A. INTRODUCTION: DEVELOPMENT OF ADA SELF-EVALUATION & TRANSITION PLAN

The Americans with Disabilities Act (ADA) of 1990 provides comprehensive civil rights protections to qualified individuals with disabilities in the areas of employment, public accommodations, State and local government services, and telecommunications. A primary goal of the ADA is to ensure equal participation in public life for all Americans with disabilities. Title II of the Act covers programs, services and activities of public entities, such as those provided by San Mateo County Community College District.

Under Title II, a public entity may not deny the benefits of its programs, services, and/or activities to individuals with disabilities by maintaining inaccessible facilities, which house these programs, services and activities. The District's programs, services, and activities, when viewed in their entirety, must be made accessible to and usable by individuals with disabilities, except where to do so would result in a fundamental alteration in the nature of the program; result in undue financial and administrative burdens or threaten or destroy the historic significance of a historic property. The U.S. Congress intended the "undue burden" standard in Title II to be significantly higher than the "readily achievable" standard in Title III. Thus, although Title II may not require removal of barriers in some cases where removal would be required under Title III, the program access requirement of Title II should enable individuals with disabilities to participate in and benefit from the programs, services or activities of District in all but the most unusual cases.

Recognizing the need to have an ADA Self-Evaluation & Transition Plan, San Mateo County Community College District retained Sally Swanson Architects, Inc. in 2019 to develop the District's documents. The project included a review of all documents provided by the District, a comprehensive Self-Evaluation of policies, procedures and practices based on questionnaires tailored for each of the District's departments as well as interviews with each department's key staff. Another major component of this effort was developing the ADA Transition Plan. This effort included a detailed survey of all District owned facilities, as well as selected Public Rights-of-Way (PRoW), for existing physical accessibility barriers which were integrated into the ADA Transition Plan.

To fully comply with the Title II requirements for accessibility to District programs, services and activities, this Self-Evaluation & Transition Plan:

- Evaluates existing policies, procedures and practices as they pertain to the District's programs, services and activities;
- Provides findings and recommendations with regard to policies, procedures and practices;
- Assesses the extent of physical barriers to program accessibility for District owned facilities as well as in the PRoW operated by the District;
- Specifies the mitigation steps necessary to achieve compliance;
- Estimates costs for mitigation steps;
- Provides a schedule for barrier removal/mitigation;
- Sets priorities for barrier elimination; and
- Indicates the official(s) responsible for implementation of the Transition Plan.

B. OVERVIEW: SELF-EVALUATION OF POLICIES, PROCEDURES, AND PRACTICES

In addition to identifying and modifying physical barriers, Title 28 CFR Part 35, *Non Discrimination on the Basis of Disability in State and Local Government Services*, requires that a public entity evaluate its policies, procedures and practices. While there is overlap between the requirements of an ADA Self-Evaluation and an ADA Transition Plan, a Self-Evaluation is best described as an evaluation and plan to achieve compliance with the non-physical aspects of a public entity's infrastructure for ADA compliance. An ADA Transition Plan is then best described as an evaluation and plan to achieve compliance with the physical barriers identified within a public entity for ADA compliance.

The following outlines the District's Self-Evaluation:

- Evaluate District policies, procedures, and practices as they pertain to its programs, services and activities; and make the necessary modifications to those policies and practices that do not meet the programmatic requirements of Title II of the ADA
- Provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the Self-Evaluation process by submitting comments
- Maintain, file and make available for public inspection a list of interested persons consulted, a description of areas examined and any problems identified, and a description of any modifications made

It is recommended that the District periodically evaluate such policies, procedures and practices pertaining to communication, auxiliary aides and services, emergency response, publications, determination for undue burden, public activities, employment, and new construction of facilities, in addition to physical accessibility to District facilities.

It is also recommended that for program barrier mitigation, a detailed outline of administrative requirements and detailed requirements of needed policies be included. The policy outline would serve as a guideline upon which the District's future policies may be built.

[SEE Appendix K: ADA Self-Evaluation of Policies, Procedures, and Practices College of San Mateo](#)

C. OVERVIEW: ACCESS COMPLIANCE SURVEY OF DISTRICT FACILITIES

The ADA Transition Plan is used to document physical accessibility barriers to the District's programs, services, and activities and to outline a schedule / plan (or the basis to produce one) for which the District shall follow to transition from a state of noncompliance to compliance.

The access compliance survey of District facilities fulfills a portion of the first two requirements of an ADA Transition Plan by identifying existing building conditions that deviate from current State and Federal standards for new construction and providing detailed description of proposed solutions for barrier mitigation. For each barrier, the surveys outline the code deviations and requirements from the Americans with Disabilities Act Accessibility Guidelines (ADAAG) and the Accessibility Standards in the California Building Standards Code (CBC).

The access compliance survey of District facilities covers approximately 109 owned facilities maintained by the District. The surveys identified approximately 5,919 different accessibility related barriers within the District facilities and that the financial cost to mitigate all barriers identified in the surveys to be approximately \$30 million.

Number of Facilities Assessed	Number of Accessibility Barriers	Total Cost Estimated (\$)
109	5,919	\$29,984,391

The District facilities that were assessed are shown in the table below:

<u>Facility #</u>	<u>Facility Name</u>	<u>Address</u>
CAN B2	Building 2 - Bookstore	4200 Farm Hill Blvd, Redwood City, CA
CAN B3	Building 3 - Fine Arts	4200 Farm Hill Blvd, Redwood City, CA

Report Production

The following information contains the minimum data included in the Access Compliance Survey Reports (ACSR) for District facilities:

- Item number of barrier and/or room numbers, corresponding to schematic site and floor plans (Barrier Location Plans)
- Area/location of the barrier; for example room name or number
- Description of the barrier (As-Built Description)
- As-is measurement/dimension
- Detailed description of proposed solution and, if applicable, an alternative or interim solution
- Code citations, specifying the applicable sections in the State and Federal accessibility regulations and standards
- Unit and estimated unit price
- Total estimate cost for barrier removal
- Special site conditions (if applicable)

The information obtained from the survey of the District facilities is maintained on a Microsoft Excel spreadsheet database.

[SEE Appendix B: Access Compliance Survey Report of District Office Facilities](#)

[SEE Appendix D: Access Compliance Survey Report of Skyline College Facilities](#)

[SEE Appendix H: Access Compliance Survey Report of Cañada College Facilities](#)

[SEE Appendix L: Access Compliance Survey Report of College of San Mateo Facilities](#)

PRIORITIZATION CRITERIA FOR BARRIER MITIGATION – DISTRICT FACILITIES

The third requirement of an ADA Transition Plan is to create a schedule that the District shall follow which addresses the order in which barriers shall be mitigated. This schedule shall be a public document and shall be made available for public inspection, maintained, and updated for the duration of the Transition Planning period. The maintaining and updating of this document shall mark the District's good-faith efforts in transitioning from a state of noncompliance to compliance regarding the ADA.

The difficulty and complexity of creating a schedule is recognized. Therefore, to provide a methodology for creating a schedule, a prioritization criterion was formed to rank barriers in order of most important to mitigate first to least important. The prioritization criteria rates each barrier based on two factors, its Priority Score, and its Severity Score. The Priority Score ranks the relative importance of addressing the barrier based on its locational impact on the disabled

population, and the Severity Score ranks the barrier based the degree of deviation exhibited compared to applicable access standards.

SEE Appendix P: Prioritization Criteria for Barrier Mitigation – Facilities

The above prioritization criteria can be used to sort the access barriers identified in the surveys and create a schedule that order barrier mitigation work starting from barriers of highest importance to barriers of least importance.

Note that the prioritization criteria serve only as one methodology for the District to create a schedule. Other criteria can be used (and is encouraged) as the basis for forming a schedule including: 1) barriers identified by constituents through an ADA grievance, 2) barriers that overlap with a District project already in the pipelines, 3) barriers that can be resolved internally with the District's maintenance staff, 4) etc. The District shall document all methodology used in justifying a barrier mitigation schedule

Additional Consideration: Age of the Facility

The age of the facility can also determine the District's obligations to meet ADA compliance. Facilities built before September 15, 2010 are obligated to be in compliance with the 1991 ADAAG, barring that the building has not gone through major reconstruction or alteration henceforth that date. The facility will also be required to comply with the applicable California Building Codes (CBC) at the time of construction.

If a facility was constructed or altered between the transition period of September 15, 2010 through March 15, 2012, an option of choosing either the 1991 ADA or 2010 ADA Standards were allowed.

Facilities built after March 15, 2012 are required to meet the updated 2010 ADA Standards as well as the California Building Code (CBC) at time of construction.

The caveat being that crucial program functions and services must be provided in accessible locations.

Compliance Date for New Construction or Alterations	Applicable Standards
Before September 15, 2010	1991 Standards or UFAS
On or after September 15, 2010, and before March 15, 2012	1991 Standards, UFAS, or 2010 Standards
On or after March 15, 2012	2010 Standards

D. OVERVIEW: ACCESS COMPLIANCE SURVEY OF THE PUBLIC RIGHTS-OF-WAY (PROW)

Barden v. City of Sacramento, 292 F. 3d 1073 established that sidewalks and intersections constitute a service, program, or activity provided by a District, therefore they are subject to accessibility regulations and should be addressed as part of the District's ADA Transition Plan.

Two different features provided in the PROW were assessed, including sidewalks and curb ramps. Curb ramps were assessed using data collection checklist, based on ADA and Department of Transportation (DOT) requirements as well as Public Rights-of-Way Accessibility Guidelines (PROWAG) recommendations. Traditional measuring and smart-level equipment were used to collect measurements for these surveys. Sidewalks were assessed using sidewalk profilers that were developed for the Federal Highway Administration (FHWA) and adapted for sidewalk ADA surveys. The device captures information on slopes, and surface variations and identifies deviations from the required ADA standards and other applicable requirements.

The access compliance survey of the Public Rights-of-Way (PROW), along with the survey of District facilities, completely fulfill the first two requirements for an ADA Transition Plan. As a part of this effort, approximately 124 miles of sidewalk, 85 curb ramps and 2 pedestrian signals were assessed for access compliance and that the financial cost to mitigate all barriers identified in the surveys to be approximately \$5.9 million.

Features	Total Number Assessed	Total Cost Estimate (\$)
Sidewalks	124 miles	\$5,645,169.57
Curb Ramps	85	\$313,250.00
Pedestrian Signals	2	\$14,100.00
TOTAL	211	\$5,972,519.57

The information obtained from the survey of the PROW is maintained on a Microsoft Excel database along with reference maps created in geographic information systems (GIS).

[SEE Appendix E: Access Compliance Survey Report of Skyline College Sidewalks](#)

[SEE Appendix I: Access Compliance Survey Report of Cañada College Sidewalks](#)

[SEE Appendix M: Access Compliance Survey Report of College of San Mateo Sidewalks](#)

[SEE Appendix F: Access Compliance Survey Report of Skyline College Curb Ramps](#)

[SEE Appendix J: Access Compliance Survey Report of Cañada College Curb Ramps](#)

[SEE Appendix N: Access Compliance Survey Report of College of San Mateo Curb Ramps](#)

[SEE Appendix O: Access Compliance Survey Report of College of San Mateo Pedestrian Signals](#)

PRIORITIZATION CRITERIA FOR BARRIER MITIGATION - PUBLIC RIGHTS-OF-WAY

The third requirement of an ADA Transition Plan is to create a schedule that the District shall follow which addresses the order in which barriers within each feature shall be mitigated. This schedule shall be a public document and shall be made available for public inspection, maintained, and updated for the duration of the Transition Planning period. The maintaining and updating of this document shall mark the District's good-faith efforts in transitioning from a state of noncompliance to compliance regarding accessibility.

The difficulty and complexity of creating a schedule is recognized. Therefore, to provide a methodology for creating a schedule, like District facilities, a prioritization criterion was formed, catered to the in-depth information that is provided utilizing GIS.

The prioritization criteria developed for the PRow rates the relative importance of each barrier based on a combination of rating the activity occurring at the barrier's location, or "Activity Score", as well as rating the severity from which each feature deviates from current State and Federal standards, or "Barrier Score". Each score is rated on a scale of 0 to 100, with 0 being the lowest, and 100 being the highest.

The combination of both the "Activity Score" and "Barrier Score" creates an overall "Priority Score" that can be used to sort features identified in the surveys and create a schedule that orders barrier mitigation work starting from features of highest priority to features of lowest priority. The "Priority Score" is rated on a scale of 0 to 200, with 0 being the lowest priority, and 200 being the highest priority.

[SEE Appendix Q: Prioritization Criteria for Barrier Mitigation – Public Rights-of-Way](#)

E. OFFICIAL(S) RESPONSIBLE

The last requirement of an ADA Transition Plan requires that an official be identified as responsible for the implementation of the entity's Transition Plan.

It is the U.S. Department of Justice's (DOJ) view that compliance with 28 CFR 35.150(a), like compliance with the corresponding provisions of the section 504 regulations for public programs, would in most cases not result in undue financial and administrative burdens on a typical District. In determining undue financial and administrative burdens, all District resources available for use in the funding and operation of District services, programs and activities would need to be considered.

The burden of proving that compliance with paragraph (a) of 28 CFR 35.150 would either fundamentally alter the nature of a service, program, or activity OR would result in undue financial and administrative burdens shall rest with the District. The decision that compliance would result in such alteration and/or burden must be made by the head of the public entity or his or her designee and must be accompanied by a written statement of the reasons for reaching that conclusion.

While the U.S. DOJ has acknowledged the difficulty/complexity of not only making such a determination, but also identifying the official responsible to make this decision/determination, the department's intention is clear in that the determination must be made by a high level official, no lower than a Department head, with budgetary authority and responsibility for making spending decisions.

The Official Responsible for the implementation should be able to seek/acquire funding for ADA barrier removal work over the District's Transition Planning period. As such, the District shall designate the District's Official Responsible for maintaining the ADA Transition Plan.

The District's Official Responsible for the Transition Plan contact info is as below:

Michele Rudovsky
Director of Maintenance and Operations
District Office, 1st Floor
3401 CSM Drive
San Mateo, CA 94402
650-358-6733
rudovskym@smccd.edu

In addition, each college will have an Official(s) Responsible for the Self-Evaluation and work plan implementation who will be able to seek/acquire funding for the ADA barrier removal work over the Districts programs, services and activities.

The District's Official(s) Responsible for the Self-Evaluation contact info is as below:

District Office:
Vice Chancellor/Chief of Staff

Mitch Bailey
650-358-6877
baileym@smccd.edu

College of San Mateo:
Vice President of Administrative Services
Michaela Ochoa
650-574-6484
ochoam@smccd.edu

Canada College:
Vice President of Administrative Services
Graziano Mendoza
650-306-3274
mendozag@smccd.edu

Skyline College:
Vice President of Administrative Services
Eloisa Briones
650-738-4227
brionese@smccd.edu

Indication of the Official(s) Responsible for implementation of the Self-Evaluation and Transition Plan fulfills the final requirement of a Transition Plan.

F. PUBLIC INPUT

Per 28 Code of Federal Regulations, Part 35; Subpart D – Program Accessibility; §35.150 – Existing Facilities; (d) Transition Plan (1): The District shall provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the development of the ADA Self-Evaluation and Transition Plan by submitting comments.

In order to satisfy this requirement and to gain the perspective of persons with disabilities, two (2) public vettings were held by the District on October 1st 2020 at 9am and 3pm, where members of the public were invited to comment on and participate in the District's Draft ADA Self-Evaluation & Transition Plan.

[SEE Appendix R: Public Vetting Meeting and Solicitation of Public Input](#)

G. TRANSITION PLAN IMPLEMENTATION

The document should be maintained and updated for the duration of the Transition Planning period and a copy of the Transition Plan shall be made available for public inspection.

The final product is a working document to be modified as barriers are removed or alterations are made. The Official(s) Responsible and project managers overseeing the barrier-removal projects will document all such ADA improvements/upgrades. Also, as part of this process, technical infeasibility, if any, to meet necessary accessibility compliance will be documented and filed for the District's records by the Engineer-of-Record on the said project. It is also recommended to provide accessibility site audits (inspections) of on-going projects as part of the project close-out/certification. This documentation and verification of barrier-mitigation will be integrated into the District's ADA Transition Plan on a regular basis to ensure that barriers are "checked-off" and the Transition Plan remains current with a record of barrier-mitigation work. Annual reports of barrier-mitigation work may also be provided to the District Board of Trustees to document good-faith efforts taken by the District in maintaining the Transition Plan.

This is a living document and is open to and expected to be modified throughout the transitioning period.

The District is tasked with analyzing the District's ADA Compliance efforts and implement, where necessary, changes to the District's policies, procedures and infrastructure to ensure that they adhere to the guidelines set forth in this Transition Plan and that the District's programs, services or activities are accessible to people with disabilities.

Maintenance of Accessible Features

The Maintenance of accessible features is mandated by State and Federal Regulations and is an integral part of the District's plan to transition into a more accessible destination. Both, Chapter 28 Code of Federal Regulation, Part 35, Section 35.133 as well as the California Building Code section 1101B.3 – Maintenance of accessible features, state:

1. A public accommodation shall maintain in operable working condition those features of facilities and equipment that are required to be accessible to and usable by persons with disabilities.
2. This section does not prohibit isolated or temporary interruptions in service or access due to maintenance or repairs.

These sections recognize that it is not sufficient to provide features such as accessible routes, ramps, or elevators, if those features are not maintained in a manner that enables individuals with disabilities to use them. Inoperable elevators, are neither "accessible to" nor "usable by" individuals with disabilities.

It is, of course, impossible to guarantee that mechanical devices will never fail to operate. As such, the 2nd paragraph provides that this section does not prohibit isolated or temporary interruptions in service or access due to maintenance or repairs. This paragraph is intended to clarify that temporary obstructions or isolated instances of mechanical failure would not be considered violations of the ADA or this part. However, allowing obstructions or "out of service" equipment to persist beyond a reasonable period of time would violate this part, as would

repeated mechanical failures due to improper or inadequate maintenance. Failure of the public entity to arrange prompt repair of inoperable elevators or other equipment intended to provide access would also violate this part.

A District-wide formal policy specifically addressing the legal requirements (28CFR Part 35.133 & CBC1101B.3) of maintaining accessible features would be of long-term benefit to the District. When, over time, an accessible feature fails, institutionalizing organizational commitments towards protocols and maintenance ensures an appropriate action is taken.

Implementation Policies

San Mateo County Community College District proposes the following implementation policies for transitioning into compliance with the ADA and meeting the requirements of an ADA Transition Plan:

- 1) The District shall maintain and keep current an inventory of access barriers identified in the Access Compliance Survey Reports (ACSR) of District owned facilities and the Public Rights-of-Way (PRoW). The District elects to maintain the inventory of access barriers identified in District facilities and PRoW on a Microsoft Access/Excel database, to be maintained by the Official Responsible.
- 2) Where projects in the District's pipeline are identified whose scope of work overlaps with the location of access barriers identified in the Access Compliance Survey, the District shall ensure that the project incorporate the mitigation of the corresponding barriers. The project and completion of mitigation work shall be appropriately documented in the corresponding inventory.
- 3) The District will enlist maintenance staff to mitigate barriers that are within their scope, e.g. trimming vegetation, adjusting door closers, remounting bathroom accessories at proper heights, etc.
- 4) The District will dedicate a minimum budget of \$3 million in 2021, funded through the District's Capital Improvement Plan, for the sole purpose of providing accessibility improvements for barriers identified in the ACSR. The District shall utilize this budget by analyzing the schedule maintained by the ADA Transition Plan and creating projects solely dedicated to the barrier mitigation work. The District will assess each year the status and cost of remaining barriers and dedicate a minimum budget per year for additional ADA barrier removal.
- 5) The District will continue to seek out sources of funding beyond to fund accessibility improvements throughout the District and will use this document in all funding applications to show good-faith efforts in planning for orderly transition to compliance.

Existing Implementation Policies/Programs

- 1) The District maintains a bi-annual check of all door closers.
- 2) The District elevates any public requests or notification of barriers to the highest priority for mitigation.

I. PROJECT OVERVIEW

A. Acknowledgments

Sally Swanson Architects, Inc. (SSA) would like to thank the San Mateo Community College-District Office (District Office) staff for their time, thoughtfulness, and conscientious contributions to this Self-Evaluation process. The Self-Evaluation process is more than simply responding to questions, it's an opportunity to immerse, reflect, grow, and demonstrate an unwavering commitment to making all of the San Mateo Community College campuses the best they can be for all who come here. The level of commitment exhibited by District Office staff throughout this Self-Evaluation process attests to San Mateo Community College District's dedication to equal access for all.

SSA would especially like to thank Heidi Rank, Architect and Project Manager for this Self-Evaluation. Without her leadership, and everyone's contribution, this project and the milestones of equality that will follow would not have been possible.

B. Introduction

The San Mateo Community College District is committed to providing seamless access to all its programs, services and activities for qualified people with disabilities. SMCCD is not only dedicated to ensuring compliance with State and Federal disability

rights laws, it aspires to be a model of best practices in the areas of accessibility and reasonable accommodation.

The Americans with Disabilities Act (ADA) Title II mandates that covered entities, such as SMCCCD, conduct a Self-Evaluation, create a Transition Plan, appoint an ADA Coordinator, and develop a Grievance Procedure and an ADA Notice of Compliance. To meet this obligation, and to create a path forward toward total accessibility, SMCCCD has contracted with Sally Swanson Architects, Inc. (SSA) to assist with meeting (ADA) Title II mandates.

This document presents only the ADA Self-Evaluation. This evaluation provides a comprehensive report outlining a review of SMCCCD programs, services and activities. Results of the survey and analysis identify programmatic and administrative barriers to programs and are contained herein along with the Grievance Procedure and ADA Notice of Compliance.

C. Background Information Regarding the Americans with Disabilities Act and California State Law

1. Purpose of the Americans with Disabilities Act

Passed in 1990, the Americans with Disabilities Act (ADA) is one of the most comprehensive civil rights laws in the nation. It provides protection to an estimated 57 million Americans in: employment (Title I); receipt of programs, services and activities

from State and local government (Title II); the receipt of goods and services from private businesses (Title III); and telecommunications (Title IV). In 2008, the Americans with Disabilities Amendment Act (ADAAA) was passed. The ADAAA gives guidance to the courts regarding who has standing under ADA. The result has been an increasing number of people who are now able to bring ADA claims in Federal Court.

2. Overview of Disability Civil Rights Law Impacting the San Mateo Community College District.

The San Mateo Community College District is covered by the ADA Title II, ADAAA of 2008, the Rehabilitation Act of 1973, and California Government Codes 11135 and 12926. All contractual activities are also covered by California Government Code 4450. Employment programs are covered by the ADA (Title I), the ADAAA and California Government Code 12926. Construction activities are covered by California Code 4450.

When comparing State and Federal law 28 CFR 35.103, it is mandated that the most stringent law be applied to create the maximum amount of access for people with disabilities. Thus, the most stringent standards were applied to the evaluation reported in this document.

3. ADA Self-Evaluation Requirements

Required by 28 CFR 35.105, the ADA Self-Evaluation is a complete examination of all programs, services and activities provided by SMCCD, to ensure that, when viewed in their entirety, they are readily accessible to qualified people with disabilities.

The purpose of the ADA Self-Evaluation is to identify areas where changes are needed to ensure access is in place for people with disabilities.

4. Who is a Qualified Person with a Disability?

To be qualified as a person with disabilities for the purposes of this Self-Evaluation, an individual must have a disability as defined below and must be qualified to participate in the programs, services or activities of SMCCCD.

Under California Government Code 11135, the ADA was incorporated into State law and therefore the ADA issues raised in this Report are both State and Federal issues. In California Government Code 12926, the definition of mental and physical disability was broadened beyond the ADAAA. Summarized as follows:

1. A person having a physical or mental disability that limits a major life activity. This person is considered as having unmitigated status (i.e., how the individual in question would function without the use of medication or devices that may mitigate the impact of the disability). If there is a limitation to a major life activity in this statute, coverage is established;
2. A person with a history of a disability as described above;
3. A person is regarded as having a disability, such as described.

California State law also provides protection to cancer survivors, people who have a genetic predisposition to illnesses or disabilities or people who have received services within a special education program.

D. Scope of the Self-Evaluation

The Self-Evaluation is intended as a review of the programs, services and activities provided by the SMCC District Office. The US Department of Justice (DOJ) within the ADA Title II, Technical Assistance Manual (TAM) (Section II-8.2000) recommends a scope of review for Self-Evaluations, which contains thirteen program areas which were considered for use in the development of this report. Areas considered include:

- ☐ The Transition Plan (physical access to existing facilities),
- ☐ Policies that may limit or exclude the participation of people with disabilities;
- ☐ Communication systems used by SMCCD;
- ☐ Provision of auxiliary aids and services to people who are engaged in the District's programs, services or activities;
- ☐ Access to emergency management for people with disabilities;
- ☐ Disability awareness among SMCC District Office staff;
- ☐ Policies addressing policy modification requests and the determination of fundamental alteration of programs;
- ☐ Access to public meetings;
- ☐ Human Resources programs and policies;
- ☐ Construction policies;
- ☐ District Office and College staff training and support;
- ☐ ADA-related drug policies.

E. Self-Evaluation Method of Review

The ADA mandates that a Self-Evaluation review all programs, services and activities of the covered entity. The Self-Evaluation of the District's programs, services, and activities required and involved the participation of every department. Various teams were assigned relevant surveys based on their programs, services and activities. Departments were instructed to complete a survey for different divisions if they were sufficiently separate and unique. Copies of survey questions are included in the Appendix to this report, and completed surveys are available upon request.

F. ADA Transition Plan Requirements

The ADA Transition Plan is required by 28 CFR 35.150 (d). An ADA Transition Plan must include the following components:

1. A list of all physical barriers in sites at which SMCCCD provides programs, services or activities;
2. A statement regarding the method to be used to mitigate the barriers;
3. A schedule for barrier mitigation;
4. The name of the official who is responsible for the ADA Transition Plan administration.

The ADA Transition Plan will be contained in a separate report.

G. How This Report is Organized & To Be Utilized

As noted above, the SMCCCD is committed not only to compliance with federal and state laws regarding disability and access, but strives to be a model of accessibility and reasonable accommodations best practices. Accordingly, this Report is organized according to survey responses.

This Report is intended to be a summary – not full recitation – of survey results. Each section begins with an overview of recommendations and segues into a breakdown of survey summaries providing the basis for those recommendations. District Staff-provided recommendations are also indicated, and other lists, such as lists of available accessibility resources, are generally indicated as well.

By organizing it this way, the District can easily access the information it needs and use this Report to sharpen its focus on providing the best possible service to its constituents with disabilities, and become a model of best practices.

II. SURVEY RESPONSES AND RECOMMENDATIONS

Recommended Actions

Accommodations Process

- Ensure that a reasonable accommodations process is put in writing.
- In the reasonable accommodations process, include a policy or procedure to address determination of “direct threat”, and a no-surcharge policy.
- Make sure that the reasonable accommodations process contains a policy or procedure regarding determination of undue hardship.
- Include a recommendation in the reasonable accommodations process that programmatic access solutions are evaluated by an ADA Coordinator and documented.
- Make sure that the reasonable accommodations process contains a policy against requiring an employee with a disability to compete for a vacant funded position if they are unable to be accommodated in their own role.
- Ensure that persons responsible for implementing the reasonable accommodations process are trained in its legal requirements.
- Ensure that information on how applicants or candidates may initiate a reasonable accommodations request is readily available.

Training

- Offer staff training on: civil rights; ADA requirements and disability awareness; best practices for maintenance personnel to maintain accessible physical environments.
- Offer the District’s Disability Advisory Committee training regarding the ADA and related California government code requirements.
- Ensure that the District has a policy regarding non-discrimination against former drug users.
- Consider offering trainings such as: web accessibility for employees who update the College’s web information; and event accessibility best practices for employees who schedule and manage College events.
- Keep training attendee rosters.

Grievance Process

- Ensure that grievance policies are posted in work areas.
- Ensure that the grievance process: offers assistance to persons with disabilities; provides timelines on when to expect a result; has a second level of review; contains a notice that the grievance system is available in an alternative format; or contains the name of the ADA coordinator.

- Ensure that the grievance process includes someone assigned to investigate grievances, including alleged failures to reasonably accommodate.
- Ensure that information on how applicants or candidates may initiate a reasonable accommodations request is readily available.
- Ensure that exams given as part of the application process are available in alternative formats, and that buildings where interviews are held are on accessible public transportation routes.

Survey Response Overview

Notices & ADA-Related Procedures

Notices/Grievance Process

ADA Coordinator survey responses indicate that the District has notices regarding compliance with the Americans with Disabilities Act, i.e. equal access, reasonable accommodation, prohibition against harassment, and non-discrimination, with respect to both employment and educational opportunities. These policies are disseminated electronically, via the District's website¹, but survey responses indicate that physical copies of these may not be posted in work areas.

These notifications are not explicitly set out in the available grievance system. Additionally, survey responses indicate that the grievance system does not: offer assistance to persons with disabilities; provide timelines on when to expect a result; have a second level of review; contain a notice that the grievance system is available in an alternative format; or contain the name of the ADA coordinator. Additionally, there is currently no one specifically assigned to investigate grievances related to ADA issues, including alleged failures to reasonably accommodate.

¹ Note: one survey response indicated that these notifications are not available on the District website. A quick review of the District website showed that there is a page specifically dedicated to web accessibility, references to EEO and an EEO Committee in the hiring process. Specific statements regarding non-discrimination and harassment were not immediately apparent on District website.

According to survey responses, it is currently unclear how a recipient of District Office programs, services and activities would bring a grievance against a contracted service provider. Because of this, it is not clear how a contract administrator and/or ADA Coordinator would become aware of or address any such grievances. Survey responses indicated that additional language could be added to contract templates regarding this, if needed.

Reasonable Accommodations Process

With regard to the reasonable accommodations processes; employee accommodations are managed by supervisors and Human Resources; job applicants can request reasonable accommodations through a Senior Human Resources Representative on the recruitment side; and student requests are handled by Campus Student Services. Campus Student Services is also responsible for providing accommodation to programs, activities and services provided to the public, e.g. job fairs, commencement exercises, athletic events, etc.

According to surveys, although there is currently a reasonable accommodations process, this process has not been put in writing. Additionally, persons responsible for implementing the reasonable accommodations process have not been trained in its legal requirements, although the District indicates it does follow the legal mandates regarding requests for medical information.

Survey responses indicate that the interactive process is documented via notes taken in meetings, and emails. The District utilizes outside resources to assist in the interactive process such as JAN, Adaptive Technology for the Blind, and interpreter services. Additionally, the District has a system in place to reassign employees with

disabilities into other vacant, funded positions, if the employee is unable to be accommodated in their own role. This system, however, does not include a policy against requiring the employee with a disability to compete for the role.

While there is no specific policy or procedure regarding determination of undue hardship in the interactive process, this determination is made by the Vice Chancellor or Director of Human Resources. There is currently no policy or procedure in place to address determination of “direct threat”. Additionally, if programmatic access solutions are implemented to create access, those are not approved by an ADA Coordinator or required to be documented. Also, there is currently no anti-surcharge policy in place to make it clear to staff not to charge for accommodations. For employees, there is an ADA agreement form given to the employee if a reasonable accommodation is approved.

Policies & Training

Training

Survey responses indicate that, except during new hire orientation, the District does not offer staff training on: civil rights; ADA requirements and disability awareness; or best practices for maintenance personnel to maintain accessible physical environments. Additionally, the District’s Disability Advisory Committee has not received training regarding the ADA and related California government code requirements (but it is in the works). It is unclear whether the District has a policy regarding non-discrimination against former drug users. If Faculty or Staff have questions regarding legal requirements, they may reach out to Human Resources, or receive information during workshops.

Survey responses indicate that the District would like to offer such training as well as: web accessibility for employees who update the College's web information; and event accessibility best practices for employees who schedule and manage College events. Generally, the District does not maintain training attendee rosters.

Policies

Survey responses addressed a variety of ADA and accessibility related policies. According to responses, the District currently has no uniform policy regarding use of motorized mobility devices on College premises. With regard to policies and/or procedures around maintenance of accessible features, the ADA Coordinator's survey response generally referred to Facilities, and indicated that any systems to report and correct accessibility issues would be managed through Facilities' Work Order. Survey responses also indicate that the College has a service animal policy, but staff do not receive training regarding this, and there is no policy should any "incidents" regarding service animals occur. Additionally, emotional support (i.e. "comfort" animals) are addressed in a manner similar to the interactive process.

Hiring & Employment

Survey responses indicated that the District advertises available jobs on sites designated to people with disabilities, but not specifically to local disability organizations. Job announcements include an Equal Employment Opportunity (EEO) statement, as well as notification that reasonable accommodations are available. Survey responses indicate that information on how applicants or candidates may initiate a reasonable accommodations request is not readily available. If an applicant makes

such a request, however, the District offers assistance to anyone who requires it in order to make the request.

Essential and marginal functions of each position are identified before advertising for the position through job description, managers, and Human Resources. For non-faculty related positions such as classified ones, minimum qualifications are reviewed with the Manager and Human Resources when established. Applicants have the opportunity to request accommodations in the hiring process, and these are granted when “deemed appropriate.” Candidates are informed in advance, via email, regarding the types of activities involved in the selection process. The District notes that it needs to ensure that exams given as part of the application process need to be made available in alternative formats.

On site interviews are held in College buildings, and sites are selected by the Hiring Manager, selection committee members, and Human Resources. Notably, however, survey responses indicated that there is currently no requirement that buildings where interviews are held be on accessible public transportation routes. Survey responses stated that selection committee panelists receive an orientation which includes disability etiquette and information on how to form legally compliant interview questions.

Communications

Recommended Actions

- Ensure that College publications are offered in alternative formats.
- Ensure that the District’s telephone and 911 systems are accessible to TTY’s and modems.

Survey Response Overview

Print Materials/Vision Impairments

Survey responses indicated that, at each college, publications are reviewed to ensure positive portrayals of persons with disabilities by the Director of Marketing at that College. The District itself reviews College website materials for potentially demeaning or offensive content, and their policy is immediate remediation if any reports are made (which has not happened, to date). Web content published on the District websites is reviewed at multiple levels to ensure appropriate (i.e. “person-first”) language.

It is unclear whether all College publications are offered in alternative formats. However, College web pages “are tested frequently for accessibility”. Additionally, the District Office does not use touch screen information systems for public information. Survey responses indicate that IT provides training to content owners in how to make pages accessible and recently launched an accessibility website to provide training resources at a larger scale. Additionally, each footer in the district website includes a link to an accessibility reporting form.

The District has a Visual Identity Guide with font recommendations for web and printed materials. Font sizes on the District websites are tested for accessibility compliance by the Web Accessibility Programmer, and the minimum font size for body content on the district website is 14pt. Digital communications are typically done through email (not attachments to email) as well as the District website.

Communication with People who are Deaf or Hard of Hearing (HoH)

It is not clear whether the District's telephone and 911 systems are accessible to TTY's and modems. If public address systems are used, the AlertMe notification service through Regroup sends text messages to combine with on-location audio alert systems.

All tutorials and training videos produced by IT for use in the District website include captioning. IT is also currently looking at a company called VITAC to provide live captioning services District-wide. As needed, alternate methods such as written instructions are provided. Survey responses indicated that, in Canvas², 3C Media provides a live captioning service. In-person interpreters are used during opening day and on-request for College events. The District requires live and pre-recorded videos on the College website to be captioned for those who are deaf or hard of hearing.

Faculty

Recommended Actions

- Develop and implement a policy to ensure that digital materials required by Faculty (e.g. websites) are accessible.
- Offer disability and accessibility related training geared toward Faculty.

Survey Response Overview

With regard to hiring Faculty that may or may not have a disability, minimum qualifications are identified through the state Chancellor's Community College Office

² Canvas is a cloud-based learning management system (LMS) specifically designed for K-5 on up through higher education institutions. Canvas LMS is a scalable platform that can be used to serve education organizations of all sizes and types, from individual classrooms to large universities, and from blended to fully virtual learning.

and provided to all community colleges (versus qualification determinations for other roles, outlined above). It is unknown whether there is a policy ensuring that digital materials required by Faculty (e.g. websites) are accessible, but survey responses indicate the Disability Resource Center (DRC) is best suited to address questions regarding policies and practices to ensure that Faculty select accessible materials for their curriculum.

Information Technology (IT) responses indicated that most faculty now use Canvas for their course content. Canvas courses can be quickly scanned using individual page accessibility checkers, as well as an entire course accessibility checker named UDOIT. The District (via IT) is looking for solutions to replace the remaining Faculty web pages.

Additionally, survey responses noted that most short, not-for-credit workshops or classes do not have a syllabus, therefore accessible syllabi would not be an issue for those offerings. Overall, survey responses indicated a desire for more disability and accessibility related trainings, including training for Faculty.

Information Technology & Digital Communication

Recommended Actions

- No recommendations at this time.

Survey Response Overview

Survey responses indicate that District websites are tested for accessibility, and each webpage contains a statement regarding accessibility including a form to submit any web accessibility concerns. Specifically, College website postings are reviewed for accessibility before they are published using the “accessibility checker” feature in “OU Campus”, the District’s CMS. All new websites must meet WCAG 2.1 standards. Older sites have undergone remediation, with a 74% reduction in scannable errors over the last calendar year.

Site-wide scans are also conducted monthly or on an as-needed basis using PopeTech. Site-wide scans are possible using Tenon or Funnelback to identify web pages and documents with potential accessibility issues. Individual files are checked using WAVE and/or aXe. The District is in the process of moving older form documents to accessible digital versions in Formstack. Additionally, Financial Aid documents are in the process of being migrated, with admissions related documents planned for next year.

IT recently released a website with tutorials and training regarding web accessibility (e.g. OmniUpdate, accessible Formstack forms, PDF/Word documents), and that the District would welcome additional information regarding web and digital accessibility. The District has not received any major complaints regarding accessibility on the College or District websites.

Law Enforcement

Recommended Actions

- Develop and provide training for law enforcement officers and campus first responders regarding disability awareness training, and disability civil rights mandates under State and Federal Law.
- Develop and provide training for law enforcement officers on best practices for communicating with persons with disabilities.
- Ensure that any service animals impacted by an arrest are permitted to remain with the arrestee.

Survey Response Overview

Survey responses indicate that District law enforcement officers are currently not required to receive disability awareness training, and that campus first responders have not been trained regarding the disability civil rights mandates under State and Federal laws.

If an arrest is made where a service animal is involved, Animal Control would be contacted. If an arrest is made where medical appliances such as canes, walkers, hearing aids, etc., may be involved, those appliances would stay with the arrestee. If an arrest is made that requires transporting a mobility device, the Police would facilitate transportation. Finally, if an arrestee has medication needs, Health Services and the Police would assist.

If District law enforcement or first responders need to communicate with a person who is Deaf or Hard of Hearing, they would request the assistance of an interpreter. They have not, however, been trained in best practices for communicating with persons

with disabilities. District law enforcement survey responses indicate they would welcome additional training in disability civil rights and best practices on campus.

Meetings & Events

Recommended Actions

- Develop and utilize an events accessibility checklist.
- Develop and implement training for persons administering meetings in the College's disability civil rights responsibilities.
- Ensure that FM loops are utilized.

Survey Response Overview

Survey responses indicate events accessibility checklists are not currently utilized, and that event and meeting announcements may not include notices that auxiliary aids and services are available as needed. Additionally, persons administering meetings are not trained in the College's disability civil rights responsibilities if those meetings are not-for-credit.

Because meetings are typically held in College buildings, they are accessible to public transportation, and it is assumed that features such as arrival points, rooms, restrooms, registration counters, tables, integrated seating, etc., are accessible. Survey responses indicate that Staff are not trained in how to set up meeting rooms to ensure accessibility, e.g. maneuvering clearances.

There is currently no practice to announce service animal relief areas prior to meetings, or to read PowerPoint slides aloud for persons who are blind or have visual impairments. One survey response indicated that, when multimedia presentations are

used, accessible alternatives are offered that are synced with the presentation, including, but not limited to, live interpreters and live captions and audio descriptions. If videos are used, captioning and audio-descriptors are not consistently required. All publicly broadcasted meetings are required to be captioned and in certain cases feature a live American Sign Language interpreter.

Additionally, physical features such as stages, platforms and/or microphones are not utilized so are not part of any accessibility considerations. Because of this, it's unclear whether FM loops are not utilized. In the rare instance that ASL and/or real-time captioning was used, seating was reserved up front for persons needing this service, and ASL interpreters were situated according to best practices (e.g. good lighting). The interpreters were not provided information ahead of time regarding spellings of names, difficult terms, etc.

Physical Education

Recommended Actions

- Develop processes to provide orientation to persons who are blind or vision impaired.

Survey Response Overview

Accommodations for persons with disabilities within the Physical Education Department are handled by the Kinesiology Campus Dean. Persons with disabilities are served in an integrated setting, adaptive equipment is available, and adequate maneuvering clearances are provided.

Survey responses indicate that it is unclear whether there are processes in place to provide orientation for people who are blind. Finally, apparently one complaint was received regarding access, which was resolved.

Purchasing & Service Contracts

Recommended Actions

- Ensure that there are steps in place for persons with disabilities who believe they have been discriminated against by a campus vendor or contractor.
- Ensure that there is a process to inform a contract administrator or ADA Coordinator of alleged civil rights violations.
- Ensure that there are accessibility plan checks in place when vendors are conducting improvements in public spaces.
- Create and implement guidance for vendors regarding clear space and furniture placement.
- Ensure that vendors who have public contact are trained or provided guidance regarding ADA requirements and disability awareness.
- Add accessibility as a consideration to routine purchases.

Survey Response Overview

Survey responses indicate that contracts contain language holding contractors and vendors to applicable State and Federal disability civil rights mandates. It is not clear what steps are in place for persons with disabilities who believe they have been discriminated against by a campus vendor or contractor, or how a contract administrator or ADA Coordinator would become aware of alleged civil rights violations.

It is not clear whether accessibility plan checks are in place when vendors are conducting improvements in public spaces. There is no guidance in place for vendors regarding clear space and furniture placement. Additionally, vendors who have public

contact are not currently trained or provided guidance regarding ADA requirements and disability awareness.

During the bidding process, public documents related to bidding are primarily located for download on the District's bid portal – PlanetBids. If accessibility is an issue, accommodation language could be added to the platform and or bid documents if needed. Survey responses indicate that all meetings related to bidding and contracting can be held in accessible locations. Routine purchases do not generally consider accessibility unless requested.

Student & Community Services

Recommended Actions

- Ensure that processes are in place to support accessibility in distance learning programs.
- Develop and, as needed, implement protocols on best practices for transporting students with disabilities.

Survey Response Overview

The primary resource for students seeking reasonable accommodations is Campus Student Services. Survey responses indicated that distance learning programs are offered to students, but it is unknown how or whether access is addressed. The College provides transportation services to field trips and events, and it is unclear how reasonable accommodations and/or best practices for transporting students with disabilities might be addressed in these instances.

Emergencies & Evacuation Procedures

Recommended Actions

- Review the Equal Employment Opportunity Commission's guidance on identifying employees who might need assistance during an emergency due to their disability.
- Include people with disabilities in the development and drilling of emergency plans.
- Ensure that redundancy plans are in place for the evacuation of persons with disabilities in the event of emergencies.
- Ensure that emergency plans are coordinated with the Fire Department.
- Ensure there is a plan to hydrate people held outside a building for a prolonged period of time during evacuations.

Survey Response Overview

Survey responses indicate that the District has not reviewed the Equal Employment Opportunity Commission's guidance on identifying employees who might need assistance during an emergency due to their disability, but that students must self-identify as such. Survey responses conflict on whether employees with disabilities have been involved in creating emergency related training, but do indicate that persons with disabilities have been involved in at least one training drill to date. It is also unclear whether emergency management teams in all facilities have been trained regarding the needs for employees with disabilities during an emergency.

To handle emergencies, the District has an auxiliary notification system that goes out to Public Safety if anyone calls 911 from a district number. Floor wardens have been assigned to assist evacuating persons with disabilities, but survey responses conflict on whether redundancy plans are in place, and whether evacuation procedures have been coordinated with the local Fire Department (although the Fire Department is familiar with the campus). Additionally, the District ensures that persons who are blind or deaf can be alerted and assisted during an active shooter event via AlertMe (Regroup). Text messages and email are sent out

and will notify people who are Deaf or Hard of Hearing. For people who are blind or have vision impairments, text to voice messages are available, and announcements are made via EAS loudspeakers for those who may not have a mobile device. Additionally, Building Captains have been trained to assist and communicate with both seeing and hearing-impaired persons. For people with hearing impairments, lights will be turned on and off to gain their attention, and emergency messages will be written and spoken face-to-face for lip reading capable people. Strobe lighting is installed in “newer” buildings. People who cannot see will be personally assisted to secure locations.

Survey responses additionally indicate that: all emergency exits are clearly marked; back-up emergency evacuation chairs are maintained and in place (and responders are trained in the use of these chairs; Public Address systems are monitored to ensure adequate volumes across impacted areas; “modern” elevators have two way communications systems that are functional and accessible to persons who may be Deaf or Hard of Hearing; Areas of Refuge have communications systems from that site to an event control center but, for people who are Deaf or Hard of Hearing, they would need to communicate via AlertMe.

The District has a procedure in place for shutting down the intake on the HVAC system. In the event of a shelter in place, Campus Health or Paramedics would be called upon to assist with medical devices and medication needs, Building Captains could help on a limited basis for needs such as epinephrine and blood sugar (for diabetics able to self-diagnose. Survey responses conflicted on whether there is a plan to ensure that people are hydrated if held outside a building for a prolonged period of time.

The District’s Public Safety website has information regarding training, and alternative formats of this training and information are available in alternative formats upon request.

Construction

Recommended Actions

- Engage Certified Access Specialists during design and construction, and ensure that stakeholders with disabilities are involved in reviewing major public projects.

Survey Response Overview

Construction and Remodels

Survey responses indicate that District Standards require that architects, engineers and other professionals design and execute the District's construction projects according to the latest building codes, regulations and standards. The District could not say whether Certified Access Specialists (CASps) were engaged during design and construction, and wasn't sure whether stakeholders with disabilities were involved in reviewing major public projects. A specific District employee is responsible for monitoring access during campus construction.

Vetting of Self-Evaluation Results

The San Mateo Community College District is committed to the vetting of these results with stakeholders as required by law and developing an implementation plan designed to implement necessary changes and track good-faith compliance efforts.

Use of This Self-Evaluation as a Living Document

The ADA requires that a Self-Evaluation be conducted once. Many entities, including San Mateo Community College District, recognize the value of using this document on an ongoing basis. As such, it's available to incorporate new policies as needed in response to emerging issues in case law, new regulations or the development of, and/or modification of District programs. Thus, an addendum to this report can be added as needed to document the District's good-faith effort to make the changes necessary to ensure appropriate access for students, employees and visitors to the District Offices.

Staff Who Contributed to this ADA Self-Evaluation

Tom Bauer, Vice Chancellor

Jonathan Bissell, Executive Director

David Feune

Susan Harrison, Director, General Services

Ingrid Melgoza, Human Resources Specialist

Ben'Zara Minkin, Emergency Preparedness Manager

Mwanaisha Sims, Director of Policy, Training and Compliance

Christopher Smith, Interim Director of Web Services

Bill Woods, Director of Public Safety

Work Plan for the Self-Evaluation Implementation

The following is the SMCCCD ADA Self-Evaluation work plan. It is contained in a spreadsheet designed to be modified as progress is made. It may also be modified when work is necessary that is not identified within the body of this Report. Such instances may occur pursuant to new regulations or case law developments.

The first column will contain a series of recommendations that come from interaction with SMCCCD officials. These are entitled "General Recommendations". The second column is "Action Taken by the District". This column is designed to record whether the District has accepted the recommendation, modified or rejected it. If the recommendation is rejected or modified it would be advisable to record the rationale for this action in the "notes" section, which is the seventh column to the right. Columns titled "Staff Assigned", Due Dates, "Reviewed by" and "Date" are designed to record progress in the implementation of the ADA self-evaluation.

Many of the recommendations are clustered by subject and can be addressed with one staff assignment. Occasionally, there will be one recommended action that addresses a number of issues noted within the report. For example, disability awareness training benefits the SMCCCD's operation in a number of areas which are noted by findings. The provision of the training, therefore, addresses a wide variety of issues.

It is very important that the date on the work plan be updated each time an entry is made.

SMCCD District Office - Self-Evaluation Work Plan										
NO.	CITE	DEPARTMENT(S)	RECOMMENDATION(S)	SSA NOTE(S)	DATE ASSIGNED	ASSIGNEE(S)	MILESTONE(S)	DUE DATE	TRAINING (Y/N)	SMCCD District Office NOTE(S)
1		Accommodations Process	Ensure that a reasonable accommodations process is put in writing.							
2		Accommodations Process	In the reasonable accommodations process, include a policy or procedure to address determination of "direct threat", and a no-surcharge policy.							
3		Accommodations Process	Make sure that the reasonable accommodations process contains a policy or procedure regarding determination of undue hardship.							
4		Accommodations Process	Include a recommendation in the reasonable accommodations process that programmatic access solutions are evaluated by an ADA Coordinator and documented.							
5		Accommodations Process	Make sure that the reasonable accommodations process contains a policy against requiring an employee with a disability to compete for a vacant funded position if they are unable to be accommodated in their own role.							
6		Accommodations Process	Ensure that persons responsible for implementing the reasonable accommodations process are trained in its legal requirements.							
7		Accommodations Process	Ensure that information on how applicants or candidates may initiate a reasonable accommodations request is readily available.							
8		Training	Offer staff training on: civil rights; ADA requirements and disability awareness; best practices for maintenance personnel to maintain accessible physical environments.							
9		Training	Offer the District's Disability Advisory Committee training regarding the ADA and related California government code requirements.							
10		Training	Ensure that the District has a policy regarding non-discrimination against former drug users.							
11		Training	Consider offering trainings such as: web accessibility for employees who update the College's web information; and event accessibility best practices for employees who schedule and manage College events.							
12		Training	Keep training attendee rosters.							
13		Grievance Process	Ensure that grievance policies are posted in work areas.							
14		Grievance Process	Ensure that the grievance process: offers assistance to persons with disabilities; provides timelines on when to expect a result; has a second level of review; contains a notice that the grievance system is available in an alternative format; or contains the name of the ADA coordinator.							
15		Grievance Process	Ensure that the grievance process includes someone assigned to investigate grievances, including alleged failures to reasonably accommodate.							
16		Grievance Process	Ensure that information on how applicants or candidates may initiate a reasonable accommodations request is readily available.							
17		Grievance Process	Ensure that exams given as part of the application process are available in alternative formats, and that buildings where interviews are held are on accessible public transportation routes.							
18		Communications	Ensure that College publications are offered in alternative formats.							
19		Communications	Ensure that the District's telephone and 911 systems are accessible to TTY's and modems.							
20		Faculty	Develop and implement a policy to ensure that digital materials required by Faculty (e.g. websites) are accessible.							
21		Faculty	Offer disability and accessibility related training geared toward Faculty.							
22		Law Enforcement	Develop and provide training for law enforcement officers and campus first responders regarding disability awareness training, and disability civil rights mandates under State and Federal Law.							
23		Law Enforcement	Develop and provide training for law enforcement officers on best practices for communicating with persons with disabilities.							
24		Law Enforcement	Ensure that any service animals impacted by an arrest are permitted to remain with the arrestee.							

25	Meetings & Events	Develop and utilize an events accessibility checklist.							
26	Meetings & Events	Develop and implement training for persons administering meetings in the College's disability civil rights responsibilities.							
27	Meetings & Events	Ensure that FM loops are utilized.							
28	Physical Education	Develop processes to provide orientation to persons who are blind or vision impaired.							
29	Purchasing & Service Contracts	Ensure that there are steps in place for persons with disabilities who believe they have been discriminated against by a campus vendor or contractor.							
30	Purchasing & Service Contracts	Ensure that there is a process to inform a contract administrator or ADA Coordinator of alleged civil rights violations.							
31	Purchasing & Service Contracts	Ensure that there are accessibility plan checks in place when vendors are conducting improvements in public spaces.							
32	Purchasing & Service Contracts	Create and implement guidance for vendors regarding clear space and furniture placement.							
33	Purchasing & Service Contracts	Ensure that vendors who have public contact are trained or provided guidance regarding ADA requirements and disability awareness.							
34	Purchasing & Service Contracts	Add accessibility as a consideration to routine purchases.							
35	Student & Community Services	Ensure that processes are in place to support accessibility in distance learning programs.							
36	Student & Community Services	Develop and, as needed, implement protocols on best practices for transporting students with disabilities.							
37	Emergencies & Evacuation Procedures	Review the Equal Employment Opportunity Commission's guidance on identifying employees who might need assistance during an emergency due to their disability.							
38	Emergencies & Evacuation Procedures	Include people with disabilities in the development and drilling of emergency plans.							
39	Emergencies & Evacuation Procedures	Ensure that redundancy plans are in place for the evacuation of persons with disabilities in the event of emergencies.							
40	Emergencies & Evacuation Procedures	Ensure that emergency plans are coordinated with the Fire Department.							
41	Emergencies & Evacuation Procedures	Ensure there is a plan to hydrate people held outside a building for a prolonged period of time during evacuations.							
42	Construction	Engage Certified Access Specialists during design and construction, and ensure that stakeholders with disabilities are involved in reviewing major public projects.							

Appendices

Appendix A

28 CFR 35.105 Self-Evaluation.

- (a) A public entity shall, within one year of the effective date of this part, evaluate its current services, policies, and practices, and the effects thereof, that do not or may not meet the requirements of this part and, to the extent modification of any such services, policies, and practices is required, the public entity shall proceed to make the necessary modifications.
- (b) A public entity shall provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the Self-Evaluation process by submitting comments.
- (c) A public entity that employs 50 or more persons shall, for at least three years following completion of the Self-Evaluation, maintain on file and make available for public inspection:
 - (1) A list of the interested persons consulted;
 - (2) A description of areas examined and any problems identified;
and
 - (3) A description of any modifications made.
- (d) If a public entity has already complied with the Self-Evaluation requirement of a regulation implementing section 504 of the Rehabilitation Act of 1973, then the requirements of this section shall apply only to those policies and practices that were not included in the previous Self-Evaluation

Appendix B

California Government code section 11135

11135. (a) No person in the State of California shall, on the basis of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, genetic information, or disability, be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is conducted, operated, or administered by the state or by any state agency, is funded directly by the state, or receives any financial assistance from the state. Notwithstanding Section 11000, this section applies to the California State University.

(b) With respect to discrimination on the basis of disability, programs and activities subject to subdivision (a) shall meet the protections and prohibitions contained in Section 202 of the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof, except that if the laws of this state prescribe stronger protections and prohibitions, the programs and activities subject to subdivision (a) shall be subject to the stronger protections and prohibitions.

(c) (1) As used in this section, "disability" means any mental or physical disability, as defined in Section 12926.

Appendix C

California Government Code Section 12926

Cal Gov Code § 12926 (2010)

§ 12926. Definitions regarding unlawful practices

As used in this part in connection with unlawful practices, unless a different meaning clearly appears from the context:

(a) "Affirmative relief" or "prospective relief" includes the authority to order reinstatement of an employee, awards of backpay, reimbursement of out-of-pocket expenses, hiring, transfers, reassignments, grants of tenure, promotions, cease and desist orders, posting of notices, training of personnel, testing, expunging of records, reporting of records, and any other similar relief that is intended to correct unlawful practices under this part.

(b) "Age" refers to the chronological age of any individual who has reached his or her 40th birthday.

(c) "Employee" does not include any individual employed by his or her parents, spouse, or child, or any individual employed under a special license in a nonprofit sheltered workshop or rehabilitation facility.

(d) "Employer" includes any person regularly employing five or more persons, or any person acting as an agent of an employer, directly or indirectly, the state or any political or civil subdivision of the state, and cities, except as follows:

"Employer" does not include a religious association or corporation not organized for private profit.

(e) "Employment agency" includes any person undertaking for compensation to procure employees or opportunities to work.

(f) "Essential functions" means the fundamental job duties of the employment position the individual with a disability holds or desires. "Essential functions" does not include the marginal functions of the position.

(1) A job function may be considered essential for any of several reasons, including, but not limited to, any one or more of the following:

(A) The function may be essential because the reason the position exists is to perform that function.

(B) The function may be essential because of the limited number of employees available among whom the performance of that job function can be distributed.

(C) The function may be highly specialized, so that the incumbent in the position is hired for his or her expertise or ability to perform the particular function.

(2) Evidence of whether a particular function is essential includes, but is not limited to, the following:

(A) The employer's judgment as to which functions are essential.

(B) Written job descriptions prepared before advertising or interviewing applicants for the job.

(C) The amount of time spent on the job performing the function.

(D) The consequences of not requiring the incumbent to perform the function.

(E) The terms of a collective bargaining agreement.

(F) The work experiences of past incumbents in the job.

(G) The current work experience of incumbents in similar jobs.

(g) "Labor organization" includes any organization that exists and is constituted for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms or conditions of employment, or of other mutual aid or protection.

(h) "Medical condition" means either of the following:

(1) Any health impairment related to or associated with a diagnosis of cancer or a record or history of cancer.

(2) Genetic characteristics. For purposes of this section, "genetic characteristics" means either of the following:

(A) Any scientifically or medically identifiable gene or chromosome, or combination or alteration thereof, that is known to be a cause of a disease or disorder in a person or his or her offspring, or that is determined to be associated with a statistically increased risk of development of a disease or disorder, and that is presently not associated with any symptoms of any disease or disorder.

(B) Inherited characteristics that may derive from the individual or family member, that are known to be a cause of a disease or disorder in a person or his or her offspring, or that are determined to be associated with a statistically increased risk of development of a disease or disorder, and that are presently not associated with any symptoms of any disease or disorder.

(i) "Mental disability" includes, but is not limited to, all of the following:

(1) Having any mental or psychological disorder or condition, such as mental retardation, organic brain syndrome, emotional or mental illness, or specific learning disabilities, that limits a major life activity. For purposes of this section:

(A) "Limits" shall be determined without regard to mitigating measures, such as medications, assistive devices, or reasonable accommodations, unless the mitigating measure itself limits a major life activity.

(B) A mental or psychological disorder or condition limits a major life activity if it makes the achievement of the major life activity difficult.

(C) "Major life activities" shall be broadly construed and shall include physical, mental, and social activities and working.

(2) Any other mental or psychological disorder or condition not described in paragraph (1) that requires special education or related services.

(3) Having a record or history of a mental or psychological disorder or condition described in paragraph (1) or (2), which is known to the employer or other entity covered by this part.

(4) Being regarded or treated by the employer or other entity covered by this part as having, or having had, any mental condition that makes achievement of a major life activity difficult.

(5) Being regarded or treated by the employer or other entity covered by this part as having, or having had, a mental or psychological disorder or condition that has no present disabling effect, but that may become a mental disability as described in paragraph (1) or (2).

"Mental disability" does not include sexual behavior disorders, compulsive gambling, kleptomania, pyromania, or psychoactive substance use disorders resulting from the current unlawful use of controlled substances or other drugs.

(j) "On the bases enumerated in this part" means or refers to discrimination on the basis of one or more of the following: race, religious creed, color, national origin,

ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation.

(k) "Physical disability" includes, but is not limited to, all of the following:

(1) Having any physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss that does both of the following:

(A) Affects one or more of the following body systems: neurological, immunological, musculoskeletal, special sense organs, respiratory, including speech organs, cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine.

(B) Limits a major life activity. For purposes of this section:

(i) "Limits" shall be determined without regard to mitigating measures such as medications, assistive devices, prosthetics, or reasonable accommodations, unless the mitigating measure itself limits a major life activity.

(ii) A physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss limits a major life activity if it makes the achievement of the major life activity difficult.

(iii) "Major life activities" shall be broadly construed and includes physical, mental, and social activities and working.

(2) Any other health impairment not described in paragraph (1) that requires special education or related services.

(3) Having a record or history of a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment described in paragraph (1) or (2), which is known to the employer or other entity covered by this part.

(4) Being regarded or treated by the employer or other entity covered by this part as having, or having had, any physical condition that makes achievement of a major life activity difficult.

(5) Being regarded or treated by the employer or other entity covered by this part as having, or having had, a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment that has no present disabling effect but may become a physical disability as described in paragraph (1) or (2).

(6) "Physical disability" does not include sexual behavior disorders, compulsive gambling, kleptomania, pyromania, or psychoactive substance use

disorders resulting from the current unlawful use of controlled substances or other drugs.

(l) Notwithstanding subdivisions (i) and (k), if the definition of "disability" used in the Americans with Disabilities Act of 1990 (Public Law 101-336) would result in broader protection of the civil rights of individuals with a mental disability or physical disability, as defined in subdivision (i) or (k), or would include any medical condition not included within those definitions, then that broader protection or coverage shall be deemed incorporated by reference into, and shall prevail over conflicting provisions of, the definitions in subdivisions (i) and (k).

(m) "Race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation" includes a perception that the person has any of those characteristics or that the person is associated with a person who has, or is perceived to have, any of those characteristics.

(n) "Reasonable accommodation" may include either of the following:

(1) Making existing facilities used by employees readily accessible to, and usable by, individuals with disabilities.

(2) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, adjustment or modifications of examinations, training materials or policies, the provision of qualified readers or interpreters, and other similar accommodations for individuals with disabilities.

(o) "Religious creed," "religion," "religious observance," "religious belief," and "creed" include all aspects of religious belief, observance, and practice.

(p) "Sex" includes, but is not limited to, pregnancy, childbirth, or medical conditions related to pregnancy or childbirth. "Sex" also includes, but is not limited to, a person's gender, as defined in *Section 422.56 of the Penal Code*.

(q) "Sexual orientation" means heterosexuality, homosexuality, and bisexuality.

(r) "Supervisor" means any individual having the authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, or to adjust their grievances, or effectively to recommend that action, if, in connection with the foregoing, the exercise of that authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

(s) "Undue hardship" means an action requiring significant difficulty or expense, when considered in light of the following factors:

(1) The nature and cost of the accommodation needed.

(2) The overall financial resources of the facilities involved in the provision of the reasonable accommodations, the number of persons employed at the facility, and the effect on expenses and resources or the impact otherwise of these accommodations upon the operation of the facility.

(3) The overall financial resources of the covered entity, the overall size of the business of a covered entity with respect to the number of employees, and the number, type, and location of its facilities.

(4) The type of operations, including the composition, structure, and functions of the workforce of the entity.

(5) The geographic separateness, administrative, or fiscal relationship of the facility or facilities.

HISTORY:

Added Stats 1980 ch 992 § 4. Amended Stats 1985 ch 1151 § 1; Stats 1990 ch 15 § 1 (SB 1027); Stats 1992 ch 911 § 3 (AB 311), ch 912 § 3 (AB 1286), ch 913 § 21.3 (AB 1077); Stats 1993 ch 1214 § 5 (AB 551); Stats 1998 ch 99 § 1 (SB 654); Stats 1999 ch 311 § 2 (SB 1185), ch 591 § 5.1 (AB 1670), ch 592 § 3.7 (AB 1001); Stats 2000 ch 1049 § 5 (AB 2222); Stats 2003 ch 164 § 1 (AB 196); Stats 2004 ch 700 § 4 (SB 1234).

Amendments:

1985 Amendment:

Added **(1)** "or her" after "employed by his" in subd (b); and **(2)** subd (i).

1990 Amendment:

Added subd (j).

1992 Amendment:

(1) Added subd (a); **(2)** redesignated former subds (a)-(d) to be subds (b)-(e); **(3)** amended the introductory clause of subd (d) by **(a)** deleting ", except as hereinafter provided," before "includes"; and **(b)** substituting ", except as follows:" for a period; **(4)** added subdivision designation (d)(1); **(5)** added subd (d)(2); **(6)** added subd (f); **(7)** redesignated former subdivisions (e) and (f) to be subds (g) and (h); **(8)** substituted "includes, but is not limited to," for "means" in subd (h); **(9)** added subd (i); **(10)**

redesignated former subd (g) to be subd (j); **(11)** substituted "disability, mental disability" for "handicap" in subd (j); **(12)** substituted subd (k) for former subd (h) which read: "(h) 'Physical handicap' includes impairment of sight, hearing, or speech, or impairment of physical ability because of amputation or loss of function or coordination, or any other health impairment which requires special education or related services."; **(13)** added subds (l) and (m); **(14)** redesignated former subds (i) and (j) to be subds (n) and (o); and **(15)** added subd (p) and the last paragraph. (As amended 1992 ch 913, compared to the section as it read prior to 1992. This section was also amended by two earlier chapters, ch 911, ch 912. See Gov C § 9605.)

1993 Amendment:

(1) Substituted "functions" for "duties" after "Essential" both times it appears in subd (f); **(2)** deleted ", but is not limited to," after "includes" in subd (h); **(3)** deleted former subd (l) which read: "(l) 'Reasonable accommodation' may include either of the following:

"(1) Making existing facilities used by employees readily accessible to, and usable by, individuals with disabilities.

"(2) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, adjustment or modifications of examinations, training materials or policies, the provision of qualified readers or interpreters, and other similar accommodations for individuals with disabilities. It is the intent of the Legislature that the definition of 'physical disability' in this subdivision shall have the same meaning as the term 'physical handicap' formerly defined by this subdivision and construed in *American National Ins. Co. v. Fair Employment & Housing Com.*, 32 Cal. 3d 603. However, 'physical disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C., § 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a physical disability."; **(4)** designated the former last paragraph in the section to be subd (l); and **(5)** substituted "of" for "or" after "size of the business" in subd (p)(3).

1998 Amendment:

(1) Amended subd (d) by **(a)** substituting the comma after "indirectly" for the semicolon; and **(b)** adding the comma after "thereof"; **(2)** substituted "that" for "which" after "organization" in subd (g); **(3)** amended subd (h) by adding **(a)** "(1) genetic characteristics, or (2)" after "include" in the first sentence; and **(b)** the second sentence; and **(4)** added "and" before "(5) the geographic" in subd (p).

1999 Amendment:

(1) Amended subd (d) by (a) substituting "of the state" for "thereof" in the introductory clause; (b) deleting subdivision designation (d)(1) at the beginning of the second paragraph; and (c) deleting former subd (d)(2) which read: "(2) 'Employer,' for purposes of provisions defining unlawful employment practices related to mental disability, means any person regularly employing 15 or more persons, or any person directly or indirectly acting as an agent of such an employer, and also includes the state and municipalities and political subdivisions of the state."; (2) substituted subd (h) for former subd (h) which read: "(h) 'Medical condition' includes (1) genetic characteristics, or (2) any health impairment related to or associated with a diagnosis of cancer, for which a person has been rehabilitated or cured, based on competent medical evidence. For purposes of this section, 'genetic characteristics' means any scientifically or medically identifiable gene or chromosome, or combination or alteration thereof, that is known to be a cause of a disease or disorder in a person or his or her offspring, or is determined to be associated with a statistically increased risk of development of a disease or disorder, or inherited characteristics that may derive from the individual or family member, that is presently not associated with any symptoms of any disease or order."; (3) substituted "or age" at the end of subd (j); (4) added subd (m); (5) redesignated former subds (m)-(o) to be subds (n)-(p); (6) added subds (q) and (r); and (7) redesignated former subd (p) to be subd (s). (As amended Stats 1999 ch 592, compared to the section as it read prior to 1999. This section was also amended by two earlier chapters, ch 311 and ch 591. See *Gov C § 9605*.)

2000 Amendment:

(1) Amended subd (h) by (a) adding "means" in the introductory clause; and (b) substituting "cancer or a record or history of cancer" for ", for which a person has been rehabilitated or cured, based on competent medical evidence" in subd (h)(1); (2) substituted subd (i) for former subd (i) which read: "(i) 'Mental disability' includes any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. However, 'mental disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a mental disability."; and (3) substituted subd (k) for former subd (k) which read: "(k) 'Physical disability' includes, but is not limited to, all of the following:

"(1) Having any physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss that does both of the following:

"(A) Affects one or more of the following body systems: neurological, immunological, musculoskeletal, special sense organs, respiratory, including speech organs, cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine.

"(B) Limits an individual's ability to participate in major life activities.

"(2) Any other healthy impairment not described in paragraph (1) that requires special education or related services.

"(3) Being regarded as having or having had a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment described in paragraph (1) and (2).

"(4) Being regarded as having, or having had, a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment that has no present disabling effect but may become a physical disability as described in paragraph (1) or (2).

"It is the intent of the Legislature that the definition of 'physical disability' in this subdivision shall have the same meaning as the term 'physical handicap' formerly defined by this subdivision and construed in *American National Ins. Co. v. Fair Employment & Housing Com.* (1982) 32 Cal. 3d 603. However, 'physical disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C., Sec 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a physical disability."

2003 Amendment:

(1) Added the second sentence of subd (p); and (2) amended subd (s) by substituting (a) "The" for "the" at the beginning of subds (s)(1)-(s)(5); and (b) the period for the comma at the end of subds (s)(1)-(s)(3) and the period for ", and" at the end of subd (s)(4).

2004 Amendment:

Substituted "Section 422.56 of the Penal Code" for "Section 422.76 of the Penal Code, except that, for purposes of this part, the reference in that definition to the "victim" shall mean the employee or applicant and the reference in that definition to the "defendant" shall mean the employer or other covered entity or person subject to applicable prohibitions under this part" in subd (p).

Appendix D

San Mateo Community College District Notice of Compliance Under ADA & California State Law

In accordance with the requirements of Title II of the Americans with Disabilities Act (ADA) of 1990, the Americans with Disabilities Amendments Act of 2008, the Fair Employment & Housing Act (FEHA), California Government Code Section 11135 and other applicable codes, San Mateo Community College District does not discriminate against individuals on the basis of disability in its services, programs or activities.

Employment: San Mateo Community College District does not discriminate on the basis of disability in its hiring or employment practices and will comply with the Fair Employment and Housing Act, as well as Title I of the ADA, including the regulations promulgated by the U.S. Equal Employment Opportunity Commission (EEOC), including the requirement to provide reasonable accommodations.

Effective Communication: San Mateo Community College District will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities, including sign language interpreters, documents in Braille and other alternate formats to ensure information and communication is accessible to people who have speech, hearing, vision, or cognitive impairments so they can participate equally in the programs, services and activities.

Modification to Policies and Procedures: San Mateo Community College District will make reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to participate in all of its programs, services and activities. *For example, individuals with service animals behaving within applicable standards are welcome in offices and College facilities, even when pets are generally prohibited.*

Anyone who requires auxiliary aids and services for effective communication, or a modification of policies or procedures to participate in a program, service or activity within the San Mateo Community College District should submit their request for reasonable accommodations to Mitchell Bailey, Chief of Staff, Chancellor's Office (baileym@smccd.edu) (unless otherwise specified) as soon as possible, but no

later than **72 hours** before the scheduled event.

Neither the ADA, nor state law requires the San Mateo Community College District to take action that would fundamentally alter the nature of its programs, activities or services or impose an undue financial or administrative burden. Complaints about web accessibility, alternate media or academic accommodations can be submitted online via our [online complaint form](https://collegeofsanmateo.edu/forms/grievances.asp) (link: <https://collegeofsanmateo.edu/forms/grievances.asp>)³.

The San Mateo Community College District will not place a surcharge on a particular individual with a disability or a group of individuals with disabilities to cover the cost of providing auxiliary aids and services or making a reasonable modification to a policy to create access.

³ Student grievance form, the District is in the process of creating a standard form.

Appendix E

San Mateo Community College District

ADA Notice Dissemination Plan

Title II of the ADA, 28 CFR 35.106⁴ requires that the San Mateo Community College District produce and disseminate a notice of their ADA compliance.

The notice should be written clearly without undue complication. It should discuss what ADA requirements the entity is held to, the name of the ADA Coordinator, and provide current contact information enabling an individual to contact the ADA Coordinator. The notice should cover areas regarding:

- Employment;
- Effective Communication;
- Making reasonable modification to policies and programs;
- An explanation of the non-surcharge requirement concerning the provision of auxiliary aids and services; and
- Information regarding the grievance process.

In considering how to disseminate this document, the San Mateo Community College District should identify the impacted parties who would have an interest in the notice. The notice dissemination plan should address the frequency of notice dissemination. Methods of dissemination may include:

- The College's website;
- Local Newspaper(s);
- College Publications;
- Posters on College facilities;
- Inclusion of notice for special activities;
- Within transportation systems provided by the College;
- Within Disabled Students Programs and Services meetings and materials; and
- Other forms in which impacted stakeholders might be present.

Not all of the above notice dissemination methodologies may be necessary to effectively disseminate the notice.

⁴28 CFR 35.106 Notice: A public entity shall make available to applicants, participants, beneficiaries, and other interested persons information regarding the provisions of this part and its applicability to the services, programs, or activities of the public entity, and make such information available to them in such manner as the head of the entity finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this part.

Appendix F

Grievance Procedure under ADA or California State Disability Civil Rights Laws

This grievance procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 (“ADA”), the Americans with Disabilities Amendments Act (ADAAA) and California State law. It may be used by anyone wishing to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the San Mateo Community College District. The District’s Disability Discrimination Policy governs employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of the complainant and location, date and a description of the problem(s). The District’s Grievance Procedure form is available online at smccd.edu⁵. Alternative means of filing a complaint, such as personal interviews or a tape recording of the complaint, are available to persons with disabilities upon request.

⁵ Accessibility Issue Report Forms are currently being developed by the District.

Fax: 650-738-4228

Appendix H

SURVEY QUESTIONS

ADA Coordinator

1. Does the College have an ADA Notice of Compliance? If yes, does it address State law? Please attach the Notice.
2. Does the grievance system:
 - a. Offer assistance to persons with disabilities, who due to their disability are not able to complete the grievance form?
 - b. Provide timelines when a complainant can expect a result?
 - c. Have a second level of review?
 - d. Contain a notice regarding availability of the grievance system in alternative format?
 - e. Contain the name and contact information of the ADA Coordinator?
3. Are the ADA Notice of Compliance and the grievance system posted on the College website?
4. Who handles the fact finding and grievance administration?
5. Does the College have a plan for ADA Notice and Grievance dissemination?

6. Does the ADA Coordinator's office have ready access to senior management?
If no, how are disability civil rights issues elevated in order that they may be addressed in a timely manner?
7. Who provides auxiliary aids and services to persons seeking accommodation under ADA Title II?
8. Who provides reasonable accommodations to applicants and employees under ADA Title I, ADAAA and California Government Code 12926 (employment)?
9. Who investigates grievances related to reasonable accommodations and other ADA related issues?
10. Is an interactive process used? If yes, how is it documented?
11. How is undue hardship determined and by whom?
12. Is there an anti-surcharge policy in place to make it clear to staff not to charge for accommodations?
13. Is contract language in place holding contractors and vendors to applicable State and Federal disability civil rights mandates? If yes, how is this enforced?
14. If a person with a disability believes they have been discriminated against by a campus vendor or contractor, what steps are open to them?

15. Is an accessibility plan check done when vendors are conducting tenant improvements in public services areas?
16. Is guidance in place for staff and vendors regarding clear space and furniture placement? If yes, please attach the guidance.
17. Does the College have a service animal policy? If yes, how is staff trained?
18. How is access for comfort animals addressed?
19. Is there a procedure in place to be used by staff should there be an incident involving a service animal? If yes, please attach the procedure.
20. How does the College address service animal relief areas during meetings and events?
21. Are all College publications offered in alternative formats?
22. Is there notice on all public meeting announcements that auxiliary aids and services are made available as needed for meeting participants with disabilities?
23. Is the College 911 system accessible to TTYs and modems?
24. Is College staff and vendors who have public contact trained or provided guidance regarding ADA requirements and disability awareness?

25. How are new employees oriented to etiquette, language and the College legal disability civil rights mandates?
26. When disability civil rights training is provided, do you retain a roster of trainees, information regarding the subject and length of the training, the training plan or PowerPoint and the trainer's resume?
27. Has the College Disability Advisory Committee (UA) been trained regarding the mandates the College is held to under ADA and California Government Code 11135 and 12926?
28. What trainings do you think should be provided to College faculty and staff?
29. Are publications reviewed to ensure they do not portray persons with disabilities in a negative manner?
30. Is there a policy and procedure in place to address policy modification requests and the determination of undue burden? If yes, when was it last updated? Please attach a copy of the policy.
31. Is there a policy and procedure in place to address direct threat determination to others? If yes, when was it last updated? Please attach a copy of the policy.
32. Is there a policy and procedure in place regarding maintenance of accessible features? If yes, please attach.

33. Is there a system in place to identify safety and access issues, which can be used by maintenance staff to report and/or correct problems?
34. Has maintenance staff been trained to identify access and safety issues?
35. If “*Program Access*” solutions are used to create access are they approved by the ADA Coordinator before they are put in place?
36. When “*Program Access*” solutions are put in place are they documented by a written procedure to ensure staff implements them appropriately?
37. Are transportation providers, if applicable, trained regarding, the use of tie downs, disability awareness, and the requirement that stops be called and other transportation mandates?
38. Has a policy been created to address motorized mobility devices, as required by 28 CFR 35.137? Note: This is a policy the College has the legal option of creating if it is seen to be in the College’s best interest.
39. When the purchase of new equipment is made, (purchases including, but not limited to communication and transportation equipment) how are access requirements addressed?
40. Does the College operate any programs, services or activities from a registered historic site? If yes, please list the sites.
41. Have law enforcement officers received disability awareness training, such as the US DOJ role call videos?

42. How is access monitored during campus related projects during planning and construction?
43. When entering into settlement agreements as part of the Project Civic Access, the US DOJ requires that the staff of Title II entities, which have public contact, attend a 4-hour training covering ADA requirements and disability awareness. How is the College informing impacted staff of the College's responsibilities and disability awareness?
44. In addition to staff training provided to date, are there other trainings you think should be produced? If yes, what training is needed and for whom?
45. Are there areas, not noted above, that you think should be studied within this Self-Evaluation?
46. Does the College have a policy in place that prohibits discrimination against persons who formerly used drugs illegally?
47. Does the College have any programs that sell tickets with assigned seating?
48. How are reasonable accommodations handled for College volunteers?
49. Does the College have an anti-disability harassment policy?
 - a. If yes, is it based upon zero tolerance or the legal definition of disability harassment?

- b. How often is it disseminated to all College staff?
50. Is the President involved in and supportive of the ADA project?
51. What is the policy/practice regarding faculty selecting instructional material in a timely manner in order that it may be made available in alternative format as needed?
52. Does the campus operate any programs in the satellite locations? If yes, were they surveyed as part of the Transition Plan?
53. What is the system for providing accommodation to programs, activities and services provided to the public? In this question we're looking at job fairs, commencement exercises, athletic events, etc.
54. Has the campus had complaints regarding disability civil rights matters? If yes, please explain.
55. Does the campus operate a distance learning program? If yes, how is access addressed?
56. Is there a policy in place that controls the faculty use of their private websites for required instruction?
57. Does the campus have "smart classrooms?" If yes, is access for persons with disabilities checked in those classrooms including site lines and access to technology?

58. How are disability civil rights addressed in program components that are provided through a third-party contract? It is important to note that the campus may not legally enter into a business arrangement that contracts the way the campus disability civil rights responsibilities.
59. Historically, has a self-evaluation or transition plan ever been performed? If yes, what was the date of these evaluations and are they available?
60. Are there policies or practices in place that exclude students with disabilities from participating in certain programs such as nursing?
61. Have community resources been identified for use in accommodation of students or the public?
62. Is a plan in place to involve student advisory groups in the ADA project in terms of project input and vetting of results?
63. Does the campus provide transportation services to field trips and events?
64. What procedure is in place to address access needs during field trips or off campus activities?
65. How does the physical education department accommodate people with disabilities?
66. How is on campus construction monitored regarding the quality of access compliance?

- 67. Does the campus rent space to third-parties for activities?
- 68. Does the College rent space off-campus for the purpose of providing programs, services or activities? If yes, how is that space evaluated for physical access?
- 69. What staff training has occurred to date regarding disability civil rights requirements?
- 70. Does maintenance staff use motorized carts, which share the path of travel with pedestrians on campus? If so, what safety considerations have been made for persons with disabilities sharing this path of travel?
- 71. Do trucks making deliveries to campus share the pedestrian path of travel? If yes, has there been an effort to minimize the comingling of pedestrian travel with delivery truck movement?
- 72. Are there campus programs offered offsite? If yes, please describe these programs.

Communications

1. Does the Campus prescribe a certain font type for Campus published documents? If yes, what font type is used?
2. Does the Campus require a certain font size in Campus publications? If yes, please name the font size.
3. Is there a notice on all Campus publications informing users that the publications are available in alternative format, if needed for persons with disabilities?
4. Have Campus publications been reviewed to determine whether they portray persons with disabilities in a demeaning or offensive manner?
5. Has the Campus staff that creates publications or correspondence on behalf of the College been trained in the appropriate use of "person first language"?
6. Have Campus telephone information lines been examined to determine whether or not they are accessible to persons who are deaf and hard of hearing?
7. Have local resources been identified which can provide auxiliary aids for communication as needed?
8. Does the Campus use any touch screen information systems for public interaction? If yes, is there an independent operating system for persons with visual impairments?

9. If videotape is used on the Campus website or in any other District forum, is it captioned?
10. Is there a policy in place for securing video remote interpreting services (VRI)?
11. If the Public Information Officer communicates with the press and releases critical information is a sign language interpreter visible and within the screenshot if television cameras are in use, or is a captioning service used?
12. Are computers used by students, such as in libraries or study halls? If yes, are they equipped with software which makes them accessible to persons with visual impairments?
13. Are videos played in such places as waiting rooms, captioned for the public?
14. If public address systems are used, is there a component that makes the information accessible to persons who are deaf or hard of hearing?
15. When announcements are distributed electronically from the Campus are they sent out in PDF and Word documents simultaneously?
16. Given the issues noted above, are there areas where you think training of Campus facility and staff would be beneficial? If yes, please list the areas of training you have identified.

Electronic Communication

1. Are all website postings reviewed for access before they are posted?
2. Have all files on Campus public sites been reviewed for access? If such a review is planned or in progress, please discuss it.
3. Do all websites meet WCAG 2.1 standards?
4. Have any complaints been received regarding access to any Campus website?
5. Is there a text equivalent, such as an alt tag on all non-text items such as photos or graphics?
6. For multimedia presentations, are equivalent accessible alternatives used, which are synchronized with the presentation?
7. If video is used is it captioned for persons who are deaf or hard of hearing?
8. When information is conveyed in color is the same information made available without the use of color?
9. Are documents organized in order that they are readable without the need for an associated style sheet?

10. Are redundant text links provided for each active region of a server-side image map?
11. Are row and column headers identified for data tables?
12. Is markup used to associate data cells and header cells for tables that have more than two or more logical levels of rows or column headers?
13. Are frames titled with text for form identification and navigation?
14. Are all pages designed to avoid the screen to flicker with a frequency greater than 2 Hz or less than 55Hz?
15. Is the text-only page, with equivalent information and functionality?
16. Is the content of the text-only page updated at the same time the primary page is changed?
17. Is updating addressed the same way for all Campus public websites?
18. If the page uses scripting languages to display content, or create interface elements, is the information provided by the script readable by assistive technology?
19. If a web page or informational kiosk requires an applet or plug in device for access, does the required device(s) comply with Section 1194.21 of the Technical Standards for Software Operating Systems (a) through (l)?

20. If electronic forms are to be filled out on line, do they work with assistive technology?
21. Have the systems discussed in question 19 been tested by end users?
22. Is a system in place that allows screen reader users to skip navigational links?
23. Are systems in place that may time out while a person is giving a response? If yes, is there a way that the user is warned and can obtain more time without losing data?
24. Are touch screen systems in use? If yes, do they have accessible operating systems for persons who are blind? If video is used, is it captioned? Does the video contain audio descriptors?
25. If Campus Council public meetings are broadcast do they have captioning?
26. Do faculty members assign students the task of visiting their personal websites as a class requirement? If yes, how does the college address its access requirements in this situation?

Law Enforcement

1. Have the campus first responders been trained regarding the disability civil rights mandates that the College is held to under State and Federal laws?
2. If applicable, have holding and booking areas been reviewed for access since the 2010 ADA Standards for Accessible Design became effective? If visitor areas are offered, are they accessible?
3. If inmate phone systems are provided is there a phone system for inmates who are deaf or hard of hearing?
4. When arrests are made, how are service animals dealt with?
5. When arrests are made, how are medical appliances (canes, walkers, hearing aids, oxygen tanks, etc.) addressed?
6. How are power wheelchairs, scooters and other large mobility devices transported after an arrest?
7. How are medication needs dealt with after an arrest?
8. When an officer is giving information (direction or Miranda Rights) to a person with a communication related limitation, how is it determined that the person has an understanding of the information being communicated?
9. How do officers communicate with persons who are deaf or hard of hearing?

10. Does the 911 system have TTY? If yes, how often does training occur regarding its use?
11. Is there a procedure in place for officers to obtain a sign language interpreter when one is needed on an emergency basis?
12. Have officers been trained regarding the best techniques for communication with persons with disabilities and officer safety? If yes, were the following disabilities covered?
 - a. Vision Impairments
 - b. Deaf, Hard of hearing and Speech Impairments
 - c. Developmental Disabilities
 - d. Traumatic Brain Injury
 - e. Post-Traumatic Stress Disorder
 - f. Learning Disabilities
 - g. Mobility Impairments
 - h. Multiple Chemical Sensitivities
 - i. Mental Disorders
 - j. Others, please list
 - k. Competing Disabilities (i.e. someone is on the bus with a service dog and another person on the bus has a phobic response to the dog and wants it removed as an accommodation. Both have rights to be considered. The passengers are in conflict).

13. Are there other issues you think should be addressed in dealing with disability civil rights and your role within the campus? If yes, please explain.

Library Services Program Survey

1. Please briefly describe the library services program elements.
2. Has the library services program received any complaints regarding access to programs, services or activities? Please explain.
3. Are all electronic communication systems within the library services program accessible to persons with disabilities? Please explain and consider software necessary for appropriate access for persons with visual impairments, clear space in the approach to equipment, audio descriptors within videotapes for persons who are blind and captioning for persons who are deaf and hard of hearing.
4. When videotape is purchased is it purchased with captioning and audio descriptions included? Please explain.
5. Are stacks and library furniture arranged in a manner that allows access for persons who use wheelchairs? Please explain.
6. How do persons of short stature, with mobility limitations, and/or with visual impairments retrieve books from high shelves? Please explain.
7. Have library services program staff who have public access been trained in disability awareness and in the legal mandates the University is held to within the library program? Please explain.

8. How do persons with disabilities obtain library materials in alternative formats such as large print, Braille, audio recordings, and documents stored electronically?
9. How do persons with visual impairments typically conduct library research projects?
10. Does the library have an emergency management plan which includes addressing the issues relative to persons with disabilities? Please explain.
11. Does the library use electronic informational kiosks? If yes, are they accessible to persons with mobility limitations, visual impairments or who are deaf and hard of hearing? Please explain.
12. Are brochure racks and bulletin boards at an elevation that makes them usable by persons with disabilities? Please explain.
13. In the spirit of continuous improvement, what actions can you recommend that would make library services program more accessible and usable by qualified persons with disabilities?

Meeting and Event Planners

For the purposes of this survey, it is important to understand that all open meetings must be addressed. Covered meetings include, but are not limited to; class meetings, commencement, new student orientation, theatrical performances, special events, etc. Thus, we are asking you to be as inclusive as possible.

1. Is notice provided within meeting/event announcements that auxiliary aids and services (reasonable accommodations) are available as needed for persons with disabilities? This may be a statement in the class syllabus.
2. Are persons administering the meeting trained regarding the College's disability civil rights responsibilities?
3. Are meetings held on public transportation routes?
4. Are meeting sites reviewed for physical accessibility before the meeting is calendared? Note: this must include arrival points, meeting room(s), supporting restrooms, drinking fountains, public phones, registration counters, etc.
5. Are service animal relief areas identified before the meeting? This may be on a campus-wide basis.
6. Are stages, speaking platforms, microphones and other items to be used by persons with disabilities accessible? Note: When considering microphone access please take into account podium elevations, touch screen control systems, goose neck microphone attached to the center of tables without knee clearance for wheelchair users, and persons who will not be able to handhold any equipment.

7. If video is used, is it captioned?
8. If video is used, does it contain audio descriptors?
9. Are speakers asked to read aloud all content on PowerPoint Presentations?
10. Is integrated seating made available with companion seating for wheelchair users?
11. If seating is at tables, is knee clearance space checked for wheelchair users?
12. Is high seating available for persons who have difficulty getting in and out of low chairs?
13. Is staff trained to set up meeting rooms to provide maneuvering space for persons who use wheelchairs or service animals?
14. Are FM Loop systems (Assistive Listening Devices) available for persons who are hard of hearing? If FM Loop systems are being used, do meeting hosts ensure that all comments made during the meeting go through the PA system?
15. If sign language interpreters or a real time captioner are being used, is there reserved seating at the front of the room for persons needing these accommodations?

16. Are two sign language interpreters retained for meetings or events lasting more than two hours?
17. Are sign language interpreters and real time captioning screens positioned close to the speaker?
18. Are sign language interpreters under good lighting?
19. Are sign language interpreters and real time captioners provided information before the meeting/event regarding any unusual terms or difficult to spell names that will be part of the program?
20. If speaker cards are to be used, is staff available to assist persons with disabilities, as needed in completing the cards?
21. If public comment time is limited, is the time increased for persons who have speech impairments?
22. If events include displays, are the displays accessible and on an accessible route?
23. Is the indoor or outdoor surface where persons with disabilities will travel smooth, stable and slip resistant?
24. Have transaction points been reviewed for clear space, and elevation?

25. If parts of an exhibit are inaccessible due to technical infeasibility, is video with captioning used to display the exhibit?
26. If buffet food services are part of the event, is support available as needed for persons with disabilities?
27. Does the campus have an event planning checklist to address access in meetings and event planning?

Physical Education

1. Are persons with disabilities served in their integrated setting?
2. Is adaptive equipment available for persons with disabilities?
3. Is there adequate maneuvering space around equipment to provide an opportunity for wheelchair users to approach the equipment?
4. Can course requirements be modified to provide people with physical disabilities an opportunity to complete physical education courses?
5. How is orientation provided for persons who are blind?
6. Have you received complaints regarding access? If yes, please explain and state how the matter was resolved.
7. What ADA access improvements would you recommend for the Physical Education Program?

Purchasing and Service Contracts

Introduction

This document is designed to bring up a few of the general issues related to purchasing and contracting, that relate to disability civil rights compliance in State and local government including public colleges. It is important to note that each business transaction must be analyzed on its own merit and that the issues raised here are typical, but not exhaustive.

General Conditions

1. Are all public documents related to bidding and contracting available to persons with disabilities in alternative format if needed?
2. Are meetings related to bidding and contracting held in accessible locations?

Construction and Remodels

1. Do all design contracts hold design professionals to designs that use, at minimum, the most stringent access standards in effect at the time of the project?
2. Do design contracts encourage design professionals to exceed the maximum access standards when possible to ensure that construction tolerances are built into the project?
3. Is a policy in place that mandates CASp inspections at key points of construction and at completion, before final payment is made?

4. Are major public projects reviewed by stakeholders with disabilities during the planning stage?

Service Contracts

1. Do all contracts in which the contractor will be providing programs, services or activities on behalf of your office, written in a manner that holds the contractor to the mandates of Title II of the ADA and California Government Code 11135?
2. If a recipient of programs, services or activities via service contracts believe that their civil rights have been violated what recourse is open to them?
3. How do the contract administrator and ADA Coordinator become aware of alleged civil rights violations? (Please discuss timelines and communication of facts.)

Purchase of Items Which Have Communication Elements

1. Is there a requirement in place that mandates the purchasing agent check the marketplace to determine if accessible items of the type being purchased are available?
2. Are items purchased examined to determine if they are useable by persons who are:
 - a. Blind
 - b. Have low vision
 - c. Deaf
 - d. Are hard of hearing

- e. Have learning disabilities (Consider items that do not contain time limits on their use and close down.)
 - f. Have limited dexterity (Consider items that do not require grasping, pinching or twisting.)
3. When questions come up regarding accessible communication purchases are outside resources consulted (Disability Advisory Committees, Jobs Accommodation Network, local Independent Living Center, etc.) before the purchase is made?

General Purchases

1. Prior to the purchase and if applicable, are building standards reviewed to ensure the item in question will be compliant when installed in its intended location? (Factors to consider include, but are not limited to; toilet paper dispensers must be located below the grab bar, items may not protrude more than 4" from the wall in a path of travel if they are placed at an elevation above 27" or below 80", there must be clear space available for a wheelchair user to be able to approach the item for use, an item must not require a person to reach higher than 48" or lower than 15" to operate unless the user must reach over other items to operate, then it lowers, etc.)
2. Is the operational presser required to use an item considered? (It should not exceed 5lbs.)
3. Is dexterity considered before a purchase is made? (Users must not be required to grasp, pinch or twist the device to operate it.)
4. When furniture is purchased is knee clearance for tables and clear space within a room considered?

Student/Community Services

1. Have you received complaints concerning your operation relative to disability access issues? Please explain.
2. Does your staff offer assistance in completing forms if, because of a disability such as physical, sensory, or cognitive, someone is unable to complete the forms independently? Please explain.
3. Are forms and publications available in alternative formats such as large print, Braille, audio recordings, and documents stored electronically? Please explain.
4. How do you provide auxiliary aids and services as needed for persons with disabilities?

ADA 28 CFR part 35 section 35.104 defines:

“Auxiliary aids and services includes--

(1) Qualified interpreters, note takers, transcription services, written materials, telephone handset amplifiers, assistive listening devices, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, open and closed captioning, telecommunications devices for deaf persons (TDD's), videotext displays, or other effective methods of making aurally delivered materials available to individuals with hearing impairments;

(2) Qualified readers, taped texts, audio recordings, Brailled materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments;

(3) Acquisition or modification of equipment or devices; and

(4) Other similar services and actions”.

Please explain.

5. Has staff been trained concerning disability etiquette awareness and person first language? Please explain.
6. Is furniture arranged and maintained in your office in a manner that provides clear space for wheelchair access or space for service animals? Please explain.
7. Are brochure racks and bulletin boards at an elevation and reach range that makes them usable by persons with disabilities? Please explain.
8. Are there any policies that your office has created to deal with disability access issues? If yes, please attach them.
9. Do you have suggestions concerning how access to your programs, services and activities could be enhanced for persons with disabilities? Please explain.
10. Does your office sponsor or host public meetings and events? If yes, please complete the questions concerning production of meetings and events.
11. Does your office have an emergency management plan which includes persons with disabilities? Please explain.

Medical Services

Introduction

The questions below represent a few common issues that persons with disabilities encounter while obtaining medical services. Each interaction with a patient or medical facility visitor will differ. It is important that they receive the same level of care provided to other persons within the health care system. If you see issues that are not addressed below, please add them as notes at the bottom of this survey.

1. Do medical facilities have a space where a wheelchair user can be examined on an examining table rather than being examined while in their chair?
2. Is assistance available, if needed, to assist the patient in transferring from their wheelchair to an examining table?
3. Can services be provided to the patient without assistance from friends or family members of the patient?
4. In instances where the patient requests a family member or friend to assist, has a medical provider been trained to speak directly to the patient, rather than directing pertinent questions to the party providing assistance?
5. Is a policy in place which ensures that the patient will be treated despite the fact it may take longer to treat them than it would other patients?
6. Are there times when patients are required to wait longer than other patients for treatment because the accessible equipment needed is in use?

7. Is a patient ever asked to use the services of a friend or family member for sign language interpreting?
8. Have all medical facilities been reviewed for physical access by a CAsp certified surveyor?
9. Is the medical equipment accessible to persons with disabilities?
10. Are waiting room furnishings arranged in such a way that there is space for wheelchair users or persons using service animals to sit?
11. As a best practice, are high and wide based seating available in waiting rooms to accommodate patients that have difficulty getting out of low chairs, or who are large and may not fit into standard chairs?
12. If paging systems are used, is there a video paging component for persons who are deaf or hard of hearing?
13. Has all staff having contact with the public received disability awareness and etiquette training?
14. If health education is provided, are class materials available in an alternative format, if needed, to create access for persons with disabilities?
15. Do training videotapes have captioning for the deaf and hard of hearing and audio descriptors for the blind?

Emergencies and Office Sites

1. Has the Campus used the guidance published by the EEOC regarding a lawful means of identifying employees who might need assistance during an emergency due to their disability?
2. Are floor wardens in place to assist during an event? If yes, please respond to items 3 and 4 below.
3. Have floor wardens been trained regarding the needs of persons with disabilities in emergency situations?
4. If floor wardens are assigned the responsibility of assisting persons with disabilities, are redundancies made in the assignments? (Consider wardens who might not be in the office on the day of the event.)
5. Has the emergency plan been coordinated with the Fire Department?
6. Is there a procedure for shutting down the intake on the HVAC system, if there is a need to shelter in place, due to contamination of the air outside the building?
7. Are persons with disabilities involved in emergency plan creation, drills and debriefings?
8. In the event of an emergency evacuation, has the path of travel and assembly been coordinated with the Fire Department? (Consider Fire Department

points of arrival, staging area, areas for fire hoses, wheelchair users, distance needed from emergency site, etc)

9. How would communication be addressed during an active shooter event?
Please consider persons who are deaf or blind.
10. In response to a bomb threat, if evacuation is required, is the assembly site checked for explosives before it is populated?
11. If the event involves the need for site occupants to be decontaminated before leaving the site, is there a procedure in place to hold all parties on site until decontamination has been completed?
12. During shelter-in-place events, how are medical and medication needs addressed?
13. Can the person onsite handling the event until the Fire Department arrives, communicate with the Fire Department as they are rolling to the site?
14. Is there information available to staff regarding how to deal with various types of events? (Consider earthquake, fire, shooting, bomb threat, civil unrest, terrorist attack, etc.) If yes, has it been made available to employees, if needed, in alternative formats?
15. Is the whole site covered by fire alarms and strobe lights?
16. Are exits clearly marked?

17. Are back-up emergency evacuation chairs in place?
18. If areas of safe refuge will be in use, is there a communication system from that site to the event control center? If yes, would this system work for a deaf person?
19. Are all PA systems monitored by maintenance staff to ensure the volume is high enough to be heard throughout the intended areas of impact?
20. Are emergency evacuation chairs to be used? If yes, consider:
 - a. Has staff been trained in the use of these chairs?
 - b. If yes, did this training include information regarding the risks of transferring some persons with disabilities into and out of the chair?
 - c. Have impacted employees with disabilities been involved with the training?
 - d. What is the plan should the chair need to be used for more than one person? (Consider where the first evacuee will be left when the chair is taken back into the site for reuse.)
 - e. Have the chairs been tested in the stairwells to ensure they can operate and turn in the space available?

- f. What is the plan in the event the slow-moving chairs create a back up in the stairwell?
 - g. Are the chairs stored close to where they will be used?
 - h. Are there any barriers or locks impacting ability to obtain them when needed?
 - i. Are chair manufacturer directives, if any, followed regarding maintenance?
-
- 21. Is there a plan in place to keep people hydrated if it is necessary to hold them outside the building for a prolonged period during hot weather?
 - 22. Do elevators have a system to communicate, if a person is trapped? If yes, will this system work for a person who is deaf or has speech limitations?
 - 23. Has emergency management staff been trained regarding the variety of events that might occur and their impact on persons with disabilities?

1. **Item Number:** Number corresponding to the number on the Barrier Location Map which identifies the general location of the identified barriers.
2. **Item Name:** Describes the barrier location / item title (e.g.: parking lot, room name).
3. **As-Built Description:** Description of identified barrier based on applicable accessibility codes.
4. **As-Built:** Existing conditions / dimensions.
5. **Proposed Solution:** Description of steps necessary to remove barrier and, if applicable, an interim or alternative solution.
6. **Notes:** Additional notes pertaining to barrier.
7. **Codes / Info:**
 - PCODE: specifies the relevant SSA database code. Database code plus suffix
 - REF: data shown for reference only [scope of work related to or covered by other item].
 - NT: non-typical problem or solution.
 - ADAAG/ADA 2010: The Federal Standard for accessibility adopted by the Department of Justice.
8. **Qty:** Number of units required.
9. **Type:** Unit of measurement used to compute conceptual cost estimate. LF=linear feet; SF=square feet; JOB=lump sum.
10. **Cost:** Estimated conceptual cost of specified solution per one unit.
11. **Total:** Total estimated conceptual cost for removing identified barrier (multiplied Qty by Cost).
12. **ID No:** Specifies Facility Number, Area Number: 1=Interior / 0=Exterior, and Part / Floor Number.

I. PROJECT OVERVIEW

A. Acknowledgments

Sally Swanson Architects, Inc. (SSA) would like to thank the Skyline College (Skyline College) staff for their time, thoughtfulness, and conscientious contributions to this Self-Evaluation process. The Self-Evaluation process is more than simply responding to questions, it's an opportunity to immerse, reflect, grow, and demonstrate an unwavering commitment to making Skyline College the best it can be for all who come here. The level of commitment exhibited by College staff throughout this Self-Evaluation process attests to the College's dedication to equal access for all.

SSA would especially like to thank Heidi Rank, Architect and Project Manager for this Self-Evaluation. Without her leadership, and everyone's contribution, this project and the milestones of equality that will follow would not have been possible.

B. Introduction

Because of its history and mission of community service, Skyline College is particularly committed to providing seamless access to all its programs, services and activities for qualified people with disabilities. Skyline College is not only dedicated to ensuring compliance with State and Federal disability rights laws, it aspires to be a model of best practices in the areas of accessibility and reasonable accommodation.

The Americans with Disabilities Act (ADA) Title II mandates that covered entities, such as Skyline College, conduct a Self-Evaluation, create a Transition Plan, appoint an ADA Coordinator, and develop a Grievance Procedure and an ADA Notice of Compliance. To meet this obligation, and to create a path forward toward total accessibility, Skyline College has contracted with Sally Swanson Architects, Inc. (SSA) to assist with meeting (ADA) Title II mandates.

This document presents only the ADA Self-Evaluation. This evaluation provides a comprehensive report outlining a review of Skyline College programs, services and activities. Results of the survey and analysis identify programmatic and administrative barriers to programs and are contained herein along with the Grievance Procedure and ADA Notice of Compliance.

C. Background Information Regarding the Americans with Disabilities Act and California State Law

1. Purpose of the Americans with Disabilities Act

Passed in 1990, the Americans with Disabilities Act (ADA) is one of the most comprehensive civil rights laws in the nation. It provides protection to an estimated 57 million Americans in: employment (Title I); receipt of programs, services and activities from State and local government (Title II); the receipt of goods and services from private businesses (Title III); and telecommunications (Title IV). In 2008, the Americans with Disabilities Amendment Act (ADAAA) was passed. The ADAAA gives guidance to the courts regarding who has standing under ADA. The result has been an increasing number of people who are now able to bring ADA claims in Federal Court.

2. Overview of Disability Civil Rights Law Impacting Skyline College

Skyline College is covered by the ADA Title II, ADAAA of 2008, the Rehabilitation Act of 1973, and California Government Codes 11135 and 12926. All contractual activities are also covered by California Government Code 4450. Employment programs are covered by the ADA (Title I), the ADAAA and California Government Code 12926. Construction activities are covered by California Code 4450.

When comparing State and Federal law 28 CFR 35.103, it is mandated that the most stringent law be applied to create the maximum amount of access for people with disabilities. Thus, the most stringent standards were applied to the evaluation reported in this document.

3. ADA Self-Evaluation Requirements

Required by 28 CFR 35.105, the ADA Self-Evaluation is a complete examination of all programs, services and activities provided by Skyline College, to ensure that, when viewed in their entirety, they are readily accessible to qualified people with disabilities. The purpose of the ADA Self-Evaluation is to identify areas where changes are needed to ensure access is in place for people with disabilities.

4. Who is a Qualified Person with a Disability?

To be qualified as a person with disabilities for the purposes of this Self-Evaluation, an individual must have a disability as defined below and must be qualified to participate in the programs, services or activities of Skyline College.

Under California Government Code 11135, the ADA was incorporated into State law and therefore the ADA issues raised in this Report are both State and Federal issues. In California Government Code 12926, the definition of mental and physical disability was broadened beyond the ADAAA. Summarized as follows:

1. A person having a physical or mental disability that limits a major life activity. This person is considered as having unmitigated status (i.e., how the individual in question would function without the use of medication or devices that may mitigate the impact of the disability). If there is a limitation to a major life activity in this statute, coverage is established;

2. A person with a history of a disability as described above;
3. A person is regarded as having a disability, such as described.

California State law also provides protection to cancer survivors, people who have a genetic predisposition to illnesses or disabilities or people who have received services within a special education program.

D. Scope of the Self-Evaluation

The Self-Evaluation is intended as a review of the programs, services and activities provided by Skyline College. The US Department of Justice (DOJ) within the ADA Title II, Technical Assistance Manual (TAM) (Section II-8.2000) recommends a scope of review for Self-Evaluations, which contains thirteen program areas which were considered for use in the development of this report. Areas considered include:

- ☐ The Transition Plan (physical access to existing College facilities),
- ☐ Policies that may limit or exclude the participation of people with disabilities;
- ☐ Communication systems used by Skyline College;
- ☐ Provision of auxiliary aids and services to people who are engaged in Skyline College's programs, services or activities;
- ☐ Access to emergency management for people with disabilities;
- ☐ Disability awareness among Skyline College staff;
- ☐ Policies addressing policy modification requests and the determination of fundamental alteration of programs;
- ☐ Access to public meetings;
- ☐ Human Resources programs and policies;
- ☐ Construction policies;
- ☐ College staff training and support;

- ❑ ADA-related drug policies.

E. Self-Evaluation Method of Review

The ADA mandates that a Self-Evaluation review all programs, services and activities of the covered entity. The Self-Evaluation of Skyline College's programs, services, and activities required and involved the participation of every College department. Various teams were assigned relevant surveys based on their programs, services and activities. Departments were instructed to complete a survey for different divisions if they were sufficiently separate and unique. Copies of survey questions are included in the Appendix to this report, and completed surveys are available upon request.

F. ADA Transition Plan Requirements

The ADA Transition Plan is required by 28 CFR 35.150 (d). An ADA Transition Plan must include the following components:

1. A list of all physical barriers in sites at which Skyline College provides programs, services or activities;
2. A statement regarding the method to be used to mitigate the barriers;
3. A schedule for barrier mitigation;
4. The name of the official who is responsible for the ADA Transition Plan administration.

The ADA Transition Plan will be contained in a separate report.

G. How This Report is Organized & To Be Utilized

As noted above, Skyline College is committed not only to compliance with federal and state laws regarding disability and access, but strives to be a model of accessibility and reasonable accommodations best practices. Accordingly, this Report is organized according to survey responses.

This Report is intended to be a summary – not full recitation – of survey results. Each section begins with an overview of recommendations and segues into a breakdown of survey summaries providing the basis for those recommendations. College Staff-provided recommendations are also indicated, and other lists, such as lists of available accessibility resources, are generally indicated as well.

By organizing it this way, the College can easily access the information it needs and use this Report to sharpen its focus on providing the best possible service to its constituents with disabilities, and become a model of best practices.

II. SURVEY RESPONSES AND RECOMMENDATIONS

ADA Coordinator

Recommended Actions

Policies

- Ensure that Skyline has a policy regarding: the use of motorized mobility devices on campus; non-discrimination against persons who formerly used illegal drugs; and placement of furniture to ensure built environment accessibility.
- Ensure that Skyline has a policy in place requiring documentation of Program Access solutions.

Reasonable Accommodation

- Develop and implement reasonable accommodations processes for members of the public and volunteers who are involved in and/or avail themselves of Skyline's programs, services or activities.
- Ensure that existing reasonable accommodations procedures for students, faculty, staff and employees contain policies regarding determination of undue burden, and anti-surcharge.

Grievances

- Confirm that the District is responsible for grievances brought against third party service providers.

Survey Response Overview

Notices & Policies

Survey responses indicate that Skyline has a notice of compliance on its website which addresses Federal (but not State) laws. Skyline also has an anti-disability harassment policy that is distributed yearly both online and in its student catalog.

Survey responses indicate it is not clear whether Skyline has a policy regarding the use of motorized mobility devices on campus, non-discrimination against persons who formerly used illegal drugs, or placement of furniture to ensure built environment accessibility. Skyline does have an existing policy regarding service animals, as well as how to handle any incidents regarding service animals.

Program Access solutions used to create access are currently not approved by the ADA Coordinator but instead at Capital Improvement Program meetings. Once these solutions are put in place, it is unclear how they are documented to ensure proper implementation.

Reasonable Accommodation

Information regarding and contact information for Skyline College's reasonable accommodations is available on its website, delineated between accommodations for students and faculty/staff/employees. For Skyline's publicly available programs, services and activities (e.g. job fairs, athletic events, commencement exercises), survey responses indicate that a process for providing reasonable accommodations needs to be set up. Additionally, it is unclear how reasonable accommodations are managed for volunteers.

Survey responses indicate that Skyline may not have a policy regarding determination of undue burden, but does maintain a policy regarding determination of direct threat. Additionally, students are not charged for reasonable accommodations (it was not clear if this same anti-surcharge policy applied to faculty/staff/employees). Any concerns regarding safety and access issues may be raised to the Health and Safety Committee which holds monthly meetings.

Grievances

Skyline's grievance system is available online and in the Student Catalog under "Student Rights & Responsibilities". It offers assistance to persons with disabilities who, because of their disability, may not otherwise be able to complete the grievance form. Additionally, the grievance process is laid out, e.g. timelines, decision makers, levels of review, contact information for ADA Coordinator. Grievance fact-finding is conducted by the ADA Coordinator, and the Coordinator has ready access to senior management in the event any issues need to be elevated.

Skyline survey responses indicate that the District is responsible for grievances brought against third party service providers. To date, Skyline is unaware of any complaints regarding disability civil rights matters.

Training

Survey responses indicated that new Skyline staff receive training on disability civil rights requirements during New Employee Orientation. Skyline is currently forming a College Disability Advisory Committee, so it has not yet been trained regarding State and Federal disability-related mandates. The Disability Resources Center has provided training on a variety of disability-related issues/etiquette and best practices to various departments on flex days. Survey responses indicate that Skyline offers training to maintenance staff to identify access and safety issues. Survey responses indicate that Skyline is interested in two levels of additional disability-related training: compliance, and best practices.

Human Resources

Survey responses indicate that Human Resources is responsible for administering the reasonable accommodations process for faculty/staff/employees. As noted above, information regarding this is available on the Skyline website. Human Resources is also responsible for investigating complaints regarding access and failure to reasonably accommodate. The above mentioned disability-related training for new hires is administered by Human Resources at the District level.

Communications

Recommended Actions

- Add a notice to Campus publications informing readers that publications are available in alternative formats.
- Examine whether Skyline's 911 system is accessible to TTYs and modems, or whether Skyline's 911 system is handled by County of San Mateo Public Safety Communications.
- Confer with DRC to determine whether Skyline has a policy in place to secure video remote interpreting services (VRI).

Survey Response Overview

Communications Generally

Survey responses state that Skyline's Disability Resource Center has identified a cadre of local resources which can provide auxiliary aids for communication as needed. Additionally, when announcements are distributed electronically from the Campus, they are sent in the body of the email as text and in PDF format as an attachment, as well as posted to the website in PDF format.

Print Materials

Survey responses indicate that, if a student requires College publications in an alternative format, they can make an alternate media request of course materials and other college materials through the Disability Resource Center. Campus publications do not typically contain a notice informing readers that publications are available in alternative formats.

Survey responses state that Skyline's Marketing, Communications and Public Relations team (MCPR) is aware of its obligation to ensure that publications do not portray persons with disabilities in a negative manner. College publications follow style guides. The use of specific fonts and font size are not strict requirements but Skyline MCPR strives to ensure readability.

Communication with People who are Deaf or Hard of Hearing (HoH)

Survey responses indicate that Skyline's 911 system is accessible to TTYs and modems, but also note that Skyline's 911 system is handled by County of San Mateo Public Safety Communications. Skyline was unsure whether Campus telephone information lines have been examined to determine whether or not they are accessible to persons who are deaf and hard of hearing as these are handled by the District.

Survey responses were unsure as to whether Skyline has a policy in place to secure video remote interpreting services (VRI), and generally referred the question to the Disability Resource Center. Notably, all videos added on to Skyline's website since 2016/2017 academic year have been captioned. And while Skyline doesn't typically play videos in public locations such as waiting rooms, if utilized, these videos would be

captioned. With respect to use of sign language in tandem with a Public Information Officers, to date the College is unaware of this situation arising.

Faculty

Recommended Actions

- Confer with CPI and CTTL regarding the accessibility of instructional materials - both in print and online.

Survey Response Overview

As noted above, Human Resources processes any faculty-submitted requests for reasonable accommodation, and investigates any alleged failures thereof. The Disability Resources Center provides training to faculty as it relates to student-initiated requests for reasonable accommodations.

With respect to any policy/practice regarding faculty selecting instructional material being made available in alternative format and policies regarding accessible digital materials (e.g. private faculty websites) survey responses generally referred this question to the Vice President of Instruction (VPI) and the Center for Transformational Teaching and Learning (CTTL).

Information Technology & Digital Communication

Recommended Actions

- No recommendations at this time.

Survey Response Overview

Survey responses indicate that all website postings are reviewed for access before they are posted, and that the District ensures all websites meet current accessibility guidelines (i.e. WCAG 2.1). Additionally, web updates are uniformly performed and checked for accessibility.

All digital/electronic files posted after 2016-2017 are reviewed for accessibility before posting, and resources are available to assist campus with making pdfs accessible. Due to the volume of pdfs on the website, Skyline does not retroactively ensure that pdfs are accessible, but it appears that this could be done upon request to the Disability Resource Center. New forms added to the website are checked to ensure they are compatible with assistive technology. Additionally, videos posted to Skyline College websites are captioned.

Skyline does not currently utilize touch screen information systems. Survey responses indicate that computers are provided for student use - this issue is addressed more comprehensively in the section on Library Services, below. Skyline does operate an online distance learning program. If students require accessibility assistance with this program, they may request that from the Disability Resource Center. Survey responses indicate that Skyline is unaware of any complaints regarding web accessibility.

Law Enforcement

Recommended Actions

- Offer training around best practices for interacting with persons with disabilities, as well as disability-related Federal and State requirements.
- Determine what steps might be taken to expand DPS access to DRC services and resources.

Survey Response Overview

Survey responses indicate that it is unclear whether law enforcement officers have received disability awareness training, such as the United States Department of Justice Roll Call videos. Skyline's Department of Public Safety officers are aware of District Accessibility and Skyline College DRC resources. While likely not well versed in specific disability civil rights mandates, officers are instructed to contact a supervisor and/or utilize the DRC when encountering individuals who may be disabled.

If an individual with a service animal is arrested, law enforcement would ask that individual regarding their wishes for custody and their request would be considered. If no other options existed, law enforcement would reach out to the Peninsula Humane Society & SPCA (PHS). For arrests where medical appliances (canes, walkers, hearing aids, oxygen tanks, etc.) were implicated, non-hazardous items would be either temporarily stored at the Department of Public Safety office, or with owner's permission given to a family member. Hazardous items would be turned over to emergency services personnel for proper handling. For arrests involving power wheelchairs, scooters and other large mobility devices, these would be possibly stored at a campus Facility Maintenance Center or with owner's permission turned over to family member.

Any arrestee with medication needs would be turned over to emergency services personnel for proper handling. If called upon to interact with persons who are deaf or hard of hearing, DPS officers would utilize DRC and/or staff resources.

Most DPW officers at Skyline College have completed Crisis Intervention Training (CIT): a 40-hour course where sworn law enforcement members will update their skills, knowledge and abilities including identification of the more common types of mental illness, skills for de-escalation of potentially violent situations, assessment of medication information, specifics on suicide intervention and a mental health system overview. CIT training includes identification of the more common types of mental illness, skills for de-escalation of potentially violent situations, assessment of medication information, specifics on suicide intervention and a mental health system overview. This training greatly enhances the provision of services to mentally ill members of the community as well as citizens who are in crisis, e.g. victims of crime, tragic accidents, etc.

Survey responses indicated that the Department of Public Safety would like to improve its services by ensuring around-the-clock access to campus DRC services on an on-call, as-needed, emergency basis.

Library Services

Recommended Actions

- Review Library's self-identified areas for possible improvement, below.

Survey Response Overviews

Library Services Program Survey

Survey responses indicate that the library's primary role is to provide resources, programs, and services that support student completion and enhance the overall learning experience of Skyline College's community. Library Staff has received disability awareness and disability-related mandates via Flex Days, Equity training, as well via Emergency Preparedness training.

The Library lists its main objectives as follows:

- ☐ Teach information literacy to students in various academic disciplines and vocational programs, tailored to specific subjects and course level assignments and projects.
- ☐ Provide synchronous, asynchronous, online, and in-person research assistance. Librarians provide "eReference" services via email and via "Live chat".
- ☐ Contribute to textbook affordability solutions by working closely with the ZTC Program Coordinator and faculty members in their efforts to convert courses to Zero-Textbook-Cost
- ☐ Support the College's role as a leading academic and cultural center for the community through innovative outreach programs (Human Library, Poetry Corners, Banned Books Week, etc.) as well as partnerships with the Peninsula Library System (PLS) and other organizations (i.e. Food For Fines and Voter Registration drives).
- ☐ Serve as an access point and support center for educational technology and digital literacy. In addition to using Library computers for database and Internet searching, students rely on the Library to access and complete online homework assignments and tutorials, create and print essays, projects, and PowerPoint presentations, view online videos and podcasts, listen to online lectures, register for courses, email instructors, and much more.
- ☐ Maintain a collection of print and electronic resources as well as instructional equipment that support the curriculum and extracurricular needs of our programs.

- ❑ Serve as a student study center and gathering place for students. The Library provides quiet spaces as well as group study rooms that can be reserved via our website.

Survey responses indicate that the majority of the desktop computers are on wheelchair accessible desks. In classrooms, two desks can be easily adjusted as well. The Library has terminals with Text-to Speech (Kurzweil) and screen reader (Jaws) software. The Library also has an Aladdin Genie magnifier for students or users with visual impairments. Additionally, the Library's video databases include films with closed captioning and transcripts. The Library is not actively acquiring video tapes or DVDs. Most of its video collections are online. Films on Demand and Alexander Street Press collections offer closed captioning on all of their videos. Videos in these collections also include transcripts.

Stacks and library furniture are arranged in a manner that allows access for persons who use wheelchairs. Specifically, between shelving units there is required space for wheelchair accessibility (4 ft). Additionally, ample space is found around common sitting areas, quiet study areas, and classrooms. Survey responses indicate that persons of short stature, with mobility limitations, and/or with visual impairments can retrieve books from high shelves. Specifically, Library users have the option to use library provided, safe & secure, library stools. Staff is present to assist any library users that require additional assistance. The tallest shelf unit in the library is 5 ft 3in. Printed informational materials are placed in multiple locations at different levels to ensure reachability.

Persons with disabilities may obtain library materials in alternative formats by requesting help from Library staff. Electronic resources can be accessed with terminals

that have assistive technology installed (Jaws, Kurzweil). While the Library does not currently have Large print materials or Braille collection, staff can assist in locating materials from the Peninsula Library System. Skyline College is part of this consortium and shares resources with 33 libraries in the county.

Survey responses indicate that persons with visual impairments may conduct library research projects in a variety of ways. Specifically, library users can request help from staff or independently use assistive technology. Library databases include Text-to-Speech software as well magnifiers apps. Skyline College strives to work with vendors that are committed to providing access to all users and they reflect so in their accessibility statements.

As part of Skyline College and the San Mateo Community College District, Library emergency preparedness training includes addressing issues relative to persons with disabilities. For example, two evacuation chairs are in the library. Emergency Alerts are communicated via loud public announcements.

The Library indicates that, to its knowledge, it has not received any complaints regarding access to its programs, services or activities.

Survey responses indicate that the Library would like to improve its accessibility in the following ways:

- ☐ Signage could be improved in the form of Braille or low placed electronic signage.
 - ☐ For example, stacks could have lower call number signs or monitors so it would be easier for library users to locate books.
 - ☐ Training on assistive technology could be done at least twice a year.
 - ☐ Newer magnifying or scanning technology could be acquired (i.e. Pen Scanners / Readers).
-

Meetings & Events

Recommended Actions

- Develop and implement meetings and events best practices checklist - including accessibility in built environments and content access - and ensure that it is utilized by all persons responsible for meeting and event management.
- Develop and implement guidance for exhibits accessibility, e.g. guidance available through the Smithsonian Institute.

Survey Response Overview

Events Generally

Survey responses indicate it is unclear whether: there is a notice on all public meeting announcements that auxiliary aids and services are made available as needed for meeting participants with disabilities; persons administering meetings or events are trained in best practices for events accessibility; or service animal relief areas are identified. If requests for special seating are made ahead of time, those are accommodated. If inquiries regarding the accessibility of an event space are made, meeting organizers can evaluate the space ahead of time to identify accessible parking areas, arrival points, restrooms and paths of travel. Survey responses generally indicated an awareness around ensuring temporary built environment accessibility, e.g. companion seating, integrated seating, knee clearances, and seating options. There was some concern that certain outdoor paths of travel may not be slip-resistant.

With respect to stages, speaking platforms, microphones and other items to be used by persons with disabilities, survey responses indicated ambiguity on whether: ramps can be used with platforms; adjustable podiums; touch screen control systems or

the availability of gooseneck microphones. Survey responses indicated that Skyline does have table mics that can be affixed to table tops.

With regard to best practices for presenting content to persons with disabilities, survey responses indicated some inconsistency. Videos shown at events typically are not captioned, but events live-streamed (e.g. Commencement) are captioned. It is not known if FM Loop systems are utilized, but best practices regarding sign language interpreters is generally implemented. Skyline provides transportation to field trips and events, and is currently developing a checklist to ensure accessibility for such events.

Exhibits

With regard to exhibits, Skyline is not aware of any complaints regarding accessibility to these, and does not currently use accessible guidance documentation, e.g. guidance available through the Smithsonian Institute. Survey responses indicate that the gallery does not typically produce brochures for its exhibits. The College currently does not have a process for determining wayfinding during exhibits, but does consider appropriate access space in exhibit layouts. Survey responses indicate that Skyline exhibits do not utilize audio descriptors or consider tactile interactivity and audio components depending on the artist. Skyline's gallery does not currently provide auditory captioning. While it currently does not have any electronic information distribution, it occasionally features art with an electronic component that may or may not be accessible.

Survey responses indicate that the gallery does not currently implement equivalent facilitation communication techniques for exhibits that cannot otherwise be

made accessible. Additionally, staff do not appear to have received training regarding communicating with guests who may have disabilities.

Physical Education

Recommended Actions

- No additional recommendations at this time.

Survey Response Overview

Skyline's Physical Education department offers sections of Adapted Physical Education courses, and offers waiver of physical education graduation requirements for individuals with disabilities who request it. The department coordinates other requests for reasonable accommodation with the Disability Resource Center.

The PE department's space is very compact and, as a result, all persons are served in an adaptive, integrated setting. The department works to ensure that all equipment is accessible, despite space limitations. The department also works to ensure that students can be accommodated in its classes. In the few instances of students who were blind, the department provided the student an aid to work with and assist the student. Survey responses indicate that the Physical Education department has not received complaints regarding a lack of accessibility or failure to accommodate, but they are open to additional suggestions or recommendations on how to improve.

Purchasing & Service Contracts

Recommended Actions

- Ensure that contract language is in place holding contractors and vendors to applicable State and Federal disability civil rights mandates
- Develop accessibility plan checks when vendors are conducting tenant improvements in public services areas.
- Develop and implement protocols to ensure that accessibility is considered during the purchase of new equipment (other than instances where accessibility has been specifically requested or is required by law).
- Confirm that, if a person with a disability believes they have been discriminated against by a campus vendor or contractor, this would be handled at the District level.

Survey Response Overview

Survey responses indicate a lack of certainty as to whether: contract language in place holding contractors and vendors to applicable State and Federal disability civil rights mandates; accessibility plan checks are done when vendors are conducting tenant improvements in public services areas; and accessibility is considered during the purchase of new equipment (other than instances where accessibility has been specifically requested or is required by law). If a person with a disability believes they have been discriminated against by a campus vendor or contractor, survey responses indicate this would be handled at the District level.

Student & Community Services

Recommended Actions

- Evaluate off-site programs to ensure maximum accessibility for students with disabilities.

Survey Response Overview

Student requests for reasonable accommodations are generally coordinated by the Disability Resource Center. Any grievances regarding accessibility and/or failure to reasonably accommodate are also handled by the DRC. Auxiliary aids and services are coordinated through the Disability Resource Center unless the student prefers to work directly with the ADA Coordinator, and community resources have been identified for use in accommodation of students or the public. An interactive process is used when determining reasonable accommodations and that process is documented in student file contact notes, as well as acknowledged via student signature on the Academic Accommodation Plan. The DRC has a Therapy Dog (comfort animal) Agreement for students seeking a comfort animal as an accommodation.

Skyline offers offsite programs, specifically, the Bay Area Entrepreneur Center (BAEC). It is unclear whether accessibility is ensured in the context of this program, but survey responses generally indicate that there are no specific policies or practices that would exclude students with disabilities from participating in any Skyline student programs.

There is currently a plan in place to involve student advisory groups in the ADA project in terms of project input and vetting of results.

Disability Resource Center

The Disability Resource Center offers assistance in completing forms if, because of a disability such as physical, sensory, or cognitive, someone is unable to complete the forms independently. Forms and publications are available in alternative formats, and auxiliary aids and services are available as needed for students with disabilities.

The DRC's physical space is set up in a manner that provides clear space for wheelchair access and space for service animals. DRC does not host public meetings or events.

The DRC adheres to the San Mateo County Community College District Policy and Procedures for Providing Academic Adjustments for Students with Disabilities. During DRC's annual campus wide emergency training, floor and captain leads are trained to aid persons with disabilities in the case of an emergency. DRC reports that it is unaware of complaints regarding accessibility or a failure to reasonably accommodate.

Medical Services

Recommended Actions

- Develop and offer training to all staff, including nurses, regarding best practices for interacting with patients with disabilities.
- Implement policies designed to ensure that patients with disabilities do not experience any delays in treatment due to their disability.
- Conduct accessibility reviews of all medical facilities (including furniture and equipment) to ensure compliance with accessibility regulations and, ideally, best practices.

Survey Response Overview

Survey responses indicate that medical facilities have a space where wheelchair users can be examined on a table rather than in their chair, but would need to help themselves onto the table. No transfer assistance is available beyond the nurse. Other than in nurse training programs, nurses do not receive training on best practices for

communicating with patients with disabilities. Staff have, generally, not received training on best practices for interacting with patients with disabilities.

There is currently no policy in place which ensures that the patient will be treated despite the fact it may take longer to treat them than it would other patients, but there have been no times when patients were required to wait longer than other patients for treatment because the accessible equipment needed was in use.

Survey responses indicated that all medical facilities have not been reviewed for physical access by a CAsp certified surveyor, and that medical equipment is not accessible to persons with disabilities.

Waiting room furnishings are arranged in such a way that there is space for wheelchair users or persons using service animals to sit, but high and wide based seating is not available in waiting rooms to accommodate patients that have difficulty getting out of low chairs, or who are large and may not fit into standard chairs.

Emergencies & Evacuation Procedures

Recommended Actions

- Consider direct outreach to persons with disabilities for inclusion in development and drilling of emergency management plans.
- Consult with an accessibility professional to ensure that all communications and alarm systems are in compliance with current accessibility regulations (this may be part of the Transition Plan).

Survey Response Overview

Skyline's Emergency Operations Plan (EOP) follows standard guidelines regarding providing assistance to disabled persons as identified by the U.S. Equal

Employment Opportunity Commission, and this EOP has been coordinated with local and regional emergency services agencies. Additionally, the College has an Emergency Announcement System (EAS) where messages for emergencies are broadcast over a loudspeaker.

Building Captains are in place to assist during an event and have been trained regarding the needs of persons with disabilities in emergency situations. Assisting persons with disabilities is part of the responsibilities of the building captain position. In the event that HVAC needs to be shut down for emergency reasons during a shelter in place, this would be handled by the Facilities Department.

Emergency drills, debriefing, and training is available to Skyline's entire internal campus community though does not appear intentionally targeted to include persons with disabilities.

In the event of an active shooter, Skyline could communicate with people who have disabilities via emergency messaging, such as text, telephone call, audible (EAS) broadcasts, and electronic monitor (visual) messaging. In response to a bomb threat, if evacuation is required, the assembly site is checked for explosives before it is populated by the Department of Public Safety.

During shelter-in-place events, medical and medication needs are addressed on a case by case basis. Long term needs would require the assistance of the Red Cross and/or emergency services personnel. Information is available to staff regarding how to deal with various types of events on the District website as well as in printed form throughout campus.

Fire alarms and strobe lighting alarm systems are installed, and exit signs clearly marked as required by law. PA systems are monitored by maintenance staff to ensure the volume is high enough to be heard throughout the intended areas of impact, and are tested regularly. Back-up emergency evacuation chairs in place, unlocked, and maintained, and staff are trained in the use of these chairs.

If areas of safe refuge will be in use, there is a communication system from that site to the event control center. Specifically, communication would be by two-way radio, and/or mobile phone. Text messaging could be utilized by a person who is Deaf or Hard of Hearing.

In order to keep people hydrated if it is necessary to hold them outside the building for a prolonged period during hot weather, District Auxiliary Services and Enterprise Operations stock would be utilized in an emergency.

Construction

Recommended Actions

- Confirm that the District monitors access during planning and construction of any major project.

Survey Response Overview

Construction and Remodels

According to survey responses, design contracts hold design professionals to designs that use, at minimum, the most stringent access standards in effect at the time of the project. Additionally, design contracts encourage design professionals to exceed the maximum access standards when possible to ensure that construction tolerances

are built into the project. Further, Facilities and Construction Project departments utilize CASps at key points of construction and at completion, and major public projects are reviewed by stakeholders with disabilities during the planning stage. Survey responses indicate that the District handles access monitoring during planning and construction.

Vetting of Self-Evaluation Results

Skyline College is committed to the vetting of these results with stakeholders as required by law and developing an implementation plan designed to implement necessary changes and track good-faith compliance efforts.

Vetting Activity

Use of This Self-Evaluation as a Living Document

The ADA requires that a Self-Evaluation be conducted once. Many entities, including Skyline College, recognize the value of using this document on an ongoing basis. As such, it's available to incorporate new policies as needed in response to emerging issues in case law, new regulations or the development of, and/or modification of College programs. Thus, an addendum to this report can be added as needed to document the College's good-faith effort to make the changes necessary to ensure appropriate access for students, employees and visitors to Skyline College.

Staff Who Contributed to this ADA Self-Evaluation

Michelle Batista & Melissa Matthews RN, Director of Student Support & DRC

Cheri Colin, Director of Community Relations and Marketing

Dr. Angelica Garcia, VPSS

Judy Hutchinson, College Business Officer

Rolin Moe, Dean of ASLT

Emily Risk RN, Director of Student Support

Gabriela Nocito, Director of Learning Commons

Danni Redding Lapuz, Social Science/Creative Arts Dean

Jim Vangele, Public Safety

Work Plan for the Self-Evaluation Implementation

The following is the Skyline College ADA Self-Evaluation work plan. It is contained in a spreadsheet designed to be modified as progress is made. It may also be modified when work is necessary that is not identified within the body of this Report. Such instances may occur pursuant to new regulations or case law developments.

The first column will contain a series of recommendations that come from interaction with Skyline College officials. These are entitled "General Recommendations". The second column is "Action Taken by the College". This column is designed to record whether the College has accepted the recommendation, modified or rejected it. If the recommendation is rejected or modified it would be advisable to record the rationale for this action in the "notes" section, which is the seventh column to the right. Columns titled "Staff Assigned", Due Dates, "Reviewed by" and "Date" are designed to record progress in the implementation of the ADA self-evaluation.

Many of the recommendations are clustered by subject and can be addressed with one staff assignment. Occasionally, there will be one recommended action that addresses a number of issues noted within the report. For example, disability awareness training benefits the College's operation in a number of areas which are noted by findings. The provision of the training, therefore, addresses a wide variety of issues.

It is very important that the date on the work plan be updated each time an entry is made.

SMCCD Skyline College - Self-Evaluation Work Plan										
NO.	CITE	DEPARTMENT(S)	RECOMMENDATION(S)	SSA NOTE(S)	DATE ASSIGNED	ASSIGNEE(S)	MILESTONE(S)	DUE DATE	TRAINING (Y/N)	SMCCD SKYLINE COLLEGE NOTE(S)
1		ADA Coordinator	Ensure that Skyline has a policy regarding: the use of motorized mobility devices on campus; non-discrimination against persons who formerly used illegal drugs; and placement of furniture to ensure built environment accessibility.							
2		ADA Coordinator	Ensure that Skyline has a policy in place requiring documentation of Program Access solutions.							
3		ADA Coordinator	Develop and implement reasonable accommodations processes for members of the public and volunteers who are involved in and/or avail themselves of Skyline's programs, services or activities.							
4		ADA Coordinator	Ensure that existing reasonable accommodations procedures for students, faculty, staff and employees contain policies regarding determination of undue burden, and anti-surcharge.							
5		ADA Coordinator	Confirm that the District is responsible for grievances brought against third party service providers.							
6		Communications	Add a notice to Campus publications informing readers that publications are available in alternative formats.							
7		Communications	Examine whether Skyline's 911 system is accessible to TTYs and modems, or whether Skyline's 911 system is handled by County of San Mateo Public Safety Communications.							
8		Communications	Confer with DRC to determine whether Skyline has a policy in place to secure video remote interpreting services (VRI).							
9		Faculty	Confer with CPI and CTTL regarding the accessibility of instructional materials - both in print and online.							
10		Law Enforcement	Offer training around best practices for interacting with persons with disabilities, as well as disability-related Federal and State requirements.							
11		Law Enforcement	Determine what steps might be taken to expand DPS access to DRC services and resources.							
12		Library Services	Review Library's self-identified areas for possible improvement							
13		Meetings & Events	Develop and implement meetings and events best practices checklist - including accessibility in built environments and content access - and ensure that it is utilized by all persons responsible for meeting and event management							
14		Meetings & Events	Develop and implement guidance for exhibits accessibility, e.g. guidance available through the Smithsonian Institute							
15		Purchasing & Service Contracts	Ensure that contract language is in place holding contractors and vendors to applicable State and Federal disability civil rights mandates							
16		Purchasing & Service Contracts	Develop accessibility plan checks when vendors are conducting tenant improvements in public services areas.							

17		Purchasing & Service Contracts	Develop and implement protocols to ensure that accessibility is considered during the purchase of new equipment (other than instances where accessibility has been specifically requested or is required by law).							
18		Purchasing & Service Contracts	Confirm that, if a person with a disability believes they have been discriminated against by a campus vendor or contractor, this would be handled at the District level.							
19		Student & Community Services	Evaluate off-site programs to ensure maximum accessibility for students with disabilities.							
20		Medical Services	Develop and offer training to all staff, including nurses, regarding best practices for interacting with patients with disabilities.							
21		Medical Services	Implement policies designed to ensure that patients with disabilities do not experience any delays in treatment due to their disability.							
22		Medical Services	Conduct accessibility reviews of all medical facilities (including furniture and equipment) to ensure compliance with accessibility regulations and, ideally, best practices.							
23		Emergencies & Evacuation Procedures	Consider direct outreach to persons with disabilities for inclusion in development and drilling of emergency management plans.							
24		Emergencies & Evacuation Procedures	Consult with an accessibility professional to ensure that all communications and alarm systems are in compliance with current accessibility regulations (this may be part of the Transition Plan).							
25		Construction	Confirm that the District monitors access during planning and construction of any major project.							

Appendices

Appendix A

28 CFR 35.105 Self-Evaluation.

- (a) A public entity shall, within one year of the effective date of this part, evaluate its current services, policies, and practices, and the effects thereof, that do not or may not meet the requirements of this part and, to the extent modification of any such services, policies, and practices is required, the public entity shall proceed to make the necessary modifications.
- (b) A public entity shall provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the Self-Evaluation process by submitting comments.
- (c) A public entity that employs 50 or more persons shall, for at least three years following completion of the Self-Evaluation, maintain on file and make available for public inspection:
 - (1) A list of the interested persons consulted;
 - (2) A description of areas examined and any problems identified;
and
 - (3) A description of any modifications made.
- (d) If a public entity has already complied with the Self-Evaluation requirement of a regulation implementing section 504 of the Rehabilitation Act of 1973, then the requirements of this section shall apply only to those policies and practices that were not included in the previous Self-Evaluation

Appendix B

California Government code section 11135

11135. (a) No person in the State of California shall, on the basis of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, genetic information, or disability, be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is conducted, operated, or administered by the state or by any state agency, is funded directly by the state, or receives any financial assistance from the state. Notwithstanding Section 11000, this section applies to the California State University.

(b) With respect to discrimination on the basis of disability, programs and activities subject to subdivision (a) shall meet the protections and prohibitions contained in Section 202 of the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof, except that if the laws of this state prescribe stronger protections and prohibitions, the programs and activities subject to subdivision (a) shall be subject to the stronger protections and prohibitions.

(c) (1) As used in this section, "disability" means any mental or physical disability, as defined in Section 12926.

Appendix C

California Government Code Section 12926

Cal Gov Code § 12926 (2010)

§ 12926. Definitions regarding unlawful practices

As used in this part in connection with unlawful practices, unless a different meaning clearly appears from the context:

(a) "Affirmative relief" or "prospective relief" includes the authority to order reinstatement of an employee, awards of backpay, reimbursement of out-of-pocket expenses, hiring, transfers, reassignments, grants of tenure, promotions, cease and desist orders, posting of notices, training of personnel, testing, expunging of records, reporting of records, and any other similar relief that is intended to correct unlawful practices under this part.

(b) "Age" refers to the chronological age of any individual who has reached his or her 40th birthday.

(c) "Employee" does not include any individual employed by his or her parents, spouse, or child, or any individual employed under a special license in a nonprofit sheltered workshop or rehabilitation facility.

(d) "Employer" includes any person regularly employing five or more persons, or any person acting as an agent of an employer, directly or indirectly, the state or any political or civil subdivision of the state, and cities, except as follows:

"Employer" does not include a religious association or corporation not organized for private profit.

(e) "Employment agency" includes any person undertaking for compensation to procure employees or opportunities to work.

(f) "Essential functions" means the fundamental job duties of the employment position the individual with a disability holds or desires. "Essential functions" does not include the marginal functions of the position.

(1) A job function may be considered essential for any of several reasons, including, but not limited to, any one or more of the following:

(A) The function may be essential because the reason the position exists is to perform that function.

(B) The function may be essential because of the limited number of employees available among whom the performance of that job function can be distributed.

(C) The function may be highly specialized, so that the incumbent in the position is hired for his or her expertise or ability to perform the particular function.

(2) Evidence of whether a particular function is essential includes, but is not limited to, the following:

(A) The employer's judgment as to which functions are essential.

(B) Written job descriptions prepared before advertising or interviewing applicants for the job.

(C) The amount of time spent on the job performing the function.

(D) The consequences of not requiring the incumbent to perform the function.

(E) The terms of a collective bargaining agreement.

(F) The work experiences of past incumbents in the job.

(G) The current work experience of incumbents in similar jobs.

(g) "Labor organization" includes any organization that exists and is constituted for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms or conditions of employment, or of other mutual aid or protection.

(h) "Medical condition" means either of the following:

(1) Any health impairment related to or associated with a diagnosis of cancer or a record or history of cancer.

(2) Genetic characteristics. For purposes of this section, "genetic characteristics" means either of the following:

(A) Any scientifically or medically identifiable gene or chromosome, or combination or alteration thereof, that is known to be a cause of a disease or disorder in a person or his or her offspring, or that is determined to be associated with a statistically increased risk of development of a disease or disorder, and that is presently not associated with any symptoms of any disease or disorder.

(B) Inherited characteristics that may derive from the individual or family member, that are known to be a cause of a disease or disorder in a person or his or her offspring, or that are determined to be associated with a statistically increased risk of development of a disease or disorder, and that are presently not associated with any symptoms of any disease or disorder.

(i) "Mental disability" includes, but is not limited to, all of the following:

(1) Having any mental or psychological disorder or condition, such as mental retardation, organic brain syndrome, emotional or mental illness, or specific learning disabilities, that limits a major life activity. For purposes of this section:

(A) "Limits" shall be determined without regard to mitigating measures, such as medications, assistive devices, or reasonable accommodations, unless the mitigating measure itself limits a major life activity.

(B) A mental or psychological disorder or condition limits a major life activity if it makes the achievement of the major life activity difficult.

(C) "Major life activities" shall be broadly construed and shall include physical, mental, and social activities and working.

(2) Any other mental or psychological disorder or condition not described in paragraph (1) that requires special education or related services.

(3) Having a record or history of a mental or psychological disorder or condition described in paragraph (1) or (2), which is known to the employer or other entity covered by this part.

(4) Being regarded or treated by the employer or other entity covered by this part as having, or having had, any mental condition that makes achievement of a major life activity difficult.

(5) Being regarded or treated by the employer or other entity covered by this part as having, or having had, a mental or psychological disorder or condition that has no present disabling effect, but that may become a mental disability as described in paragraph (1) or (2).

"Mental disability" does not include sexual behavior disorders, compulsive gambling, kleptomania, pyromania, or psychoactive substance use disorders resulting from the current unlawful use of controlled substances or other drugs.

(j) "On the bases enumerated in this part" means or refers to discrimination on the basis of one or more of the following: race, religious creed, color, national origin,

ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation.

(k) "Physical disability" includes, but is not limited to, all of the following:

(1) Having any physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss that does both of the following:

(A) Affects one or more of the following body systems: neurological, immunological, musculoskeletal, special sense organs, respiratory, including speech organs, cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine.

(B) Limits a major life activity. For purposes of this section:

(i) "Limits" shall be determined without regard to mitigating measures such as medications, assistive devices, prosthetics, or reasonable accommodations, unless the mitigating measure itself limits a major life activity.

(ii) A physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss limits a major life activity if it makes the achievement of the major life activity difficult.

(iii) "Major life activities" shall be broadly construed and includes physical, mental, and social activities and working.

(2) Any other health impairment not described in paragraph (1) that requires special education or related services.

(3) Having a record or history of a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment described in paragraph (1) or (2), which is known to the employer or other entity covered by this part.

(4) Being regarded or treated by the employer or other entity covered by this part as having, or having had, any physical condition that makes achievement of a major life activity difficult.

(5) Being regarded or treated by the employer or other entity covered by this part as having, or having had, a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment that has no present disabling effect but may become a physical disability as described in paragraph (1) or (2).

(6) "Physical disability" does not include sexual behavior disorders, compulsive gambling, kleptomania, pyromania, or psychoactive substance use

disorders resulting from the current unlawful use of controlled substances or other drugs.

(l) Notwithstanding subdivisions (i) and (k), if the definition of "disability" used in the Americans with Disabilities Act of 1990 (Public Law 101-336) would result in broader protection of the civil rights of individuals with a mental disability or physical disability, as defined in subdivision (i) or (k), or would include any medical condition not included within those definitions, then that broader protection or coverage shall be deemed incorporated by reference into, and shall prevail over conflicting provisions of, the definitions in subdivisions (i) and (k).

(m) "Race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation" includes a perception that the person has any of those characteristics or that the person is associated with a person who has, or is perceived to have, any of those characteristics.

(n) "Reasonable accommodation" may include either of the following:

(1) Making existing facilities used by employees readily accessible to, and usable by, individuals with disabilities.

(2) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, adjustment or modifications of examinations, training materials or policies, the provision of qualified readers or interpreters, and other similar accommodations for individuals with disabilities.

(o) "Religious creed," "religion," "religious observance," "religious belief," and "creed" include all aspects of religious belief, observance, and practice.

(p) "Sex" includes, but is not limited to, pregnancy, childbirth, or medical conditions related to pregnancy or childbirth. "Sex" also includes, but is not limited to, a person's gender, as defined in *Section 422.56 of the Penal Code*.

(q) "Sexual orientation" means heterosexuality, homosexuality, and bisexuality.

(r) "Supervisor" means any individual having the authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, or to adjust their grievances, or effectively to recommend that action, if, in connection with the foregoing, the exercise of that authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

(s) "Undue hardship" means an action requiring significant difficulty or expense, when considered in light of the following factors:

(1) The nature and cost of the accommodation needed.

(2) The overall financial resources of the facilities involved in the provision of the reasonable accommodations, the number of persons employed at the facility, and the effect on expenses and resources or the impact otherwise of these accommodations upon the operation of the facility.

(3) The overall financial resources of the covered entity, the overall size of the business of a covered entity with respect to the number of employees, and the number, type, and location of its facilities.

(4) The type of operations, including the composition, structure, and functions of the workforce of the entity.

(5) The geographic separateness, administrative, or fiscal relationship of the facility or facilities.

HISTORY:

Added Stats 1980 ch 992 § 4. Amended Stats 1985 ch 1151 § 1; Stats 1990 ch 15 § 1 (SB 1027); Stats 1992 ch 911 § 3 (AB 311), ch 912 § 3 (AB 1286), ch 913 § 21.3 (AB 1077); Stats 1993 ch 1214 § 5 (AB 551); Stats 1998 ch 99 § 1 (SB 654); Stats 1999 ch 311 § 2 (SB 1185), ch 591 § 5.1 (AB 1670), ch 592 § 3.7 (AB 1001); Stats 2000 ch 1049 § 5 (AB 2222); Stats 2003 ch 164 § 1 (AB 196); Stats 2004 ch 700 § 4 (SB 1234).

Amendments:

1985 Amendment:

Added **(1)** "or her" after "employed by his" in subd (b); and **(2)** subd (i).

1990 Amendment:

Added subd (j).

1992 Amendment:

(1) Added subd (a); **(2)** redesignated former subds (a)-(d) to be subds (b)-(e); **(3)** amended the introductory clause of subd (d) by **(a)** deleting ", except as hereinafter provided," before "includes"; and **(b)** substituting ", except as follows:" for a period; **(4)** added subdivision designation (d)(1); **(5)** added subd (d)(2); **(6)** added subd (f); **(7)** redesignated former subdivisions (e) and (f) to be subds (g) and (h); **(8)** substituted "includes, but is not limited to," for "means" in subd (h); **(9)** added subd (i); **(10)**

redesignated former subd (g) to be subd (j); **(11)** substituted "disability, mental disability" for "handicap" in subd (j); **(12)** substituted subd (k) for former subd (h) which read: "(h) 'Physical handicap' includes impairment of sight, hearing, or speech, or impairment of physical ability because of amputation or loss of function or coordination, or any other health impairment which requires special education or related services."; **(13)** added subds (l) and (m); **(14)** redesignated former subds (i) and (j) to be subds (n) and (o); and **(15)** added subd (p) and the last paragraph. (As amended 1992 ch 913, compared to the section as it read prior to 1992. This section was also amended by two earlier chapters, ch 911, ch 912. See Gov C § 9605.)

1993 Amendment:

(1) Substituted "functions" for "duties" after "Essential" both times it appears in subd (f); **(2)** deleted ", but is not limited to," after "includes" in subd (h); **(3)** deleted former subd (l) which read: "(l) 'Reasonable accommodation' may include either of the following:

"(1) Making existing facilities used by employees readily accessible to, and usable by, individuals with disabilities.

"(2) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, adjustment or modifications of examinations, training materials or policies, the provision of qualified readers or interpreters, and other similar accommodations for individuals with disabilities. It is the intent of the Legislature that the definition of 'physical disability' in this subdivision shall have the same meaning as the term 'physical handicap' formerly defined by this subdivision and construed in *American National Ins. Co. v. Fair Employment & Housing Com.*, 32 Cal. 3d 603. However, 'physical disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C., § 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a physical disability."; **(4)** designated the former last paragraph in the section to be subd (l); and **(5)** substituted "of" for "or" after "size of the business" in subd (p)(3).

1998 Amendment:

(1) Amended subd (d) by **(a)** substituting the comma after "indirectly" for the semicolon; and **(b)** adding the comma after "thereof"; **(2)** substituted "that" for "which" after "organization" in subd (g); **(3)** amended subd (h) by adding **(a)** "(1) genetic characteristics, or (2)" after "include" in the first sentence; and **(b)** the second sentence; and **(4)** added "and" before "(5) the geographic" in subd (p).

1999 Amendment:

(1) Amended subd (d) by (a) substituting "of the state" for "thereof" in the introductory clause; (b) deleting subdivision designation (d)(1) at the beginning of the second paragraph; and (c) deleting former subd (d)(2) which read: "(2) 'Employer,' for purposes of provisions defining unlawful employment practices related to mental disability, means any person regularly employing 15 or more persons, or any person directly or indirectly acting as an agent of such an employer, and also includes the state and municipalities and political subdivisions of the state."; (2) substituted subd (h) for former subd (h) which read: "(h) 'Medical condition' includes (1) genetic characteristics, or (2) any health impairment related to or associated with a diagnosis of cancer, for which a person has been rehabilitated or cured, based on competent medical evidence. For purposes of this section, 'genetic characteristics' means any scientifically or medically identifiable gene or chromosome, or combination or alteration thereof, that is known to be a cause of a disease or disorder in a person or his or her offspring, or is determined to be associated with a statistically increased risk of development of a disease or disorder, or inherited characteristics that may derive from the individual or family member, that is presently not associated with any symptoms of any disease or order."; (3) substituted "or age" at the end of subd (j); (4) added subd (m); (5) redesignated former subds (m)-(o) to be subds (n)-(p); (6) added subds (q) and (r); and (7) redesignated former subd (p) to be subd (s). (As amended Stats 1999 ch 592, compared to the section as it read prior to 1999. This section was also amended by two earlier chapters, ch 311 and ch 591. See *Gov C § 9605*.)

2000 Amendment:

(1) Amended subd (h) by (a) adding "means" in the introductory clause; and (b) substituting "cancer or a record or history of cancer" for ", for which a person has been rehabilitated or cured, based on competent medical evidence" in subd (h)(1); (2) substituted subd (i) for former subd (i) which read: "(i) 'Mental disability' includes any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. However, 'mental disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a mental disability."; and (3) substituted subd (k) for former subd (k) which read: "(k) 'Physical disability' includes, but is not limited to, all of the following:

"(1) Having any physiological disease, disorder, condition, cosmetic disfigurement, or anatomical loss that does both of the following:

"(A) Affects one or more of the following body systems: neurological, immunological, musculoskeletal, special sense organs, respiratory, including speech organs, cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine.

"(B) Limits an individual's ability to participate in major life activities.

"(2) Any other healthy impairment not described in paragraph (1) that requires special education or related services.

"(3) Being regarded as having or having had a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment described in paragraph (1) and (2).

"(4) Being regarded as having, or having had, a disease, disorder, condition, cosmetic disfigurement, anatomical loss, or health impairment that has no present disabling effect but may become a physical disability as described in paragraph (1) or (2).

"It is the intent of the Legislature that the definition of 'physical disability' in this subdivision shall have the same meaning as the term 'physical handicap' formerly defined by this subdivision and construed in *American National Ins. Co. v. Fair Employment & Housing Com. (1982) 32 Cal. 3d 603*. However, 'physical disability' does not include conditions excluded from the federal definition of 'disability' pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C., Sec 12211). Additionally, for purposes of this part, the unlawful use of controlled substances or other drugs shall not be deemed, in and of itself, to constitute a physical disability."

2003 Amendment:

(1) Added the second sentence of subd (p); and (2) amended subd (s) by substituting (a) "The" for "the" at the beginning of subds (s)(1)-(s)(5); and (b) the period for the comma at the end of subds (s)(1)-(s)(3) and the period for ", and" at the end of subd (s)(4).

2004 Amendment:

Substituted "*Section 422.56 of the Penal Code*" for "*Section 422.76 of the Penal Code*, except that, for purposes of this part, the reference in that definition to the "victim" shall mean the employee or applicant and the reference in that definition to the "defendant" shall mean the employer or other covered entity or person subject to applicable prohibitions under this part" in subd (p).

Appendix D

Skyline College

Notice of Compliance Under ADA & California State Law

In accordance with the requirements of Title II of the Americans with Disabilities Act (ADA) of 1990, the Americans with Disabilities Amendments Act of 2008, the Fair Employment & Housing Act (FEHA), California Government Code Section 11135 and other applicable codes, Skyline College does not discriminate against individuals on the basis of disability in its services, programs or activities.

Employment: Skyline College does not discriminate on the basis of disability in its hiring or employment practices and will comply with the Fair Employment and Housing Act, as well as Title I of the ADA, including the regulations promulgated by the U.S. Equal Employment Opportunity Commission (EEOC), including the requirement to provide reasonable accommodations.

Effective Communication: Skyline College will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities, including sign language interpreters, documents in Braille and other alternate formats to ensure information and communication is accessible to people who have speech, hearing, vision, or cognitive impairments so they can participate equally in the programs, services and activities.

Modification to Policies and Procedures: Skyline College will make reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to participate in all of its programs, services and activities. *For example, individuals with service animals behaving within applicable standards are welcome in offices and College facilities, even when pets are generally prohibited.*

Anyone who requires auxiliary aids and services for effective communication, or a modification of policies or procedures to participate in a program, service or activity in Skyline College should submit their request for reasonable accommodations to Eloisa Briones, Vice President of Administrative Services (brionese@smccd.edu) (unless otherwise specified) as soon as possible, but no later than **72 hours** before the scheduled event.

Neither the ADA, nor state law requires Skyline College to take action that would fundamentally alter the nature of its programs, activities or services or impose an undue financial or administrative burden. Complaints about web accessibility, alternate media or academic accommodations can be submitted online via our online complaint form (<https://collegeofsanmateo.edu/forms/grievances.asp>)¹.

Skyline College will not place a surcharge on a particular individual with a disability or a group of individuals with disabilities to cover the cost of providing auxiliary aids and services or making a reasonable modification to a policy to create access.

¹ Student grievance form, the District is in the process of creating a standard form.

Appendix E

Skyline College

ADA Notice Dissemination Plan

Title II of the ADA, 28 CFR 35.106² requires that Skyline College produce and disseminate a notice of their ADA compliance.

The notice should be written clearly without undue complication. It should discuss what ADA requirements the entity is held to, the name of the ADA Coordinator, and provide current contact information enabling an individual to contact the ADA Coordinator. The notice should cover areas regarding:

- Employment;
- Effective Communication;
- Making reasonable modification to policies and programs;
- An explanation of the non-surcharge requirement concerning the provision of auxiliary aids and services; and
- Information regarding the grievance process.

In considering how to disseminate this document, the College should identify the impacted parties who would have an interest in the notice. The notice dissemination plan should address the frequency of notice dissemination. Methods of dissemination may include:

- The College's website;
- Local Newspaper(s);
- College Publications;
- Posters on College facilities;
- Inclusion of notice for special activities;
- Within transportation systems provided by the College;
- Within Disabled Students Programs and Services meetings and materials; and
- Other forms in which impacted stakeholders might be present.

Not all of the above notice dissemination methodologies may be necessary to effectively disseminate the notice.

²28 CFR 35.106 Notice: A public entity shall make available to applicants, participants, beneficiaries, and other interested persons information regarding the provisions of this part and its applicability to the services, programs, or activities of the public entity, and make such information available to them in such manner as the head of the entity finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this part.

Appendix F

Grievance Procedure under ADA or California State Disability Civil Rights Laws

This grievance procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"), the Americans with Disabilities Amendments Act (ADAAA) and California State law. It may be used by anyone wishing to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by Skyline College. The College's Disability Discrimination Policy governs employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of the complainant and location, date and a description of the problem(s). The College's Grievance Procedure form is available online at <http://skylinecollege.edu/officevpss/studentgrievanceprocess.php>. Alternative means of filing a complaint, such as personal interviews or a tape recording of the complaint, are available to persons with disabilities upon request.

Appendix G

Contact Information for the Skyline College Disability Resource Center and/or Skyline College ADA or Reasonable Accommodations Coordinator:

For questions related to student accommodations or verifying student disability and any resulting educational limitations you can contact:

DRC, Building 5, Room 5-132, phone (650) 738-4280

Appendix H

SURVEY QUESTIONS

ADA Coordinator

1. Does the College have an ADA Notice of Compliance? If yes, does it address State law? Please attach the Notice.
2. Does the grievance system:
 - a. Offer assistance to persons with disabilities, who due to their disability are not able to complete the grievance form?
 - b. Provide timelines when a complainant can expect a result?
 - c. Have a second level of review?
 - d. Contain a notice regarding availability of the grievance system in alternative format?
 - e. Contain the name and contact information of the ADA Coordinator?
3. Are the ADA Notice of Compliance and the grievance system posted on the College website?
4. Who handles the fact finding and grievance administration?
5. Does the College have a plan for ADA Notice and Grievance dissemination?

6. Does the ADA Coordinator's office have ready access to senior management?
If no, how are disability civil rights issues elevated in order that they may be addressed in a timely manner?
7. Who provides auxiliary aids and services to persons seeking accommodation under ADA Title II?
8. Who provides reasonable accommodations to applicants and employees under ADA Title I, ADAAA and California Government Code 12926 (employment)?
9. Who investigates grievances related to reasonable accommodations and other ADA related issues?
10. Is an interactive process used? If yes, how is it documented?
11. How is undue hardship determined and by whom?
12. Is there an anti-surcharge policy in place to make it clear to staff not to charge for accommodations?
13. Is contract language in place holding contractors and vendors to applicable State and Federal disability civil rights mandates? If yes, how is this enforced?
14. If a person with a disability believes they have been discriminated against by a campus vendor or contractor, what steps are open to them?

15. Is an accessibility plan check done when vendors are conducting tenant improvements in public services areas?
16. Is guidance in place for staff and vendors regarding clear space and furniture placement? If yes, please attach the guidance.
17. Does the College have a service animal policy? If yes, how is staff trained?
18. How is access for comfort animals addressed?
19. Is there a procedure in place to be used by staff should there be an incident involving a service animal? If yes, please attach the procedure.
20. How does the College address service animal relief areas during meetings and events?
21. Are all College publications offered in alternative formats?
22. Is there notice on all public meeting announcements that auxiliary aids and services are made available as needed for meeting participants with disabilities?
23. Is the College 911 system accessible to TTYs and modems?
24. Is College staff and vendors who have public contact trained or provided guidance regarding ADA requirements and disability awareness?

25. How are new employees oriented to etiquette, language and the College legal disability civil rights mandates?
26. When disability civil rights training is provided, do you retain a roster of trainees, information regarding the subject and length of the training, the training plan or PowerPoint and the trainer's resume?
27. Has the College Disability Advisory Committee (UA) been trained regarding the mandates the College is held to under ADA and California Government Code 11135 and 12926?
28. What trainings do you think should be provided to College faculty and staff?
29. Are publications reviewed to ensure they do not portray persons with disabilities in a negative manner?
30. Is there a policy and procedure in place to address policy modification requests and the determination of undue burden? If yes, when was it last updated? Please attach a copy of the policy.
31. Is there a policy and procedure in place to address direct threat determination to others? If yes, when was it last updated? Please attach a copy of the policy.
32. Is there a policy and procedure in place regarding maintenance of accessible features? If yes, please attach.

33. Is there a system in place to identify safety and access issues, which can be used by maintenance staff to report and/or correct problems?
34. Has maintenance staff been trained to identify access and safety issues?
35. If “*Program Access*” solutions are used to create access are they approved by the ADA Coordinator before they are put in place?
36. When “*Program Access*” solutions are put in place are they documented by a written procedure to ensure staff implements them appropriately?
37. Are transportation providers, if applicable, trained regarding, the use of tie downs, disability awareness, and the requirement that stops be called and other transportation mandates?
38. Has a policy been created to address motorized mobility devices, as required by 28 CFR 35.137? Note: This is a policy the College has the legal option of creating if it is seen to be in the College’s best interest.
39. When the purchase of new equipment is made, (purchases including, but not limited to communication and transportation equipment) how are access requirements addressed?
40. Does the College operate any programs, services or activities from a registered historic site? If yes, please list the sites.
41. Have law enforcement officers received disability awareness training, such as the US DOJ role call videos?

42. How is access monitored during campus related projects during planning and construction?
43. When entering into settlement agreements as part of the Project Civic Access, the US DOJ requires that the staff of Title II entities, which have public contact, attend a 4-hour training covering ADA requirements and disability awareness. How is the College informing impacted staff of the College's responsibilities and disability awareness?
44. In addition to staff training provided to date, are there other trainings you think should be produced? If yes, what training is needed and for whom?
45. Are there areas, not noted above, that you think should be studied within this Self-Evaluation?
46. Does the College have a policy in place that prohibits discrimination against persons who formerly used drugs illegally?
47. Does the College have any programs that sell tickets with assigned seating?
48. How are reasonable accommodations handled for College volunteers?
49. Does the College have an anti-disability harassment policy?
 - a. If yes, is it based upon zero tolerance or the legal definition of disability harassment?

- b. How often is it disseminated to all College staff?
-
- 50. Is the President involved in and supportive of the ADA project?
 - 51. What is the policy/practice regarding faculty selecting instructional material in a timely manner in order that it may be made available in alternative format as needed?
 - 52. Does the campus operate any programs in the satellite locations? If yes, were they surveyed as part of the Transition Plan?
 - 53. What is the system for providing accommodation to programs, activities and services provided to the public? In this question we're looking at job fairs, commencement exercises, athletic events, etc.
 - 54. Has the campus had complaints regarding disability civil rights matters? If yes, please explain.
 - 55. Does the campus operate a distance learning program? If yes, how is access addressed?
 - 56. Is there a policy in place that controls the faculty use of their private websites for required instruction?
 - 57. Does the campus have "smart classrooms?" If yes, is access for persons with disabilities checked in those classrooms including site lines and access to technology?

58. How are disability civil rights addressed in program components that are provided through a third-party contract? It is important to note that the campus may not legally enter into a business arrangement that contracts the way the campus disability civil rights responsibilities.
59. Historically, has a self-evaluation or transition plan ever been performed? If yes, what was the date of these evaluations and are they available?
60. Are there policies or practices in place that exclude students with disabilities from participating in certain programs such as nursing?
61. Have community resources been identified for use in accommodation of students or the public?
62. Is a plan in place to involve student advisory groups in the ADA project in terms of project input and vetting of results?
63. Does the campus provide transportation services to field trips and events?
64. What procedure is in place to address access needs during field trips or off campus activities?
65. How does the physical education department accommodate people with disabilities?
66. How is on campus construction monitored regarding the quality of access compliance?

- 67. Does the campus rent space to third-parties for activities?
- 68. Does the College rent space off-campus for the purpose of providing programs, services or activities? If yes, how is that space evaluated for physical access?
- 69. What staff training has occurred to date regarding disability civil rights requirements?
- 70. Does maintenance staff use motorized carts, which share the path of travel with pedestrians on campus? If so, what safety considerations have been made for persons with disabilities sharing this path of travel?
- 71. Do trucks making deliveries to campus share the pedestrian path of travel? If yes, has there been an effort to minimize the comingling of pedestrian travel with delivery truck movement?
- 72. Are there campus programs offered offsite? If yes, please describe these programs.

Communications

1. Does the Campus prescribe a certain font type for Campus published documents? If yes, what font type is used?
2. Does the Campus require a certain font size in Campus publications? If yes, please name the font size.
3. Is there a notice on all Campus publications informing users that the publications are available in alternative format, if needed for persons with disabilities?
4. Have Campus publications been reviewed to determine whether they portray persons with disabilities in a demeaning or offensive manner?
5. Has the Campus staff that creates publications or correspondence on behalf of the College been trained in the appropriate use of "person first language"?
6. Have Campus telephone information lines been examined to determine whether or not they are accessible to persons who are deaf and hard of hearing?
7. Have local resources been identified which can provide auxiliary aids for communication as needed?
8. Does the Campus use any touch screen information systems for public interaction? If yes, is there an independent operating system for persons with visual impairments?

9. If videotape is used on the Campus website or in any other District forum, is it captioned?
10. Is there a policy in place for securing video remote interpreting services (VRI)?
11. If the Public Information Officer communicates with the press and releases critical information is a sign language interpreter visible and within the screenshot if television cameras are in use, or is a captioning service used?
12. Are computers used by students, such as in libraries or study halls? If yes, are they equipped with software which makes them accessible to persons with visual impairments?
13. Are videos played in such places as waiting rooms, captioned for the public?
14. If public address systems are used, is there a component that makes the information accessible to persons who are deaf or hard of hearing?
15. When announcements are distributed electronically from the Campus are they sent out in PDF and Word documents simultaneously?
16. Given the issues noted above, are there areas where you think training of Campus facility and staff would be beneficial? If yes, please list the areas of training you have identified.

Electronic Communication

1. Are all website postings reviewed for access before they are posted?
2. Have all files on Campus public sites been reviewed for access? If such a review is planned or in progress, please discuss it.
3. Do all websites meet WCAG 2.1 standards?
4. Have any complaints been received regarding access to any Campus website?
5. Is there a text equivalent, such as an alt tag on all non-text items such as photos or graphics?
6. For multimedia presentations, are equivalent accessible alternatives used, which are synchronized with the presentation?
7. If video is used is it captioned for persons who are deaf or hard of hearing?
8. When information is conveyed in color is the same information made available without the use of color?
9. Are documents organized in order that they are readable without the need for an associated style sheet?

10. Are redundant text links provided for each active region of a server-side image map?
11. Are row and column headers identified for data tables?
12. Is markup used to associate data cells and header cells for tables that have more than two or more logical levels of rows or column headers?
13. Are frames titled with text for form identification and navigation?
14. Are all pages designed to avoid the screen to flicker with a frequency greater than 2 Hz or less than 55Hz?
15. Is the text-only page, with equivalent information and functionality?
16. Is the content of the text-only page updated at the same time the primary page is changed?
17. Is updating addressed the same way for all Campus public websites?
18. If the page uses scripting languages to display content, or create interface elements, is the information provided by the script readable by assistive technology?
19. If a web page or informational kiosk requires an applet or plug in device for access, does the required device(s) comply with Section 1194.21 of the Technical Standards for Software Operating Systems (a) through (l)?

20. If electronic forms are to be filled out on line, do they work with assistive technology?
21. Have the systems discussed in question 19 been tested by end users?
22. Is a system in place that allows screen reader users to skip navigational links?
23. Are systems in place that may time out while a person is giving a response? If yes, is there a way that the user is warned and can obtain more time without losing data?
24. Are touch screen systems in use? If yes, do they have accessible operating systems for persons who are blind? If video is used, is it captioned? Does the video contain audio descriptors?
25. If Campus Council public meetings are broadcast do they have captioning?
26. Do faculty members assign students the task of visiting their personal websites as a class requirement? If yes, how does the college address its access requirements in this situation?

Law Enforcement

1. Have the campus first responders been trained regarding the disability civil rights mandates that the College is held to under State and Federal laws?
2. If applicable, have holding and booking areas been reviewed for access since the 2010 ADA Standards for Accessible Design became effective? If visitor areas are offered, are they accessible?
3. If inmate phone systems are provided is there a phone system for inmates who are deaf or hard of hearing?
4. When arrests are made, how are service animals dealt with?
5. When arrests are made, how are medical appliances (canes, walkers, hearing aids, oxygen tanks, etc.) addressed?
6. How are power wheelchairs, scooters and other large mobility devices transported after an arrest?
7. How are medication needs dealt with after an arrest?
8. When an officer is giving information (direction or Miranda Rights) to a person with a communication related limitation, how is it determined that the person has an understanding of the information being communicated?
9. How do officers communicate with persons who are deaf or hard of hearing?

10. Does the 911 system have TTY? If yes, how often does training occur regarding its use?
11. Is there a procedure in place for officers to obtain a sign language interpreter when one is needed on an emergency basis?
12. Have officers been trained regarding the best techniques for communication with persons with disabilities and officer safety? If yes, were the following disabilities covered?
 - a. Vision Impairments
 - b. Deaf, Hard of hearing and Speech Impairments
 - c. Developmental Disabilities
 - d. Traumatic Brain Injury
 - e. Post-Traumatic Stress Disorder
 - f. Learning Disabilities
 - g. Mobility Impairments
 - h. Multiple Chemical Sensitivities
 - i. Mental Disorders
 - j. Others, please list
 - k. Competing Disabilities (i.e. someone is on the bus with a service dog and another person on the bus has a phobic response to the dog and wants it removed as an accommodation. Both have rights to be considered. The passengers are in conflict).

13. Are there other issues you think should be addressed in dealing with disability civil rights and your role within the campus? If yes, please explain.

Library Services Program Survey

1. Please briefly describe the library services program elements.
2. Has the library services program received any complaints regarding access to programs, services or activities? Please explain.
3. Are all electronic communication systems within the library services program accessible to persons with disabilities? Please explain and consider software necessary for appropriate access for persons with visual impairments, clear space in the approach to equipment, audio descriptors within videotapes for persons who are blind and captioning for persons who are deaf and hard of hearing.
4. When videotape is purchased is it purchased with captioning and audio descriptions included? Please explain.
5. Are stacks and library furniture arranged in a manner that allows access for persons who use wheelchairs? Please explain.
6. How do persons of short stature, with mobility limitations, and/or with visual impairments retrieve books from high shelves? Please explain.
7. Have library services program staff who have public access been trained in disability awareness and in the legal mandates the University is held to within the library program? Please explain.

8. How do persons with disabilities obtain library materials in alternative formats such as large print, Braille, audio recordings, and documents stored electronically?
9. How do persons with visual impairments typically conduct library research projects?
10. Does the library have an emergency management plan which includes addressing the issues relative to persons with disabilities? Please explain.
11. Does the library use electronic informational kiosks? If yes, are they accessible to persons with mobility limitations, visual impairments or who are deaf and hard of hearing? Please explain.
12. Are brochure racks and bulletin boards at an elevation that makes them usable by persons with disabilities? Please explain.
13. In the spirit of continuous improvement, what actions can you recommend that would make library services program more accessible and usable by qualified persons with disabilities?

Meeting and Event Planners

For the purposes of this survey, it is important to understand that all open meetings must be addressed. Covered meetings include, but are not limited to; class meetings, commencement, new student orientation, theatrical performances, special events, etc. Thus, we are asking you to be as inclusive as possible.

1. Is notice provided within meeting/event announcements that auxiliary aids and services (reasonable accommodations) are available as needed for persons with disabilities? This may be a statement in the class syllabus.
2. Are persons administering the meeting trained regarding the College's disability civil rights responsibilities?
3. Are meetings held on public transportation routes?
4. Are meeting sites reviewed for physical accessibility before the meeting is calendared? Note: this must include arrival points, meeting room(s), supporting restrooms, drinking fountains, public phones, registration counters, etc.
5. Are service animal relief areas identified before the meeting? This may be on a campus-wide basis.
6. Are stages, speaking platforms, microphones and other items to be used by persons with disabilities accessible? Note: When considering microphone access please take into account podium elevations, touch screen control systems, goose neck microphone attached to the center of tables without knee clearance for wheelchair users, and persons who will not be able to handhold any equipment.

7. If video is used, is it captioned?
8. If video is used, does it contain audio descriptors?
9. Are speakers asked to read aloud all content on PowerPoint Presentations?
10. Is integrated seating made available with companion seating for wheelchair users?
11. If seating is at tables, is knee clearance space checked for wheelchair users?
12. Is high seating available for persons who have difficulty getting in and out of low chairs?
13. Is staff trained to set up meeting rooms to provide maneuvering space for persons who use wheelchairs or service animals?
14. Are FM Loop systems (Assistive Listening Devices) available for persons who are hard of hearing? If FM Loop systems are being used, do meeting hosts ensure that all comments made during the meeting go through the PA system?
15. If sign language interpreters or a real time captioner are being used, is there reserved seating at the front of the room for persons needing these accommodations?

16. Are two sign language interpreters retained for meetings or events lasting more than two hours?
17. Are sign language interpreters and real time captioning screens positioned close to the speaker?
18. Are sign language interpreters under good lighting?
19. Are sign language interpreters and real time captioners provided information before the meeting/event regarding any unusual terms or difficult to spell names that will be part of the program?
20. If speaker cards are to be used, is staff available to assist persons with disabilities, as needed in completing the cards?
21. If public comment time is limited, is the time increased for persons who have speech impairments?
22. If events include displays, are the displays accessible and on an accessible route?
23. Is the indoor or outdoor surface where persons with disabilities will travel smooth, stable and slip resistant?
24. Have transaction points been reviewed for clear space, and elevation?

25. If parts of an exhibit are inaccessible due to technical infeasibility, is video with captioning used to display the exhibit?
26. If buffet food services are part of the event, is support available as needed for persons with disabilities?
27. Does the campus have an event planning checklist to address access in meetings and event planning?

Physical Education

1. Are persons with disabilities served in their integrated setting?
2. Is adaptive equipment available for persons with disabilities?
3. Is there adequate maneuvering space around equipment to provide an opportunity for wheelchair users to approach the equipment?
4. Can course requirements be modified to provide people with physical disabilities an opportunity to complete physical education courses?
5. How is orientation provided for persons who are blind?
6. Have you received complaints regarding access? If yes, please explain and state how the matter was resolved.
7. What ADA access improvements would you recommend for the Physical Education Program?

Purchasing and Service Contracts

Introduction

This document is designed to bring up a few of the general issues related to purchasing and contracting, that relate to disability civil rights compliance in State and local government including public colleges. It is important to note that each business transaction must be analyzed on its own merit and that the issues raised here are typical, but not exhaustive.

General Conditions

1. Are all public documents related to bidding and contracting available to persons with disabilities in alternative format if needed?
2. Are meetings related to bidding and contracting held in accessible locations?

Construction and Remodels

1. Do all design contracts hold design professionals to designs that use, at minimum, the most stringent access standards in effect at the time of the project?
2. Do design contracts encourage design professionals to exceed the maximum access standards when possible to ensure that construction tolerances are built into the project?
3. Is a policy in place that mandates CASp inspections at key points of construction and at completion, before final payment is made?

4. Are major public projects reviewed by stakeholders with disabilities during the planning stage?

Service Contracts

1. Do all contracts in which the contractor will be providing programs, services or activities on behalf of your office, written in a manner that holds the contractor to the mandates of Title II of the ADA and California Government Code 11135?
2. If a recipient of programs, services or activities via service contracts believe that their civil rights have been violated what recourse is open to them?
3. How do the contract administrator and ADA Coordinator become aware of alleged civil rights violations? (Please discuss timelines and communication of facts.)

Purchase of Items Which Have Communication Elements

1. Is there a requirement in place that mandates the purchasing agent check the marketplace to determine if accessible items of the type being purchased are available?
2. Are items purchased examined to determine if they are useable by persons who are:
 - a. Blind
 - b. Have low vision
 - c. Deaf
 - d. Are hard of hearing

- e. Have learning disabilities (Consider items that do not contain time limits on their use and close down.)
 - f. Have limited dexterity (Consider items that do not require grasping, pinching or twisting.)
3. When questions come up regarding accessible communication purchases are outside resources consulted (Disability Advisory Committees, Jobs Accommodation Network, local Independent Living Center, etc.) before the purchase is made?

General Purchases

1. Prior to the purchase and if applicable, are building standards reviewed to ensure the item in question will be compliant when installed in its intended location? (Factors to consider include, but are not limited to; toilet paper dispensers must be located below the grab bar, items may not protrude more than 4" from the wall in a path of travel if they are placed at an elevation above 27" or below 80", there must be clear space available for a wheelchair user to be able to approach the item for use, an item must not require a person to reach higher than 48" or lower than 15" to operate unless the user must reach over other items to operate, then it lowers, etc.)
2. Is the operational presser required to use an item considered? (It should not exceed 5lbs.)
3. Is dexterity considered before a purchase is made? (Users must not be required to grasp, pinch or twist the device to operate it.)
4. When furniture is purchased is knee clearance for tables and clear space within a room considered?

Student/Community Services

1. Have you received complaints concerning your operation relative to disability access issues? Please explain.
2. Does your staff offer assistance in completing forms if, because of a disability such as physical, sensory, or cognitive, someone is unable to complete the forms independently? Please explain.
3. Are forms and publications available in alternative formats such as large print, Braille, audio recordings, and documents stored electronically? Please explain.
4. How do you provide auxiliary aids and services as needed for persons with disabilities?

ADA 28 CFR part 35 section 35.104 defines:

“Auxiliary aids and services includes--

(1) Qualified interpreters, note takers, transcription services, written materials, telephone handset amplifiers, assistive listening devices, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, open and closed captioning, telecommunications devices for deaf persons (TDD's), videotext displays, or other effective methods of making aurally delivered materials available to individuals with hearing impairments;

(2) Qualified readers, taped texts, audio recordings, Brailled materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments;

(3) Acquisition or modification of equipment or devices; and

(4) Other similar services and actions”.

Please explain.

5. Has staff been trained concerning disability etiquette awareness and person first language? Please explain.
6. Is furniture arranged and maintained in your office in a manner that provides clear space for wheelchair access or space for service animals? Please explain.
7. Are brochure racks and bulletin boards at an elevation and reach range that makes them usable by persons with disabilities? Please explain.
8. Are there any policies that your office has created to deal with disability access issues? If yes, please attach them.
9. Do you have suggestions concerning how access to your programs, services and activities could be enhanced for persons with disabilities? Please explain.
10. Does your office sponsor or host public meetings and events? If yes, please complete the questions concerning production of meetings and events.
11. Does your office have an emergency management plan which includes persons with disabilities? Please explain.

Medical Services

Introduction

The questions below represent a few common issues that persons with disabilities encounter while obtaining medical services. Each interaction with a patient or medical facility visitor will differ. It is important that they receive the same level of care provided to other persons within the health care system. If you see issues that are not addressed below, please add them as notes at the bottom of this survey.

1. Do medical facilities have a space where a wheelchair user can be examined on an examining table rather than being examined while in their chair?
2. Is assistance available, if needed, to assist the patient in transferring from their wheelchair to an examining table?
3. Can services be provided to the patient without assistance from friends or family members of the patient?
4. In instances where the patient requests a family member or friend to assist, has a medical provider been trained to speak directly to the patient, rather than directing pertinent questions to the party providing assistance?
5. Is a policy in place which ensures that the patient will be treated despite the fact it may take longer to treat them than it would other patients?
6. Are there times when patients are required to wait longer than other patients for treatment because the accessible equipment needed is in use?

7. Is a patient ever asked to use the services of a friend or family member for sign language interpreting?
8. Have all medical facilities been reviewed for physical access by a CAsP certified surveyor?
9. Is the medical equipment accessible to persons with disabilities?
10. Are waiting room furnishings arranged in such a way that there is space for wheelchair users or persons using service animals to sit?
11. As a best practice, are high and wide based seating available in waiting rooms to accommodate patients that have difficulty getting out of low chairs, or who are large and may not fit into standard chairs?
12. If paging systems are used, is there a video paging component for persons who are deaf or hard of hearing?
13. Has all staff having contact with the public received disability awareness and etiquette training?
14. If health education is provided, are class materials available in an alternative format, if needed, to create access for persons with disabilities?
15. Do training videotapes have captioning for the deaf and hard of hearing and audio descriptors for the blind?

Emergencies and Office Sites

1. Has the Campus used the guidance published by the EEOC regarding a lawful means of identifying employees who might need assistance during an emergency due to their disability?
2. Are floor wardens in place to assist during an event? If yes, please respond to items 3 and 4 below.
3. Have floor wardens been trained regarding the needs of persons with disabilities in emergency situations?
4. If floor wardens are assigned the responsibility of assisting persons with disabilities, are redundancies made in the assignments? (Consider wardens who might not be in the office on the day of the event.)
5. Has the emergency plan been coordinated with the Fire Department?
6. Is there a procedure for shutting down the intake on the HVAC system, if there is a need to shelter in place, due to contamination of the air outside the building?
7. Are persons with disabilities involved in emergency plan creation, drills and debriefings?
8. In the event of an emergency evacuation, has the path of travel and assembly been coordinated with the Fire Department? (Consider Fire Department

points of arrival, staging area, areas for fire hoses, wheelchair users, distance needed from emergency site, etc)

9. How would communication be addressed during an active shooter event?
Please consider persons who are deaf or blind.
10. In response to a bomb threat, if evacuation is required, is the assembly site checked for explosives before it is populated?
11. If the event involves the need for site occupants to be decontaminated before leaving the site, is there a procedure in place to hold all parties on site until decontamination has been completed?
12. During shelter-in-place events, how are medical and medication needs addressed?
13. Can the person onsite handling the event until the Fire Department arrives, communicate with the Fire Department as they are rolling to the site?
14. Is there information available to staff regarding how to deal with various types of events? (Consider earthquake, fire, shooting, bomb threat, civil unrest, terrorist attack, etc.) If yes, has it been made available to employees, if needed, in alternative formats?
15. Is the whole site covered by fire alarms and strobe lights?
16. Are exits clearly marked?

17. Are back-up emergency evacuation chairs in place?
18. If areas of safe refuge will be in use, is there a communication system from that site to the event control center? If yes, would this system work for a deaf person?
19. Are all PA systems monitored by maintenance staff to ensure the volume is high enough to be heard throughout the intended areas of impact?
20. Are emergency evacuation chairs to be used? If yes, consider:
 - a. Has staff been trained in the use of these chairs?
 - b. If yes, did this training include information regarding the risks of transferring some persons with disabilities into and out of the chair?
 - c. Have impacted employees with disabilities been involved with the training?
 - d. What is the plan should the chair need to be used for more than one person? (Consider where the first evacuee will be left when the chair is taken back into the site for reuse.)
 - e. Have the chairs been tested in the stairwells to ensure they can operate and turn in the space available?

- f. What is the plan in the event the slow-moving chairs create a back up in the stairwell?
 - g. Are the chairs stored close to where they will be used?
 - h. Are there any barriers or locks impacting ability to obtain them when needed?
 - i. Are chair manufacturer directives, if any, followed regarding maintenance?
- 21. Is there a plan in place to keep people hydrated if it is necessary to hold them outside the building for a prolonged period during hot weather?
- 22. Do elevators have a system to communicate, if a person is trapped? If yes, will this system work for a person who is deaf or has speech limitations?
- 23. Has emergency management staff been trained regarding the variety of events that might occur and their impact on persons with disabilities?

1. **Item Number:** Number corresponding to the number on the Barrier Location Map which identifies the general location of the identified barriers.
2. **Item Name:** Describes the barrier location / item title (e.g.: parking lot, room name).
3. **As-Built Description:** Description of identified barrier based on applicable accessibility codes.
4. **As-Built:** Existing conditions / dimensions.
5. **Proposed Solution:** Description of steps necessary to remove barrier and, if applicable, an interim or alternative solution.
6. **Notes:** Additional notes pertaining to barrier.
7. **Codes / Info:**
 - PCODE: specifies the relevant SSA database code. Database code plus suffix
 - REF: data shown for reference only [scope of work related to or covered by other item].
 - NT: non-typical problem or solution.
 - ADAAG/ADA 2010: The Federal Standard for accessibility adopted by the Department of Justice.
8. **Qty:** Number of units required.
9. **Type:** Unit of measurement used to compute conceptual cost estimate. LF=linear feet; SF=square feet; JOB=lump sum.
10. **Cost:** Estimated conceptual cost of specified solution per one unit.
11. **Total:** Total estimated conceptual cost for removing identified barrier (multiplied Qty by Cost).
12. **ID No:** Specifies Facility Number, Area Number: 1=Interior / 0=Exterior, and Part / Floor Number.

• **As-Built Description:**

Wheelchair space (33"x48") not provided at fixed seating with forward or rear approach. (NOTE: Space must be adjacent to regular seating; can provide easily removable fixed seat).

• **Proposed Solution:**

Remove fixed seating and provide wheelchair space plus necessary maneuvering clearance.

• **Notes:**

Wheelchair space overlaps circulation path and obstructs the accessible route.

1 Stairs to South of Bldg

Tread Surface

687

- As-Built Description:**

Contrasting color strip not provided at all stair nosings.

- Proposed Solution:**

Provide contrasting color strips at all exterior stair treads when altering area.

- Notes:**

There is an accessible route connecting the levels on the north side of the building. Therefore this is only required in alterations.

Bottom Extension at Stairs

686

- As-Built Description:**

Stair handrail does not extend one tread width sloped plus 12" min. horizontally beyond bottom riser.

- Proposed Solution:**

Extend stair handrail at bottom (cost for each extension piece).

- Notes:**

There is an accessible route which connects to levels and therefore these are only required in alterations.

2 Parking

Parking

1838

- *As-Built Description:*

Accessible parking space(s) not located close to the nearest possible entrance on an accessible route.

- *Proposed Solution:*

Relocate accessible parking space(s).

- *Notes:*

There is one space that is marked accessible but it is not closest to building 9. It is the space that has been surveyed as the accessible space for building 11. It is unclear how many parking spaces serve buildings 9, 10 and 11.

Door

2054

• **As-Built Description:**

Surface of required maneuvering clearance at door slopes more than 1/4":12" (2.0%).

- **As-Built: 8.2% slope on the exterior side of this door**

• **Proposed Solution:**

Modify surface slope at door.

• **Notes:**

Verify whether this is a required exit. There are two exit doors from the room. There are crossed slopes on the route outside of the door as well. Consider a directional sign on the interior side of the door.

Protrusion Limits

1402

- *As-Built Description:*

Protruding objects more than 4" from wall, when bottom of object more than 27" or less than 80" above finished floor.

- *As-Built:* **Defibrillators protrude 6.5" at 40" high**

- *Proposed Solution:*

Provide cane-detectable railing to mark area of low clearance.

Signage

1451

• **As-Built Description:**

Exterior signage at inaccessible entrances to provide direction to accessible entrances is missing or noncompliant.

• **Proposed Solution:**

Provide signage sufficient to guide persons to accessible entrances.

• **Notes:**

There are multiple barriers to accessibility on the exterior of the room. A directional sign has already been called out at this location. Cross slopes, gaps, level changes, running slopes, steep slopes at the doorway and a walk that is not wide enough would need remediating in order to make the exterior door and route accessible.
