach ranges and protrusions
- Door vision lights

■ Cañada College

- Restrooms
- Door vision lights
- Reach ranges and protrusions
- Cross slope and ramp landings

■ District Office

- Restrooms

Transition Plan Reports & Databases

SMCCCD

Access Compliance Survey Report

101-1-2

Facility: **District Office (CSM)**

Part: **Interior**

Floor: **Second Floor**

Address: **1700 West Hillsdale Blvd, San Mateo, CA**

Year Built: **1978**

Item no., Rm no. and Name	Existing Architectural Barrier and Proposed Solution	Codes / Mitigation Info	Qty	Unit	Cost	Total
------------------------------	---	-------------------------	-----	------	------	-------

Door Threshold

142

• As-Built Description:

Door inaccessible due to threshold or step at door exceeding 1/2".

• As-Built: **1.5" vertical**

• Proposed Solution:

Modify threshold to be no more than 1/2" by removing existing paving at door and providing landing with edge ramping (slope 1:20 max).

PCODE ID02A

ADAAG 91 4.13.8

Self-Evaluation Process

- Self-Evaluation (Programs, Services & Activities)
- Subject matter survey
- Bringing the document together
- Work Plan
- Creating a “Living Document”

Self-Evaluation Plan Update

Current Status

- District Office & Campuses surveys received & evaluated
- Draft Self-Evaluation reports completed

Moving Forward

- The Work Plan law vs. best practice
- Finalize the report in consensus with the District
- Identify grievance procedure
- On-going tracking and monitoring

Self-Evaluation Work Plan

SMCCCD Cañada College - Self-Evaluation Work Plan (Draft)

NO.	CITE	DEPARTMENT(S)	RECOMMENDATION(S)	SSA NOTE(S)	DATE ASSIGNED	ASSIGNEE(S)	MILESTONE(S)	DUE DATE	TRAINING (Y/N)	SMCC CANADA COLLEGE NOTE(S)
1	12	ADA Coordinator	Draft, implement and publicize uniform College policies regarding: anti-disability harassment; non-discrimination against former illegal drug users; motorized mobility devices on campus; and service and emotional support animals.							
2	12	ADA Coordinator	Ensure that trainings are regularly given to employees regarding the ADA, including but not limited to: person-first language; etiquette; responding to reasonable accommodations requests and the interactive process; accessible built (and digital) environments; positive representations of persons with disabilities; and college resources available to assist with all of these issues.							
3	12	ADA Coordinator	Ensure that employees know they will not be required to pay for reasonable accommodations which enable them to perform the essential functions of their position.							
4	12	ADA Coordinator	Clarify who is responsible for determining undue hardship in employee reasonable accommodation requests.							
5	12	ADA Coordinator	Draft and implement uniform College policy regarding determination of "direct threat".							
6	12	ADA Coordinator	Draft and implement guidance regarding maintenance of clear floor space and maneuvering clearances, as well as maintenance of accessible features and accessible classrooms.							
7	14	Communications	Update style guide to include best practices around accessible fonts, sizes, use of color/contrast.							
8	14	Communications	Evaluate campus phone lines, including 911, to ensure lines are accessible to persons who are Deaf or Hard of Hearing.							

Self-Evaluation Findings

■ Skyline College

- Create policy and practices to ensure accessibility of online and digital instructional materials.
- Develop and offer best practices training for medical staff.

■ College of San Mateo

- General updates of certain policies and practices, e.g. grievance system to include alleged disability discrimination/harassment.
- Training on disability civil rights mandates for Campus Security Officers.

■ Cañada College

- Ensure that campus phone lines, including 911, are accessible to persons who may be Deaf or hard of hearing.
- Develop and implement an Events Accessibility checklist for all events (and, in the era of COVID, be sure this includes virtual events!)

■ District Office

- Layout reasonable accommodations process clearly, in writing, in detail.
- Develop and offer comprehensive disability-related trainings, e.g. legal obligations, best practices, communications

Implementation Plan

ADA Barrier Mitigation - Implementation Schedule				
Fiscal Year	General Topic	Specific Items	# of Items	Value
20-21	1. Remedy readily achievable items while ADA project is being finalized, publically vetted and approved by the Board of Trustees at the end of 2020.	(In no particular order)	1083	\$ 685,671
		a. Add wheelstops to prevent car bumpers from extending into POT		
		b. Add/Restore 2" stripes at stairway treads		
		c. Remove furniture/items that encroach on door clearance space		
		d. Remove/lower spiral SOS binders/brochure bins, etc/reach range		
		e. Add a lower coat hook/reach range		
		f. Remove door stopper		
		g. Add tactile signage: Exit, Exit Route, Stair up/down		
		h. Assistive Listening Signage		
		i. Add Parking Signage: Van Accessible, Min. Fine & Tow-Away		
		j. Install insulation/wrap at lavatory piping		
		k. Move art items that encroach on overhead clearance		
		l. Smooth out uneven pavement		
	2. Ongoing - Remedy preventive maintenance items.			Value incl. in #1 above
		a. Adjust Door Closers for speed/pressure (twice/yr.)		
		b. Trim vegetation in POT/walk the campus (twice/yr.)		
		c. Remove furniture/items that encroach on door clearance space		
	3. Ongoing - Remedy complaints as feasible			
		a. Trim vegetation at exterior stairway handrail behind CSM B1. (Specific complaint this year)		
		b. Trim vegetation at sidewalk/POT by CSMB3. (Specific complaint this year)		
	4. Vending Machine reach ranges	Contacted vendors. Explained schedule for replacement machines.		
	5. Training	Provide training for Staff, particularly Facilities Maintenance, Custodial and Grounds - how to identify barriers, how to prevent barriers (such as furniture placement in door clear spaces or vegetation extending into paths of travel). Review the plan with staff so they are familiar with and sensitive to barriers and their removal. Train specific staff how to monitor database to document barrier remedy.		

Implementation Plan

ADA Barrier Mitigation - Implementation Schedule				
Fiscal Year	General Topic	Specific Items	# of Items	Value
21-22	1. Include all remedies constructed in capital projects.		575 est.	\$ 5,007,021
		a. CAN B9		\$ 300,000
		b. CAN B13		\$ 2,000,000
		c. CAN B22		\$ 400,000
		d. CSMB19		\$ 1,000,000
		e. SKYB1		\$ 758,646
		f. SKYB2		\$ 548,375
	2. Ongoing - Remedy preventive maintenance items.			
		a. Adjust Door Closers for speed/pressure (twice/yr.)		
		b. Trim vegetation in POT/walk the campus (twice/yr.)		
		c. Remove furniture/items that encroach on door clearance space		
	3. Ongoing - Remedy complaints as feasible	Maintain list		
	4. Ongoing Training - New Hire	Recording or live		
22-23 thru 32-33	Allocate approximately \$3M/fiscal year for ADA Barrier Removal either within future Capital Projects or as separate projects			
	1. Include all remedies constructed in capital projects.			
		List TBD		
	2. Schedule highest priority/most severe items per SSA report.	Highest Priority = 1 / Severity =1	TBD	\$ 3,000,000
		1 - Accessible Routes		
		2 - Access to critical functions		
		3 - Common areas, RR's, drinking fountains, phones, etc		
		4 - Staff areas		
	3. Ongoing - Remedy preventive maintenance items.			
		a. Adjust Door Closers for speed/pressure (twice/yr.)		
		b. Trim vegetation in POT/walk the campus (twice/yr.)		
		c. Remove furniture/items that encroach on door clearance space		
	4. Ongoing - Remedy complaints as feasible			
	5. Ongoing Training - New Hire	Recorded		

Implementation Plan

- Sortable Database to Track & Monitor - “Living Document”
- Internal Staff to Mitigate Barriers
- Facility Reporting Mechanism
- Trainings for Staff

Action Items: Next Steps & Timeline

- Open period for public review and comment (September 8, 2020 – October 31, 2020)
- Integrate final District and public comments (November 2020)
- Finalize Implementation Plan (November 2020)
- Present amended Self-Evaluation & Transition Plan for Board adoption (December 9, 2020)

Public Review Process: San Mateo County Community College District Draft ADA Plan

The San Mateo County Community College District has drafted a new ADA Plan. The process includes surveys of the District's built environment, programs, services and activities. It establishes a plan and schedule for barrier mitigation for the three college campuses (Cañada College, College of San Mateo, Skyline College) and the District Office.

The Draft District ADA plan is viewable at <https://smccd.edu/ada2020>.

Please use this form for any questions or comments about the draft plan. All comments will become part of the public record on the District's ADA plan.

Public Comments

Comment #1: *I'm a current student at Skyline College and the College of San Mateo. I received the invitation for the public ADA forums less than 24 hours prior to the first forum, and though the SMCCCD did not give sufficient notice nor time for the public to review the ADA Plan, I would like to offer my experience that is concerning to me.*

This semester, I have struggled with multiple instructors not knowing how to navigate Canvas, including adding extra time for my exams, a listed accommodation that I have requested for and had approved. In addition, one of these instructors at Skyline College 1) did not acknowledge receipt of my accommodations and 2) when I asked them for extra time, insisted that there was already sufficient time given for all students and tried to reassure me that I would not need the extra time compared with other students.

I reluctantly took the exams and fortunately did not need the extra time, although the negative experience with this instructor left me no choice but to drop from their classes because I do not have the bandwidth nor time to have to continuously advocate for my needs on top of trying to learn the course material.

I'm grateful that this is my first negative experience with accessibility at the SMCCCD, but for all students to succeed, it is imperative that all instructors are competent in understanding that students have different needs and learning styles.

Response to Comment #1: *Skyline College and the San Mateo County Community College District have established protocols and resources for instructors regarding accommodations such as adjusting times. The Disability Resource Center/Educational Access Center has a Canvas page of FAQ for instructors on a range of topics including extended time adjustments, and ASLT has an accessibility specialist who provides support for faculty on ensuring their Canvas pages comply with academic accommodation plans and are accessible.*

Comment #2: *District Housing should be included in the ADA updates. I live at Canada Vista, and there are no provisions for the disabled to access floor 2 and 3. I live on the third floor and have a handicapped father. When he visited, I had to carry him up the stairs. Elevators could be retrofitted to the courtyard corners of bldg. 1 and 2 at Canada Vista, and where appropriate at CSM and Skyline. Please make District Housing ADA compliant. Thank you.*

Response to Comment #2: *District Housing was not part of the ADA review and is outside the scope of this process. The housing complexes at College of San Mateo*

and Cañada College are administered by the San Mateo Colleges Educational Housing Corporation. Each complex does have ADA-accessible units available for residents who require those accommodations.
